District 5

In District 5, the City's Economic Development Department and Albuquerque City Councilor Cynthia Borrego identified eight thriving commercial areas.

District 5 is a newer area of town earning our attention and support by each unique District 5 area's offerings.

We are here to help District 5 businesses organize to increase market share and preference, create a strong Police presence, and identify future beneficial urban amenities, such as specialized lighting, street furniture, or slowed traffic, and more.
