Summary of Analysis

The request is a site development plan for subdivision with design standards for a site of approximately 13 acres located at the northwest corner of Central and Unser.

At the July 2010 hearing, the EPC recommended approval to the City Council of the accompanying zone change for the subject site (10EPC-40033).

The site development plan for subdivision was deferred in August and September at the applicant's request, to allow for revisions in response to agency and staff comments.

The zone change is being evaluated by the Council, and the applicant considers it prudent to request a further 30-day deferral pending the outcome of the Council's decision.
