

Community Facilities

<u>Project Title</u>	<u>2017</u>	<u>Scope</u>
		<i>Environmental Health</i>
Health and Safety Equipment, Vehicles and Software and Training Materials	\$300,000	Plan, design, test, purchase and outfit necessary equipment and service vehicles, and otherwise improve, furnish and/or rehabilitate Environmental Health Department facilities associated with City managed and/or regulated environmental health programs through maintenance and/or construction. Programs may include, but are not limited to air quality; consumer health protection; environmental services; epidemiology; landfill investigation, monitoring and remediation strategic support and urban biology. Plan, design, develop, purchase and implement software packages, professional services and training/outreach materials related to the replacement, upgrade or expansion of business systems in order to enhance or improve operations and business processes. Provide for training, including travel costs, as needed in support of these goals.
Los Angeles Landfill Remediation	\$200,000	Design and construct improvements at the former Los Angeles Landfill. Improvements may include but are not limited to, grading and drainage required by subsidence of the landfill from deteriorated municipal solid wastes; utilities which require replacement due to subsidence; improvements to the landfill gas extraction/flare system; soil vapor extraction and ground water remediation system; improvements to the drainage inlet at the North Diversion Channel; and any other action required to protect the health and safety of the public.
Environmental Health Satellite Facility Rehabilitation	\$100,000	Plan, design, construct and/or rehabilitate existing Environmental Health Department facilities and components to extend serviceable life and increase energy efficiency. Purchase related equipment, lighting, utility upgrades and furnishings.
Total	\$600,000
