Key insurance terms

Insurance can be one of the most confusing parts of healthcare. We want to help you understand your benefits so you can feel confident – and avoid surprises – when you use them.

Here are some key health insurance terms that are important to understand.

TYPES OF COST SHARING

Cost sharing is the amount you pay versus what Presbyterian Health Plan pays for covered services. Below are the types of cost sharing:

Coinsurance: The percentage amount of a covered healthcare service that is partially paid by you and partially paid by the health plan.

Copayment (copay): The fixed dollar amount you are required to pay for a healthcare service.

Deductible: The amount that you pay annually before your plan contributes. The deductible does not apply to all services. Once you meet your annual deductible, your plan will share the cost.

Out-of-pocket maximum: The maximum dollar amount that you will pay in a calendar or plan year for covered services (includes copayments, coinsurance, and deductibles but not premiums). After you have met the out-of-pocket maximum, the plan will pay 100 percent of covered services.

Need more information? Visit www.phs.org/members.

Here you can:

- Find important forms and documents
- Watch a video on how cost sharing works
- Review a Frequently Asked Questions (FAQ) resource
- Read health plan newsletters
- And much more...

Keep your costs low and avoid surprise medical bills

Understand your policy

- Closely review this guide to understand the basics.
- Review your Summary Plan Description for services you know you will use.

Use in-network providers. You will always save money when you use in-network providers. Here are a few tips to consider:

- Ask your provider to send your lab work to TriCore Reference Laboratories. This is your plan's in-network lab provider.
- When getting a specialist referral, ask your provider to send you to an in-network provider.
- When having a procedure, ask for a complete list of in-network providers and facilities.

Before seeking healthcare services

- Review this guide (or your online Summary Plan Description) to determine your cost sharing and if your service requires prior authorization.
- Talk to the provider's office to find out if pre-payment is required. Our local Presbyterian Customer Service Center is also available to help answer any questions you may have.

Emergency treatment. It's important to have an emergency care plan in place well before you need it.

- Determine which in-network hospital(s) you prefer to go to.
- For non-life-threatening situations, going to an urgent care, doing a Video Visit, or visiting the MHC or your primary care provider may be an option.
- PRESNow, Presbyterian's new 24/7 urgent and emergency care facility, at three locations to serve Albuquerque.

Keep your costs low and avoid surprise medical bills

Preventive care. There may be times that you have other concerns about your health during your preventive care visit.

- You may be charged for a regular visit if your preventive visit turns into a regular visit.*
- Know that your visit will change to a regular visit if you ask about other concerns you may have about your health.

*Claims that are billed by the provider as preventive services will be covered with no cost sharing. Any non-preventive codes, further testing or treatment identified during a preventive service means cost sharing may apply. See your benefit plan for your cost-sharing amount.

Call us if you have questions or get an unexpected bill.

We're here to help you. Just call our local Presbyterian Customer Service Center at **(505) 923-7787** or **1-855-261-7737**.

Our claims process

From the day of your appointment or other medical service to receiving your Explanation of Benefits (EOB) in the mail, this is how Presbyterian Health Plan processes your claims:

- You present your member ID card at the healthcare provider's office.
- After your visit, your provider's office will send us a claim. A claim is a request for payment that you or your provider submits to your health insurer when you receive services or items you think are covered.
- We process your claim according to your plan's benefits.
- We send you an EOB that explains how your claim was processed. We send a statement, along with any applicable payment, to your provider's office.
- Your provider may bill you for any remaining balance, depending on your plan's benefits. If you have any questions or concerns, you can always call the Presbyterian Customer Service Center at the number on the back of your member ID card.

Tip:

Review your EOBs carefully. EOBs tell you what your plan has paid on your behalf and exactly what you should be paying for healthcare services. This is called cost sharing.

Filing a complaint: Appeals and Grievances

We are committed to providing you with high-quality care and service. If you're not satisfied, we want to know. There are two types of complaints you can file if you are not satisfied with the coverage of your services or with your care:

Grievance	Appeal
An official notice of your dissatisfaction with your health plan or your care.	A formal request for review of a decision or action that Presbyterian Health Plan has made that affects your healthcare, e.g., a denial or limitation of a service.
You must file your grievance within 180 calendar days of the date that you had the problem.	You must file your appeal within 180 calendar days of the date that you received notice of Presbyterian Health Plan's decision.
Most grievances take up to 30 days to resolve.	Most appeals take up to 30 days to resolve. If you believe your health will be in danger if you wait that long, you may ask for an expedited appeal.

You can file a grievance or an appeal in one of three ways:
