# Prepared by the APD Crime Analysis Unit on Homicide Nexus 2010-2020

Drug Nexus: 2010 - 2020

Domestic violence homicide cases have steadily increased from 2017 – 2019. These cases also have an increase with firearm involvement. 2019 had the highest prevalence of homicide with a nexus to domestic violence at 15 cases.

2018 had the highest prevalence of homicides with a drug nexus at nine cases with eight of them involving a firearm.

Domestic Violence Nexus: 2010 - 2020
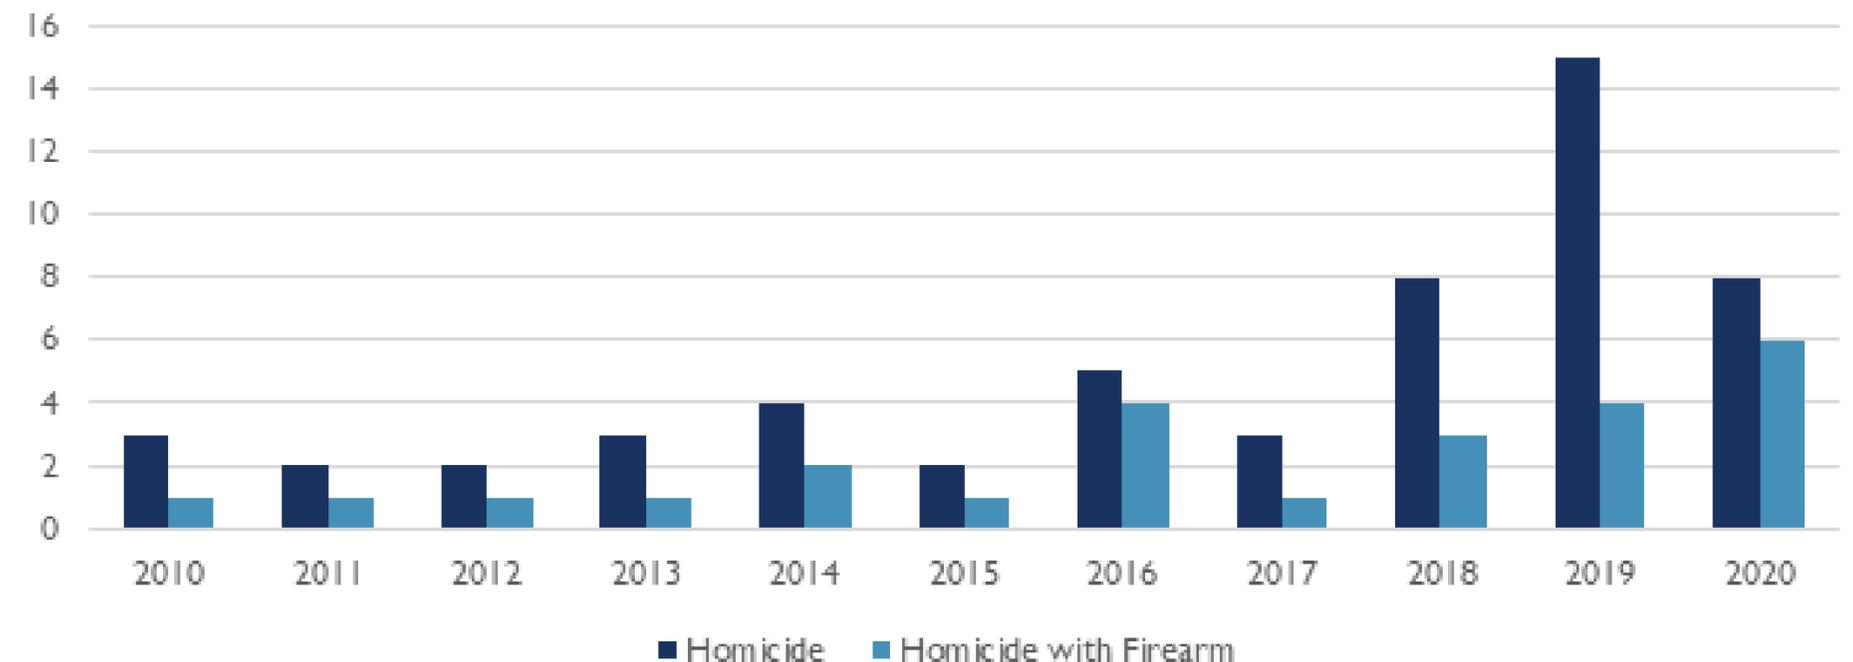

Prepared by the APD Crime Analysis Unit 2019; 20 & 21, Homicide Victim- Offender Age Info

2019	Victims (n=54)	Offenders (n=46)	Victims & Offenders (n=100)	2019 Albuquerque Population
Age				
17 and under	13%	9%	11%	21.7%
18-24	20%	28%	24%	9.0%
25-34	28%	37%	32%	15.6%
35-44	30%	13%	22%	13.6%
45 and older	9%	13%	11%	40.1%

2020	Victims (n=72)	Offenders (n=25)	Victims & Offenders (n=97)
Age			
17 and under	6%	12%	7%
18-24	17%	24%	19%
25-34	28%	36%	30%
35-44	21%	20%	21%
45 and older	29%	8%	24%

2021	Victims (n=93)	Offenders (n=48)	Victims & Offenders (n=141)
Age			
17 and under	4%	8%	6%
18-24	28%	31%	29%
25-34	39%	33%	37%
35-44	23%	19%	21%
45 and older	6%	8%	7%

Most victims of homicides committed with a firearm in 2019 were in the 35-44 age category followed closely by 25-34.

Despite Making up only 9% of the Albuquerque population in 2019, 24% of victims and offenders were in the 18-24 category.

While 45 and older is the largest category for the Albuquerque population in 2019, it tied with 17 and under for the lowest percent of victims and offenders.

Numbers are preliminary and are subject upon further analysis and investigation These statistics are based off of Police Reports Developed by the Crime Analysis Unit, Real Time Crime Center, Albuquerque Police Department on 04/29/2022

45 and older	14%	18%	14%

Prepared by the APD Crime Analysis Unit on *Shooting with Injury* Age 2019, '20, '21

The largest demographics categories in shootings with injuries are: males 85%, Hispanic 50%, and subject in the 18-34 age group. African Americans are close to 3 times over-represented in both the victim and offender populations

This age category differs from homicide statistics, which had a high population in the 18-44 age range.

Similar to homicide statistics, shootings with injury in 2019 had over 37% of offenders in the 18-24 age category. This is very significant since this is the smallest age range of the categories, and the smallest percent of the 2019 Albuquerque population.
