The Positive Youth Development Committee's members bring a vast and diverse wealth of knowledge, lived experience to the committee, and are committed to better serving our community by helping every young persons in Albuquerque live a meaningful life, free of gun violence.

The committee will asset map those organizations and individuals in Albuquerque supporting our most vulnerable youth with knowledge and opportunities. With the use of real data, statistics, and their individual expertise, The Positive Youth Development Committee works alongside established organizations to disrupt violent behaviors at an early age.

The Positive Youth Development Committee will make reasonable, actionable, and sustainable recommendations to the larger Gun Violence Task Force who will prioritize the recommendations of all committees and prepare a report for the Mayor Keller's administration.

We encourage everyone to join us monthly to brainstorm and work with the Positive Youth Development Committee.

The Positive Youth Development Committee Meets virtually on the 2nd Wednesday of every month
