The Family and Community Engagement Committee members have professional expertise and lived experience. We recognize the impact that an involved community can have on a person's life and experience. We begin with identifying or asset mapping, resources already established in our community.

These individuals, groups, organizations and entities focus on mentorship, positive familial involvement, and community healing. Once identified, we will uncover opportunities to strengthen this work.

The Family and Community Engagement Committee will make reasonable and actionable recommendations to the larger Gun Violence Task Force who will prioritize the recommendations of all committees and prepare a report for the Mayor Keller's administration.

We encourage everyone to join the Family & Community Engagement Committee for our bi-weekly meetings and share your ideas and vision for our city.

Committee meets virtually Bi-Weekly on Mondays at 6pm
