TRENDING:

Auto theft/auto burglary:

- Trailers being stolen from driveways/sides of homes in single-family residential neighborhoods early part of May.
- Auto Burglaries: In addition to heavy activity, many are attempts to steal vehicles.
- Trail head parking areas are being targeted – hikers/trail users continue to leave purses and wallets, IDs, credit cards, cash, etc. in vehicles and walk away. Try carrying the very minimum you need for your hike/run and take the items with you.
- Sports fields, community centers and pools: I expect to see increased auto burglaries at these locations due to leaving back packs, wallets, purses, sporting equipment, gym bags, etc. in vehicles.

Residential Burglaries:

Entries: unlocked doors, windows and garages. Using stolen garage door openers and prying open garage doors. One entry via a doggie door. Removing window screens and entering via windows.

Targeted in May: vacant homes continue to be targeted and house-sitters, realtors, family members arriving to find home has been burglarized. Residents are on trips, in hospital, or home is for sale or having work done.

One home burglarized twice in two weeks. First time, unforced entry and stole a bag of ice and a candy bar. The following week, stole boxes of 12x12 tile, caulking gun, two truck side view mirrors, a saw and cleaning supplies.

Had cabinets stolen this month from one vacant home in the Foothills Area Command.

Stealing purses, wallets and vehicles once offender(s) make entry made into the garage. People forget to lock vehicles parked in garages and the door from the garage into the home.

Stealing guns that are not secured and owners have no identifying information on guns, so they can't be entered into NCIC – the gun will not be identified as stolen if it shows up later or is found or used in a violent crime. Have a property inventory of weapons to help law enforcement!
