What You Should Know About
Emission Testing and Repair

Albuquerque
Bernalillo County

Vehicle Pollution Management Program

1500 Broadway Boulevard NE
Albuquerque, NM 87102

(505) 764-1110

www.cabq.gov/aircare

Air Pollution is a threat to our health and our economy

Motor vehicles are the primary source of air pollution in the Albuquerque area. The emissions testing program was started in 1983 to reduce carbon monoxide, hydrocarbons and visible smoke from motor vehicles and oxides of nitrogen as these both contribute to ground-level ozone or smog.

On the average, 24,000 vehicles fail every year. Most vehicles are repaired and pass a retest within 90-days.

Albuquerque/Bernalillo County residents and fleets are required by the Federal Clean Air Act to test and repair vehicles.

All 1984 and newer vehicles up to 10,000 lbs. GVW must be tested

All vehicles manufactured since 1984, including government, public utility and private fleets must pass an emissions inspection to be registered in Bernalillo County.

The inspection for 1984 and newer model year vehicles covers the following

All Vehicles

- 1. Pollution control equipment** - Catalytic converter and connections.
- 2. Visible smoke** - For burning oil or poor fuel combustion resulting in toxic particulate emissions.
- 3. Gas cap(s)**- For gas vapor leaks.

1984-1995 Vehicles receive a Tailpipe exhaust analysis for excessive carbon monoxide and hydrocarbon levels.

1996 and Newer Vehicles model year vehicles include On-Board Computer (OBDII) test.

Information Regarding Emissions Testing

Emissions testing is required every two years prior to registering the vehicle with MVD. If you would like to check the status of your previous emissions test, please to go to www.cabq.gov/aircare

Emissions Inspections Required in 2018

- **1984 and newer vehicles up to 10,000 lbs. GVW** must be tested every two years.
- **Hybrid-Electric Vehicles** - Must be tested every two years.
- **Commuter Vehicles** - All vehicles entering Albuquerque/Bernalillo County 60 or more days a year must be tested.
- **Change in Vehicle Ownership** - You must have a valid test certificate to register your vehicle. Vehicles tested in the previous 90-days before the ownership change can receive a free retest at the VPMD.

Vehicles Not Requiring an Emission Inspections in 2018

- New vehicles, original owner, from dealership or manufacturer, for four years following initial registration.
- Dedicated electric vehicles.
- Diesel vehicles.
- Vehicles that are fueled by a mixture of gasoline.
- Vehicles that are used for legally sanctioned competition.
- Farm equipment.
- Vehicles that are not operated on public streets and highways.
- Vehicles with a GVW of 10,001 lbs or more.

The City offers a FREE Retest and Time Extension for Repair

Free retest: Motor Vehicles that fail an emission test are eligible for **one** free retest. Bring your failed test and vehicle to VPMD.

Time extension: To apply for a time extension please refer to the instructions on the back of the failed test.

All vehicles operating in Albuquerque are subject to smoking vehicle laws

Citizens may register a complaint regarding a smoking vehicle. If a complaint is filed against a vehicle, the owner must present the vehicle to the 1500 Broadway Blvd NE testing facility for inspection. Smoking vehicles will be given 60-days to take corrective action. If the vehicle is not brought in for an inspection, the owner may be fined up to \$500 by law enforcement. Please call 311 to file a smoking vehicle complaint or file on-line at: www.cabq.gov/aircare

When considering the purchase of a used vehicle please

TEST BEFORE YOU BUY!
