Throughout, there has been the unwavering commitment of the band to bringing the beauty of traditional music, particularly that of the Donegal fiddlers and singers, to contemporary audiences in a way that brings out all its qualities and destroys none. What followed was an extremely exciting and varied array of releases including the biting hard rock of "Copperhead Road" (1988), the minimalist beauty of "Train A Comin'" (1995), the politically charged masterpiece, "Jerusalem" (2002), and the Grammy Award.

1986 saw the Winning albums "The Revolution Starts...Now" (2004), "Washington Square Serenade" (2007) and "Townes" (2009). "I'll Never Get Out Of This World Alive" (2011) is Steve Earle's 14th Studio Album and shares the same name with his 2011 debut novel. Of the novel, Patti Smith stated, "Steve Earle brings to his prose the same authenticity, poetic spirit and cinematic energy he projects in his music. *I'll Never Get Out Of This World Alive* is like a dream you can't shake, offering beauty and remorse, redemption in spades."

26 **Albuquerque Museum** **Santa Fe Opera’s Spotlight: Opera as Drama**

Sunday
1 – 2 pm

Today's talk is entitled *Music Speaks: Leading Motives*, and it will focus on Richard Strauss's *Salome*. The operas of Richard Strauss have held a special place at The Santa Fe Opera since its opening season, none more so than *Salome*, his 1905 adaptation of Oscar Wilde’s study of extreme decadence. *Salome* established Strauss’ reputation as an opera composer, provoking a storm of controversy on both sides of the Atlantic. This searing one-act drama of obsession and lust returns with a fresh staging that suggests the era when *Salome* was created: the Belle Epoque period of material and sensual indulgence that prevailed in Paris before World War I.

Oliver Prezant is a popular lecturer for the Santa Fe Opera, the Music Director of the Santa Fe Community Orchestra, and the Artistic Advisor to the ArtWorks program, which provides arts education programs for public school students and teachers. His unique presentations have helped thousands of music lovers deepen their enjoyment and understanding of music. Free program.

26 **KiMo Theatre** **Sunday Movie Musicals: Royal Wedding (1951)**

Sunday
2 – 3:30 pm

Another classic musical starring the incomparable Fred Astaire. Tom and Ellen Bowen are a brother and sister dance act whose show closes in New York. Their agent books them in London for the same period as the Royal Wedding. They travel by ship where Ellen (Jane Powell) meets and becomes involved with Lord John Brindale. This causes her to miss a rehearsal. Tom (Astaire) uses the time to dance with a hat rack and gym equipment. Later Tom and Ellen attempt a graceful dance number as the ship rolls. Upon arrival Tom holds auditions and meets Anne. There is much indecision by the siblings about their romantic partners even though they are in-the-clouds. Tom dances on the walls and ceiling of his hotel room. All ends well in this light musical. By the way, there is a vaudeville-style dance number in their show that features slapstick. It's a hoot.

Tickets: \$6 - 8. Tickets are available at www.KiMoTickets.com. Tickets are also available at the KiMo Ticket Office, 505-768-3544. Hours: Wednesday – Saturday 11 a.m. – 8 p.m.; Sunday 11 a.m. – 3 p.m. Concessions will be available.

ART EXHIBITIONS

Albuquerque Museum

CLOSING APRIL 15TH: ALL OVER THE MAP: THE ONGOING DIALOGUE OF PUBLIC ART

All Over the Map: The Ongoing Dialogue of Public Art is a joint exhibition with the City of Albuquerque and the Bernalillo County Public Art Programs. The exhibition highlights the past 50 years of public art in the region, including an interactive, forward-thinking engagement component which will seek public input and feedback on what public art should or could be in the future.

ONLY IN ALBUQUERQUE

Only in Albuquerque is an interactive, engaging, fun-filled presentation of the history and culture of the central Rio Grande Valley. The *Only in Albuquerque* history gallery has been highly anticipated during many years of redesign, construction, story development and fabrication. Features include many hands-on experiences that include: Making your own family Coat of Arms; sending a Route 66 postcard to a friend electronically; creating a personal "quilt" of images from the Museum's collections; recording your story to share in the Museum and with friends; vibrant theaters; virtual reality storybooks; and, a state of the art app developed especially for our visitors.

Four Galleries of Local History

Only in Albuquerque features a greatly expanded story of our city from before written history to the present that is set in an engaging, fun, and interactive atmosphere. Our story is told through four galleries: Spirited, Courageous, Resourceful, and Innovative. All galleries connect to a central gallery entitled "Our Land." Continued...

From the Rio Grande Valley This ingenious design gives our guests experiences related to our central theme:

- Different cultures
- Interacting with each other in a unique geographic setting
- Shared characteristics found only in Albuquerque and the middle Río Grande Valley

Hundreds of our city's most beloved artifacts are featured, with additional objects recently acquired yet to be unveiled.

VISUALIZING ALBUQUERQUE

On the Map: Unfolding Albuquerque Art + Design is a city-wide cultural partnership that celebrates the art of central New Mexico through an array of partnering organizations. It began in January 2015 and continues through the spring and summer, with public institutions joining private galleries to present exhibitions, lectures, performances and educational programming that investigate the diverse art of the greater Albuquerque region. This event places a comprehensive focus on art and design created in the Middle Rio Grande Basin, contemporary to the earliest aesthetic objects created in the region.

