

Meetings Comments from May 2nd,

Can we close alleys between San Pedro and Louisiana? They are not safe, people are living in them, they provide cover for criminal activity.

Will trailer parks remain in the San Pedro to Louisiana?

Can we regulate 24 hour business? The Allsup's at Zuni and Indiana is open 24 hours and is a crime hot spot.

We need small gathering places.

We need more park space and trees.

Please us develop places for people to walk to, shop work and live. In regard to Kinney property

Add more lighting in recognized high crime areas.

Ideas sound great, getting Zuni safety plan implemented would help.

We need more pedestrian lighting- off main roads as well

Plaza Feliz is a good standard for future development

What is International District? Do we need to police ourselves?

Is Gibson being completely ignored?

Define stockpiling

Inadequate lighting is a misnomer, inadequate lighting does not cause crime. Increased lighting only reduces fear of crime and increases traffic (speeds?). If a decision is made to increase lighting at least let it be non-polluting lights.

Unsure of two lanes on Zuni

Would like less R-3 zoning, would like a more "geological name" for the area similar to West Mesa- finds International District offensive, whole City is international, Please reduce the number apartments, there are plenty already, put low income house in NE part of City if you would to diversity the City.

Temporary uses for vacant lots

More green
