Subject: RE: Open Burning Review Draft

Mr. White,

I apologize for the incorrect date of the hearing.

It is scheduled for March 9, 2011, this Wednesday we will be presenting proposed amendments to Fees and GHGs not Open Burning (see http://www.cabq.gov/airquality/aqcb/events/December-8-2010/).

The proposed amendments to the Open Burning rule will be in stakeholder review until 12/20/10; it will then be in public review until the hearing. Anyone wishing to present technical testimony at the hearing must file an NOI by 2/22/11.

Thanks,

Neal

"Full fathom five thy father lies;
Of his bones are coral made;
Those are pearls that were his eyes:
Nothing of him that doth fade,
But doth suffer a sea-change
Into something rich and strange.
Sea-nymphs hourly ring his knell:
Ding-dong.
Hark! now I hear them—Ding-dong, bell."

William Shakespeare - The Tempest - Ariel's Song

Mr.. White,

thank you for your comments. The Air Quality Division will withdraw its proposal to extend the timeframe to 15 days, and revert back to the current language of 5 days.

Subject: Open Burning Review Draft

Neal,

Thank you for the opportunity to comment. We periodically perform rock excavation by blasting. I note you have added an item 6 for Below Ground Detonation, which is appreciated. We would of course prefer to have only a 5 day requirement for the permit process. We have had a couple public projects with accelerated schedules and short notice, but I think in general in the cases that we deal with we can make the 15 days work.

Thanks again,

John L. White
