

Natural Weed Spray

This is an easy, simple solution to the weed problem in your yard. All it takes is some things that you can find in your own home. Of course the best way to get rid of pesky weeds is to pull them out from the root, however sometimes you just don't have time to do that. Below you will find the directions for making this pollinator friendly, natural weed killer spray. For this recipe you will need: vinegar, salt (Epsom, rock, or table), dish soap and a spray bottle. Say goodbye!

Ingredients:

2 Cups of Vinegar

1/2 Cup of Rock, Epsom or Table Salt

1/4 Teaspoon of Dish Soap

Spray Bottle or something

Directions:

Combine the vinegar, salt, and dish soap together in a container

Then pour the mixture in to a spray bottle

Spray the weed killer onto any of the weeds you find in your yard
