Summary of Analysis

The request is a site development plan for subdivision with design standards for a site of approximately 13 acres located at the northwest corner of Central and Unser.

At the July hearing, the EPC recommended approval to the City Council of the accompanying zone change for the subject site, to SU-1 for Transit Related Uses, and also deferred the site development plan for subdivision at the applicant's request. The applicant is now requesting a further 30-day deferral to continue working on revisions to the submittal.
