# The 2020 Milestone Has Not Been Exceeded

## SO2 Milestones and Emission Trends New Mexico, Utah, Wyoming, and Albuquerque-Bernalillo County

## Public Participation Process for 2020 Report

- Public comment period: March 21 to April 22, 2022
- Notice of public comment: ABQ Journal, website, email listserv
- No comments received during public comment period
- One comment received at April 13, 2022 Air Board Meeting
  - Commenter asked why Black Rock Services near Mountain View Elementary School was not included in the report
  - EHD's Response: The facility's 2020 SO<sub>2</sub> emissions were 0.69 tons, well below the 100-ton threshold for inclusion in the program

## EHD Requests Air Board Approval of Final Report

- EHD requests Air Board approval of the final report
  - Participating states' 2020 SO<sub>2</sub> emissions were 58% below the milestone. 2020 adjusted emissions = 59,352 tons; 2020 milestone = 141,849 tons.
- If approved, EHD will:
  - Submit final report to EPA
  - Publish notice of final determination that milestone has been met
