

4.0 Streets and Streetscape Standards

4.4.1. **Recommended Limited-Access Intersections:** Much of the development in Volcano Heights will be highly dependent on additional access from the regional limited-access roads, Unser Boulevard and Paseo del Norte. This Plan recommends that the City submit a request for Access Modification through the official process outlined in **Appendix A** for the access points shown in **Exhibit 4.3**. See additional Transportation Policies in **Section 13.3**.

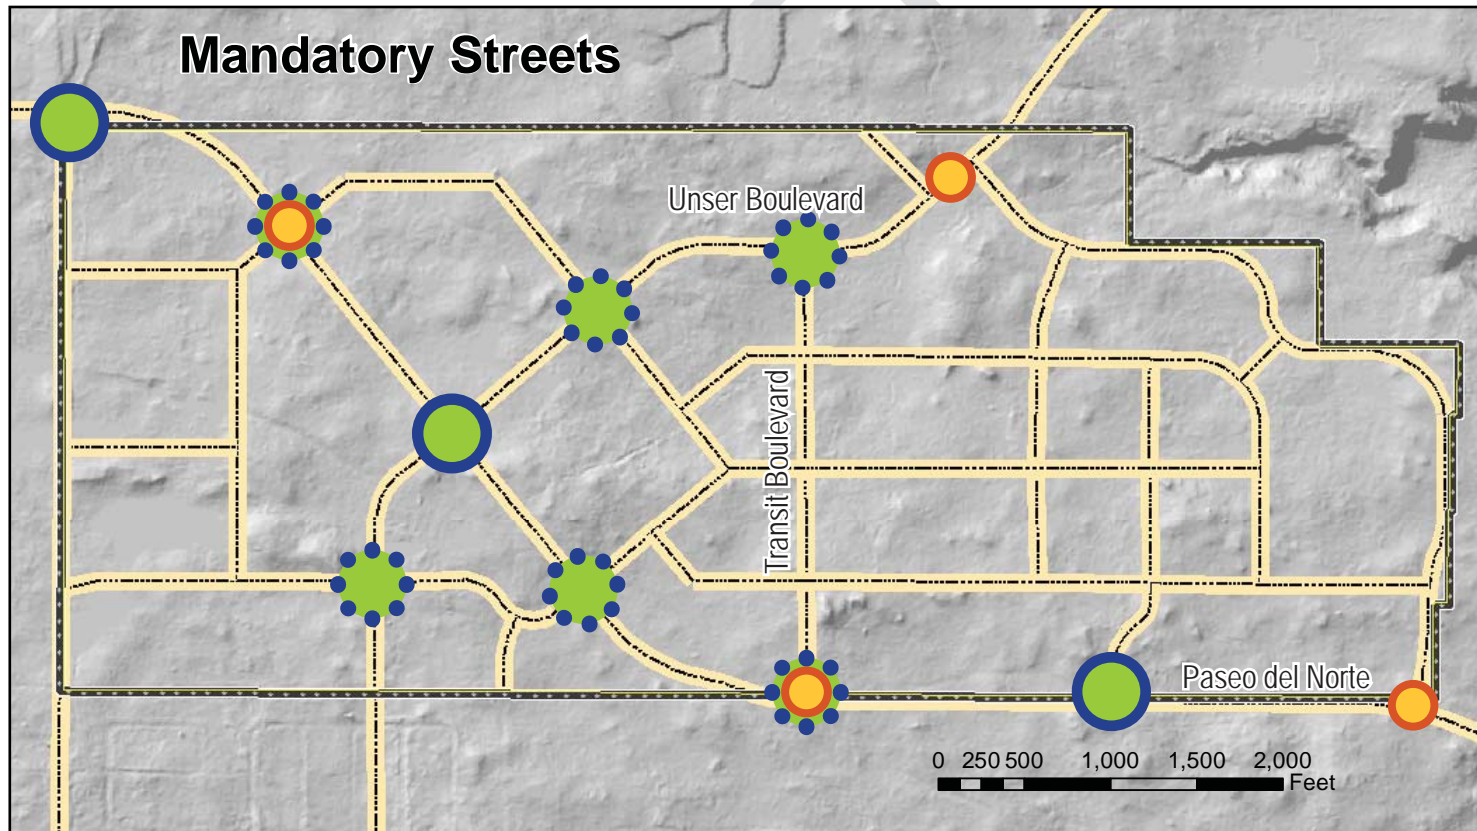

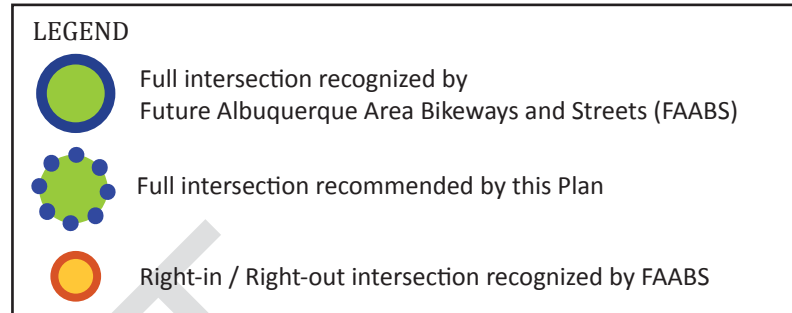

Exhibit 4.3 – Recommended Intersections
