MOTION TO CONTINUE

Petitioners in the above captioned matter hereby move to continue the hearing date for this proceeding and to continue all filing deadlines in relation to the new date. Petitioners require additional time to schedule appearances of experts and obtain information necessary for testimony. Moreover, Petitioners have twice continued this matter to assist Counsel for the Environmental Health Department (“EHD”) in complying with the thirty-day deadline in the rule. Counsel for Petitioners have contacted counsel for the EHD and EHD does not object to a continuance in principle. Mr. Honstein and Mr. Boyle have not responded to Petitioners’ emails requesting concurrence on this Motion.

WHEREFORE, Petitioners request a continuance of the hearing date and all other scheduled deadlines and a re-scheduling conference with the Hearing Officer on Tuesday, Wednesday or Thursday of next week, i.e., on either December 16, 17 or 18.

Respectfully submitted:
