2. Please briefly explain the nature of the real or potential conflict with which you are requesting an advisory opinion

After speaking with Cristobal Rocha on October 15, 2025, I am requesting an advisory opinion relating to if a larger allied organization can in-kind an advertisement buy to a measure finance committee. This has been a long-standing practice in partisan campaigns where larger allied groups have in-kind campaign advertising buys (full production) for candidates and other allied PAC's all over the nation.

3. Please provide all material facts regarding the real or potential conflict.

Per Cristobal, there seems to be no relevant statute in the City Charter. An advisory opinion would help answer this question given the construction of the definition of a Measure Finance Committee (MFC) in City of Albuquerque Charter § Article XIII (2)(Y) and (6). The other issue at play is top five and secondary donor disclosure as provided in the City Charter. By asking this question, this is a matter of fair play for all candidates and MFC's.

Additional space for details from #3. Attach documentation of the material facts listed in #2 to this form and mark each separate document with a separate exhibit number.
