ACS VIOLENCE PREVENTION & INTERVENTION PROGRAM

MONTHLY INFORMATIONAL REPORT

October 2026

ONE ALBUQUERQUE ACS

Custom Notifications

VIP Peer Support Workers and APD officers identify and intervene with the individuals most likely to engage in gun violence. This intervention is called a Custom Notification. They often bring trusted community leaders with them who may connect with particular individuals.

Referrals

Candidates for the VIP Program are usually identified through law enforcement crime data. However, they can also be referred by hospitals or other means.

Engaging with Services

A key part of what makes the City's VIP Program successful is that VIP Peer Support Workers work with clients to identify and address their individual needs, then guide clients through risk-reduction resources. We measure success by how many of the individuals we provide Custom Notifications to engage with other services.

Enforcement

The goal of Custom Notifications and ongoing peer support is that people do not engage in further violence. However, when they do, the consequence is swift and targeted law enforcement action.

VIP Success Rate

The percentage of candidates who received a Custom Notification and have not engaged in violent crime in the past two years.

MONTHLY INFORMATIONAL REPORT

October 2026

AUGUST
SEPTEMBER
OCTOBER

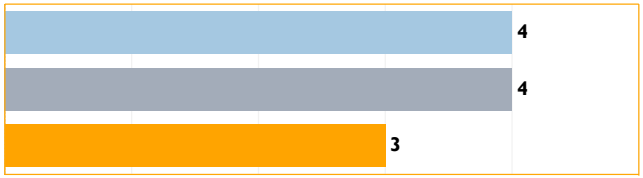

The VIP Program reduces gun violence by combining a public health approach with a focused-deterrence law enforcement strategy, while centering the experiences of those affected by violence and trauma.

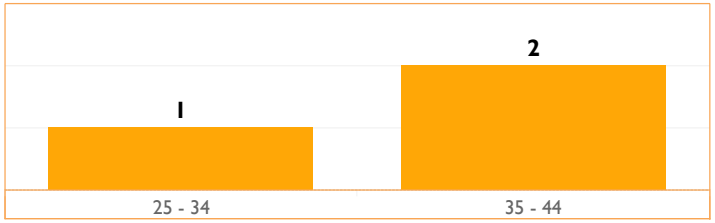

Candidates for Custom Notifications are typically identified through law enforcement crime data, but referrals may also come from hospitals, community partners, outreach events, and self-referrals.

Hospital-Based Violence Intervention and Prevention (HBVIP) Monthly Information

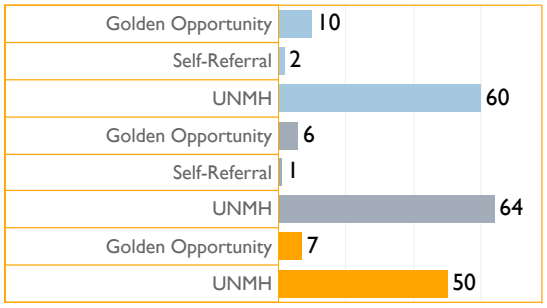

Through strong partnerships with local hospitals, ACS's **Hospital-Based Violence Intervention and Prevention (HBVIP)** team connects with victims at a critical point on their road to recovery. By offering immediate safety planning, emotional support, and access to peer-based and behavioral health services, HBVIP helps prevent retaliation and recidivism while guiding survivors of violent crimes.

MONTHLY INFORMATIONAL REPORT

October 2026

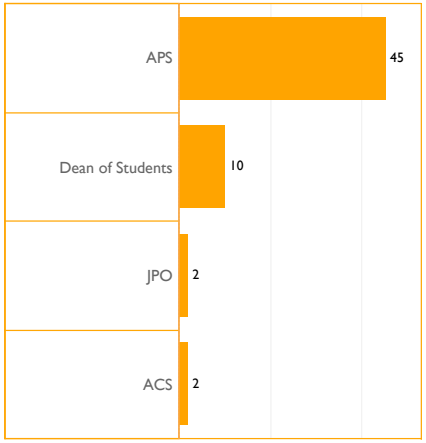

School-Based Violence Intervention and Prevention (SBVIP) Monthly Information

The **School-Based Violence Intervention and Prevention Program (SBVIP)** is a mentorship initiative aimed at reducing violence among youth, particularly those at the highest risk of engaging in cycles of violence and substance use.
SBVIP addresses the root causes of violence and works to improve safety in both communities and schools.

Youth Violence Intervention and Prevention (YVIP) Monthly Information

The **Youth Violence Intervention and Prevention (YVIP)** team focuses on at-risk youth who are not in school, not currently working, and do not have a support system.
This group of youth receive similar services to that of SBVIP students.

Opioid Education & Prevention Program (OEP) Monthly Information

The **Opioid Education and Prevention Program (OEP)** receives referrals for individuals who can benefit from substance use resources and education. Overdose cases are referred for potential Narcan education and distribution for overdose prevention.

When Opioid Peer workers are able to locate and meet with referred individuals, they encourage them to enter substance use treatment (Tx) centers and if requested, help them to apply and enter treatment, sometimes also providing transportation and setting up other medical transport.

Once individuals enter treatment, Opioid Peer workers continue to follow-up and check in on their progress. Upon completion with treatment, OEP Workers assist individuals to find jobs and housing. OEP provides a full circle of services to help prevent overdose, help break the cycles of addiction, and help individuals build a new sober life.
