Project Description:

Architectural consultants with planning, landscaping and engineering design expertise to create a plan to enhance select areas along the Rio Grande for visitors to Albuquerque and to improve access and quality of life for local residents. Project scope includes mapping selected locations along the Rio Grande and identifying potential 'Enterprise Zones' at, or in-between, each major crossing. Crossings have traditionally been developed and would be the most likely locations for improvements while having a minimal environmental impact on the river. Development in these zones could include a restaurant near the river but outside of the Bosque itself, enhanced river access and amenities (boardwalks, scenic overlooks, trails, picnic areas, restrooms and other recreational amenities), as well as provide economic development opportunities for Albuquerque. Consultant to provide maps showing river crossings, possible enterprise zones, land ownership, zoning requirements and potential improvements. The Consultant shall coordinate with the following agencies to create a list of possible uses and costs: City of Albuquerque Parks and Recreation Department, Middle Rio Grande Conservancy District (MRGCD), Corps of Engineers and the Bureau of Reclamation.
