#### **4. Presentation – Guest Speaker Don Lewis (RTCC Supervisor)**

- Real time crime center, supplies a lot of analytics and has had a success rate of 85%.
- RTCC is not a monitor business, they can take a look at cameras when robberies or incidents occurs.
- SCAN (Security Camera Analytical Network) is a new tool that will map the location of security cameras across Bernalillo County.
- If you have a security camera system at your business, you can sign up for free. ([cabq.gov/SCAN](http://cabq.gov/SCAN))
- RTCC can supply contact information when business' register.
- By connecting your camera system to the police department, RTCC will be able to access your cameras' live video footage during the commission of a crime at or near your business.
- Business that have teamed up with RTCC have seen a decrease in crime as a result.
- APD is not a security camera monitoring service.
- RTCC can access the cameras and requires that the RTCC email the owner whenever the cameras have been viewed.

Q: What if people post videos on nextdoor, do those people need to sign up for this?

A: We have people who do monitor nextdoor or any social media when there are videos, if they want to sign up they can, but we cannot make them.

Q: Is this for residential as well?

A: We do not do it for residential cameras, only for business just because of the privacy of people in your neighborhood.

Q: Do business have sign outside that say they are signed up with RTCC?

A: Some business do not want customers to know they are working with APD, sometimes they have signs but sometimes they do not.

Q: How many business do you have signed up?

A: 121 citywide.

We did do a survey when advertising with signs at business and we mostly put them on the business where there was a lot of criminal activity and it did scare the criminals away. Some business do not want to advertise or let people know that they are working with APD.

Q: You do notify the business before viewing the footage?

A: Yes, we do.

Q: Is RTCC 24/7?

A: Yes.

Q: What are the cons?

A: Partnership, getting more people involved is hard and some business do not have the network we work with and they do not want to change. We want to work with as much business in the city but sometimes they do not want to.
