

Table of Contents

	Page(s)
Introduction and Study Area Background Information	1-2
A. Brief History of Montaña Road	1
B. Study Purpose and Study Area	1
Public Information Meetings and Public Involvement Data	2-3
A. January 13 th Public Information Meeting	2
B. August 9 th Public Information Meeting	2
C. August 30 th Public Information Meeting	3
D. Key Public Comments	3
Inventory of Existing Roadway Characteristics	4-12
A. Character of Minor Arterials	4
B. Typical Existing Roadway Sections	5
C. Existing Signalized Intersection Layouts	7
D. Access points (Unsignalized)	8
E. Bicycle and Pedestrian Facilities	11
F. Miscellaneous Existing Characteristics	12
Land Uses, Economic Activities and Travel Patterns	12-15
A. Land Use & Economic Activities	12
B. Travel Patterns and Growth	14
Future Conditions	15
Noise Analysis, Vibration Monitoring, and Biology Survey	16
Existing Traffic Data	16-20
A. Traffic Signal Timing	16
B. Auto Occupancy Survey Data Collection	16
C. Traffic Counts and Data	18
D. Field Observations	18
E. Accident Data	18
Methodology and Standards	20-21
Analysis of 2005 Existing Traffic Data and Conditions	21-25
A. Model development and calibration	22
B. Year 2005 Traffic Analysis	23
C. Key Findings – 2005	24
Alternative Development	25-29
A. Development of Corridor Alternatives	25
B. Alternatives	25
C. Narrowing of Developed Alternatives to Candidate Alternatives	28
