Make a Go Go Dress Ornament

Get inspired by the fun colors and patterns of the 1970s! Create a paper go go dress ornament using a simple paper template and a wire paper clip.

Supplies Needed
- Paper Go Go Dress Template
- Colored Pencils/Crayons/Markers
- Pencil (optional)
- Scissors
- Paper Clip (jewelry wire, pipe cleaners, or hanging wire will work as well)
- Needle Nose Pliers (optional)
- Glue Stick (optional)

How to Do It!

1. Choose a pattern to decorate your dress. You can be inspired by the pre-drawn template with flowers or you can create your own.

2. If you are using the blank dress template, draw the pattern on your paper dress template; then color in your dress design.

3. Cut out your paper dress around all of the dotted lines with scissors. Make sure to cut all the way around the edge of the dress and to cut out the neck hole in the center.

4. Fold the paper dress at the fold line along the shoulders.

5. Take your paper clip and unfold it so that you have a straight piece of wire (if you are using another type of wire or a pipe cleaner, cut a piece that is ~4.5" long). Bend the wire until it is in the shape of a hanger. If you have trouble bending the wire, you can use a pair of needle nose pliers to bend it.

6. Place the hook of the hanger through the neck hole of your dress so that the dress hangs on the hanger.

7. If you would like to make sure that the dress stays on the hanger, you can use a glue stick to glue the inside front and back of the dress together.