At the heart of this collaboration, the Albuquerque Museum's exhibition titled *Visualizing Albuquerque*, curated by Joseph Traugott, will investigate the unique history and present of central New Mexico art and serve as an umbrella for institutional partners. Traugott says, "Albuquerque artists found their own artistic voice after World War II and transformed a western boom town into a thriving art center. This exhibition demonstrates how an influx of modern-minded Californians moved to Albuquerque and changed the city by unleashing the creativity of local artists. The resulting abstract works broke with traditional New Mexico scenes. By including women and their concerns, ethnic perspectives, popular culture subjects, and political content after 1980, Albuquerque artists synthesized an aesthetic that shunned commercial trends. Visualizing Albuquerque revels in the region's diverse artists and reveals how their distinctive fusions have bridged aesthetic divides and cultural rifts." The exhibition will close on May 3rd.

WORKS ON PAPER GALLERY: FEATURING FREDERICK HAMMERSLEY

Internationally renowned artist and longtime Albuquerque resident Frederick Hammersley was most famous for his abstract paintings and prints, and as one of the four "Abstract Classicists" celebrated in a 1959 exhibition of that same name. In conjunction with *Gods and Heroes: Masterpieces from the École des Beaux Arts*, the Albuquerque Museum is proud to present a selection of Hammersley's works on paper from a recent gift from the Frederick Hammersley Foundation. Open until May 31, 2015.

RAD GADGETS

What the (bleep) is that? A Rad Gadget! *Rad Gadgets* is a fun look at off-the-wall vintage tools and equipment from the Museum collection. The exhibit is presented in the newly named William A. + Loretta Barrett Keleher Gallery.

Rad Gadgets will inspire visitors to explore the Museum's collection of antique and vintage gadgets, with an eye toward recycling. The exhibit also explores the notion of "up-cycling" – the practice of making recycled parts more environmentally responsible, and often, beautiful. Particularly trendy is the notion of using Victorian-era industrial design as inspiration for contemporary Steampunk art and fashion.

Rad Gadgets features vintage tools and equipment, including recent gifts from the Hays family, Keleher family, Bob Myers, PNM Forerunners, and others. The collection ranges from simple and strange to quirky and complicated. No single object will be identified upon first glance – you'll have to guess what it is!

Visitors will be able to draw fantasy gadgets and vote for their favorite gadget. Programs explore the role historic tools, equipment and their intriguing parts play in fashion design, recycled art, and Steampunk art. Keep an eye out on the calendar for opportunities to play, create, and recycle! Open through August 1, 2015.

COMMON GROUND: ART IN NEW MEXICO

Permanent Exhibition (East Gallery)

A permanent art exhibition highlighting a significant and museum-owned works from the late 19th century to the present day, including some that have never before been viewed by the public.

BALLOON MUSEUM

CHILDREN OF WAR, VOICES FOR PEACE

Back by popular demand, this touching exhibition features a little-known footnote in the history of World War II. Japanese schoolchildren were recruited to help create "Fugos"—giant balloons that were armed with bombs and launched across the Pacific.

The only enemy-caused deaths on the North American continent in World War II occurred from the detonation of one of these bombs. The exhibition features the story of one Japanese schoolgirl who later learned that her contribution to her country's safety was an instrument of death, and of her subsequent efforts to promote peace.

CHILDREN'S PEACE STATUE

The Children's Peace Statue is a monument designed and funded entirely by children. It stands as a symbol of hope for a peaceful future. In the fall of 1989, children of Arroyo del Oso Elementary School in Albuquerque, New Mexico were studying the Arms Race. The children decided that one solution to the problem of war would be to teach young people to work for peace. During their studies, the students learned the story of school children in Japan who built a monument, the Genbaku No Ko No Zo Statue for Children Who Were Victims of the Atomic Bombs. Inspired by the story, the children formed the Kids' Committee for the Children's Peace Statue and made plans to design and build a peace monument of their own.

FAI BALLOONING COMMISSION INTERNATIONAL HALL OF FAME

The Hall of Fame features some 40 existing inductees and recognizes people who have made significant contributions to aerostation. In a private induction ceremony for media and invited guests on September 30, 2011, the following were inducted into the Hall of Fame: Ron Clark, a member of the crew to make the first balloon crossing of the Pacific Ocean; Larry Newman, a co-inventor of the ultra-light airplane and co-captain on the first manned balloon crossing of the Pacific Ocean; Rocky Aoki, a restaurateur and a record-setting balloonist in crossing the Pacific Ocean in a helium balloon; and Olivier Roux Devillas, the founder of the French Aeronautical Federation and competitive balloonist. Past inductees with a New Mexico connection include Sid Cutter, the Balloon Fiesta co-founder, and Maxie Anderson and Ben Abruzzo, two of the three balloonists of the first trans-Atlantic balloon flight.

CLOSING APRIL 4TH: "THE IMPETUS SEEKERS" INTEGRAL INNOVATIONS OF PUEBLO WOMEN ARTISTS

Part of a larger city-wide art project, "On the Map," focuses on the timeline affiliated with the visual and artistic history of Pueblo women artists.

Pueblo women have endured as essential keepers of family and community traditions, cultural identity, attitudes, and values. These beliefs sustain their passion and love, which are most often expressed through their creative art forms. Continued...
