FAA Project Goals (§26.45)

Name of Recipient: City of Albuquerque – Aviation Department

Goal Period: October 1, 2009 through September 30, 2010

DOT-Assisted Contract Amount: \$3,000,000

DBE Project Goal: 0.87%

Number and Type of Projects for this FY:

1. Albuquerque International Sunport – Roof Mounted Solar Photovoltaic Systems

Market Area: The market area was determined to be Market Area One. Geographical Area One is located in the central portion of New Mexico and is comprised of the following counties: Sandoval, Santa Fe, Bernalillo, Valencia, and Los Alamos. A substantial majority, approximately 55 percent, of contractors that perform work at the City of Albuquerque – Aviation Department are from the counties that make up Geographical Area One. A map and breakout of the market areas can be seen as an attachment.

Analysis

Project: Design and Construction of Roof Mounted Solar Photovoltaic Systems

Amount: \$3,000,000

Step One: The method used to calculate the relative availability of the DBE's for Step One in this process utilizes 26.45(c)(1) DBE Directories and Census Bureau Data. The base figure was determined by dividing the total number of DBE firms in the local market area by the total of all firms in the market area.

TABLE 1
PROJECT ONE: DESIGN AND CONSTRUCTION OF GA APRON

NAICS Code	Work Item	DBE's in Market Area	All Available Firms	Total Amount	Weight Factor
23821	Electrical-Specialty	2	319	\$2,250,000	75.00%
2381	Structural	8	403	\$150,000	5.00%
23816	Roofing	1	82	\$600,000	20.00%
	Total	11	804	\$3,000,000	100.00%

Source: County Business Patterns and NMDOT DBE Directory

The construction estimate for this project is \$3,000,000. Of that amount, \$2,250,000 or 75% is anticipated for electrical; \$150,000 or 5% is anticipated for structural; and \$600,000 or 20% is anticipated for roofing.

Therefore, the baseline DBE goal for this contract was weighed so that it would more accurately reflect the potential DBE participation as shown below.

E=Electrical

S=Structural

R= Roofing

$$\text{Project One Base Figure} = \frac{E (\%) \times \# \text{DBE in Local Market (E)}}{\# \text{All Firms (E)}} +$$

$$S (\%) \times \frac{\# \text{DBE in Local Market (S)}}{\# \text{All Firms (S)}} + R (\%) \times \frac{\# \text{DBE in Local Market (R)}}{\# \text{All Firms (R)}}$$

$$\text{Project One Base Figure} = .7500(2/319) + .0500(8/403) + .2500(1/82)$$

$$\text{Project One Base Figure} = 0.87\%$$

Step Two: This step is intended to adjust the base figure percentage calculated in Step One to reflect as accurately as possible the DBE participation that the City of Albuquerque – Aviation Department would expect in the absence of discrimination.

We have considered all of the other factors, which include the current capacity of DBE's to perform work in the DOT-assisted program. We also considered the available evidence from related fields that affect the opportunities for DBE firms to form, grow, and compete. In our research, none of the previously mentioned factors require an adjustment to the base figure.

Our base figure is not the goal of another recipient and therefore was not considered as an adjustment factor.

In our research, we discovered that a disparity study was completed for the City of Albuquerque by B.B.C. Research, out of Denver, Colorado, in 1995. Though the City of Albuquerque is within our market area, this information is outdated and is not considered as an adjustment factor.

There have been not been similar projects at the City of Albuquerque – Aviation Department; therefore, past project goals were not taken into account for this project.

The proposed project goal for the City of Albuquerque – Aviation Department can be seen below.

City of Albuquerque – Aviation Department Proposed Project Goal = 0.87%

Breakout of Estimated Race-Neutral and Race-Conscious Participation (§26.51 (b) (1-9))

The City of Albuquerque – Aviation Department will meet the maximum feasible portion of its project goal by using race-neutral means of facilitating DBE participation. The City of

Albuquerque – Aviation Department uses the following race-neutral means to increase DBE participation: By arranging solicitations, times for the presentation of bids, quantities, specifications, and delivery schedules in a way to facilitate DBE and other small businesses' participation (e.g., requiring and/or encouraging prime contractors to subcontract portions of work that they might otherwise perform with their own forces).

The following is a summary of the basis of our estimated breakout of race-neutral and race-conscious DBE participation. The City of Albuquerque – Aviation Department estimates that in meeting its project goal of 0.87% for this project, we will obtain 0% from race-neutral participation and 0.87% from race-conscious participation. An overall FY 2010 goal was already established; however, due to the uniqueness of this project, we felt the overall goal could not be met due to the number of specialized contractors that would realistically be able to participate in the construction of this project.

The City of Albuquerque – Aviation Department will adjust the estimated breakout of race-neutral and race-conscious DBE participation as needed to reflect actual DBE participation and track and report race-neutral and race-conscious participation separately. For reporting purposes, race-neutral DBE participation includes, but is not necessarily limited to, the following: DBE participation through a prime contract obtained through customary competitive procurement procedures, DBE participation through a subcontract on a prime contract that does not carry a DBE goal, DBE participation on a prime contract exceeding a contract goal, and DBE participation through a subcontract from a prime contractor that did not consider a firm's DBE status in making the award.

Public Participation

Public Notice

The proposed goal and rationale was advertised in the Albuquerque Journal, 7777 Jefferson NE, Albuquerque, NM 87109, 505-823-3800.

Sample Public Notice Language

Disadvantaged Business Enterprise (DBE) Goals

The City of Albuquerque – Aviation Department hereby announces its Project DBE Goal of 0.87%. The proposed goal and goal-setting methodology are available for inspection between 8:00 a.m. and 5:00 p.m., Monday through Friday, for a period of 30 days following the date of this notice at the Albuquerque International Sunport, Aviation Department, 2200 Sunport Blvd. SE, Albuquerque, New Mexico 87106. The Project DBE goal will also be available for viewing on the internet at <http://www.cabq.gov/airport/>.

The Aviation Department will accept comments on the DBE goals for 45 days from the date of this notice. Comments can be sent to either of the following:

Fort Worth, TX 76137-4298

Contract Goals

The City of Albuquerque – Aviation Department will establish contract goals only on those DOT-assisted contracts that have subcontracting possibilities. It need not establish a contract goal on every such contract, and the size of the contract goals will be adapted to the circumstances of each such contract (e.g., type and location of work and availability of DBE's to perform the particular type of work).
