AMERICAN
GYPSUM

7/16/10

Janice C. Wright
Air Quality Control Board Liaison and Hearing Clerk
Air Quality Division, City of Albuquerque

Reference: 20.11.2 NMAC, Fees

Dear Janice Wright,

American Gypsum objects to the proposed increase in fees. The prevailing economic conditions have had an especially hard impact on the building materials and construction industries. These conditions have forced American Gypsum to temporarily shut down operations at its facility in Bernalillo. The economic downturn has also resulted in our Albuquerque facility having to operate at a reduced capacity. The City's proposed fee increases will impose an additional burden on operating costs for our Albuquerque plant and will have a significant negative impact on that facility.

Sincerely,

Peter L. Bauer
VP Manufacturing - West
American Gypsum Company
