INTEROFFICE MEMORANDUM

TO: Mary Lou Leonard, Director, Environmental Health Department
Margaret Nieto, Control Strategies Manager, Environmental Health Department

FROM: Rey Garduño, City Council, District 6

SUBJECT: Proposed Changes to NMAC Fees

DATE: September 15, 2010

CC: Laura Mason, Director of Council Services

With the proposed changes to NMAC Fees, I suggest that the fee increases be in accordance with the Consumer Price Index (CPI). If the increase is capped, it would hinder our ability to cover the costs of operating our air quality program. It is essential that this program is sustainable as the health and safety of our communities is directly related to our air quality.
