SOP: 2-17 Offense and Incident Report Form

Date Completed: 11/5/18

In order to gain a clear understanding of the reason for the policy change, please answer the questions below with as much detail as possible as this information will be shared with internal and external stakeholders interested in participating in APD's policy development process.

Explain the rationale or purpose for the new policy or amended policy? Example: Best practices, case law, liability, conflicts with other policies or regulations, CASA related.

Proposing that this SOP be removed due to this being more of a training issue rather than a policy. This form is only one of dozens of police report forms utilized for reporting incidents. There are no other SOPs covering how to complete a police report form. This also not a common practice amongst other departments to have SOPs in this category. The form that this SOP is describing is also outdated, since additional boxes were recently added to the form. I suggest that we remove this from SOP since it is primarily a training matter rather than a policy matter.

What is the policy intended to accomplish? Explain the general intent with respect to the specific topic of the policy.

Inform officers how to fill out the "original" Offense/Incident Report Form only.

How will the policy be measured to determine its effectiveness? (Example: Will data be collected, if so, in what format and who will maintain the information?)
