

APD update 18-04

January 27, 2023

The practice and policy outlines previously continues to this day. The only modification has been from Esperanza itself, requesting to limit the amount of bicycles they take in. This is due to our supply out pacing their abilities. However, to ensure the highest quality is provided over quantity, we allow Esperanza to select the bicycles they wish to have for their program.

Updated count of Bikes Given to Esperanza

2019-191

2020-170

2021-100

2022-20 YTD

Bikes Booked into Evidence

2019-311

2020-250

2021-168

2022-92

APD is still looking for an option to shelter bicycles from the elements. Current space issues and intake quantity are major factors limiting options beyond what is currently in place for bicycle retention and security.
