

**PUBLIC NOTICE**  
**Air Quality Construction Permit For**  
**SolAero Technologies Corporation**

SolAero Technologies Corporation submitted an application to modify an air quality construction permit to the Air Quality Program (Program) of the City of Albuquerque Environmental Health Department. The Program received the application on March 3, 2026. The owner of the facility is SolAero Technologies Corporation, 10420 Research Road SE. The facility, SolAero Technologies Corporation, is located at 10420 Research Road SE. This application file has been assigned Permit Application No. 1029-M3. The Program has made an affirmative administrative completeness determination and is providing this notice pursuant to 20.11.41.14 NMAC.

The applicant is requesting a modification to Permit #1029-M2-2TR. The proposed changes include:

- 1) The removal of a base scrubber (EF-5B)
- 2) The addition of six (6) new Veeco EPI growth reactors (EBARA1-12)
- 3) A new burn wet abatement system to control emissions from the reactors, including
  - a) Six (6) UPTIMUM PLUS control devices (UPTIMUM1-6)
  - b) Three (3) electrostatic dust collector (EDC) PLUS control devices (EDC1-3)
- 4) A new solvent vent
- 5) A new base scrubber
- 6) A new acid scrubber
- 7) 3 existing cooling towers (CT1-3) are being incorporated into this permit

The new burn wet abatement system disposes of emissions via combustion and subsequent scrubbing of particles, as well as absorption of soluble gas components with the aid of a scrubbing liquid. There are no emission increases associated with Unit 6a (CHEM) as the new EPI growth reactors are more efficient than the existing reactors.

The proposed air pollution maximum allowable emissions from this facility have been estimated to be:

Air Contaminant	Proposed Total Emissions <sup>1</sup>		Proposed Net Changes	
	(lbs/hr)	(tpy)	(lbs/hr)	(tpy)
Nitrogen Oxides (NO <sub>x</sub> )	30.96	25.98	-0.043	-0.22
Carbon Monoxide (CO)	11.50	18.05	0.00011	-0.25
Volatile Organic Compounds (VOC)	8.81	17.95	0.013	0.045
Sulfur Dioxide (SO <sub>2</sub> )	3.02	0.86	0.020	-0.037
Particulate Matter ≤ 10 microns (PM <sub>10</sub> )	2.52	2.55	0.42	1.65
Particulate Matter ≤ 2.5 microns (PM <sub>2.5</sub> )	2.13	0.86	0.013	0.055
Hazardous Air Pollutants (HAP)	0.71	2.63	-0.37	-2.37

<sup>1</sup>The proposed emissions in this notice are provided by the applicant and are subject to change during the course of the Program's review of the application.

A copy of the permit application, all supporting documentation, and the Program's technical analysis, if and when it is completed, may be inspected by the public at the Program offices at Room 3023, One Civic Plaza NW, Albuquerque, NM. Any person who wishes to receive notice of the availability of the Program's

technical analysis for review and comment, must expressly request notice in writing to the Program at: Albuquerque Environmental Health Department, Air Quality Program – Permitting Section P.O. Box 1293, Albuquerque, New Mexico 87103 before the end of the public comment period on April 24, 2026. The public will have no fewer than 30 days to submit written comments and evidence, request a public information hearing, or both on the permit application to the Program. Comments will be accepted and considered if postmarked by the end of the public comment period. Formal action on the application will be reserved pending receipt and analysis of any additional details or information developed during the public comment period. Any person who does not participate in the permitting action will not receive notification of the Program’s decision regarding the proposed permit, unless the person has delivered a written request for notice to the department. The application, all supporting documentation, and the public notice are available online at <http://www.cabq.gov/airquality/air-quality-permits>.

The Program shall hold a Public Information Hearing pursuant to 20.11.41.15 NMAC if the Director determines there is significant public interest and a significant air quality issue is involved.

The Program expects to issue, issue subject to conditions, or deny this application before June 23, 2026. The Program will not issue any air quality permit with or without conditions unless an air quality ambient impact dispersion modeling study, if deemed necessary by the Program, shows that the facility would not cause or contribute to a potential violation of air quality standards. If the Program issues the permit with conditions, the conditions will include those that limit the emissions, and conditions that will require recordkeeping and reporting to the Program to ensure compliance with federal and local air regulations.

The Program’s offices are located at One Civic Plaza NW, Room 3023, Albuquerque, NM 87102. The Program’s mailing address is Albuquerque Environmental Health Department, Air Quality Program – Permitting Section, PO Box 1293, Albuquerque, NM 87103.
