What You Should Know About Emission Testing and Repair

**Albuquerque/
Bernalillo County**

**Vehicle Pollution Management Program
1500 Broadway Boulevard NE
Albuquerque, NM 87102**

(505) 764-1110

www.cabq.gov/aircare

Facts:

Air pollution is a threat to our health and our economy

Motor vehicles are the primary source of air pollution in the Albuquerque area. The emissions testing program was started in 1982 to reduce carbon monoxide (CO), hydrocarbons (HC) and visible smoke. The test & repair program was upgraded in 2012 to further reduce hydrocarbons (HC) and oxides of nitrogen as these both contribute to ground-level ozone or smog, the pollutant of most concern now.

Over 30,000 vehicles fail an emission test here each year. Most vehicles are repaired and pass a retest within 90 days. Albuquerque/Bernalillo County residents and fleets are required by the federal Clean Air Act to test and repair

Facts:

All 1980 or newer vehicles up to 10,000 lbs. gvwr must be tested

All vehicles manufactured since 1980, including government, public utility and private fleets, must pass an emissions inspection to be registered or operated in Bernalillo County.

The inspection for 1980—1995 model year vehicles covers the following:

- 1. Pollution control equipment** catalytic converter and connections.
- 2. Tailpipe Exhaust analysis** - For excessive carbon monoxide and hydrocarbon levels.
- 3. Visible Smoke** - for burning oil or poor fuel combustion resulting in toxic particulate emissions.
- 4. Gas caps**- for gas vapor leaks.

The inspection for 1996 and newer model year vehicles includes the **Check Engine Light, Diagnostic Trouble Codes, Catalytic Converter and Gas Cap Leak test.**

Facts:

You will receive notification for testing from the MVD on your registration renewal card

Have the testing done immediately upon receipt of notification to allow sufficient time for repairs and re-testing if necessary.

PASS certificates are valid for registration purposes for 90 days.

Facts:

The City offers FREE Retests and Time-Extensions for repair

Motor vehicles that fail an emission test are eligible for a free re-test. In order to receive the free re-test, the vehicle owner must bring the vehicle and the failed test to 1500 Broadway Blvd NE, between the hours of 8:00 am and 4:30 pm, Monday through Friday.

Most vehicles which failed because of excessive exhaust emissions can be brought into compliance with a tune-up.

Vehicles which require repairs costing more than \$300 may be eligible for a time extension. To apply for the time extension, the vehicle must be brought to 1500 Broadway Blvd NE. The applicant must also bring the failed test with repair receipts or documentation of diagnosis and an estimate of repair costs. The back of the failed test has a form for this purpose.

Facts:

New Mexico is a "Buyer Beware" state

When considering the purchase of a used vehicle **please:**

TEST BEFORE YOU BUY!

Emissions Inspections Required in 2014

- 1980 and Newer:** vehicles must be tested every two years and following any change of ownership.
- Commuter Vehicles:** into Bernalillo County require a test every two years.
- Diesels:** 1998 and newer diesels are required to be tested every two years.
- Electric:** fully dedicated electric vehicles are exempt from testing.
- Hybrids:** require testing every two years.
- New Vehicles:** exemption extended to four (4) years from date of purchase.

All vehicles operating in Albuquerque are subject to smoking vehicle laws

Private citizens may register a complaint regarding a smoking vehicle. If a signed complaint is filed against a vehicle, the owner must present the vehicle to the 1500 Broadway Blvd NE testing facility for inspection. Vehicles will be given 60 days to take corrective action. If the vehicle is not brought in for an inspection, the owner may be fined up to \$500. Please call 764-1110 to file a smoking vehicle complaint or file on-line at www.cabq.gov/aircare.
