

Councilor's Corner – Vice President, Brad Winter

School is back in session and autumn is on its way! We had many successful events this summer like the Summerfest, National Night Out, and Picnic with the Mayor. The successes of the events are a direct indicator of the support and energy of our communities. It is great to see the active neighborhoods we have in District 4.

We have also had a summer full of rain. Although we are very thankful for the moisture, it has also allowed those pesky weeds to grow even quicker than usual. Don't forget to keep our neighborhoods looking nice by maintaining the weeds not just in our own yards, but also on the sidewalks around your yard. If weeds in your neighborhood are getting out of control, I encourage you to call 311 and report them to the City. Code enforcement will come out and take a look and give reminders if needed.

My office was able to attend the last Community Policing Council for the NE Area in August and saw first-hand what a positive impact community policing can have on our neighborhoods. I encourage everyone to attend the next one in your area. You can find more information on the Northeast or Valley CPC here <https://www.cabq.gov/police/community-policing-council>.

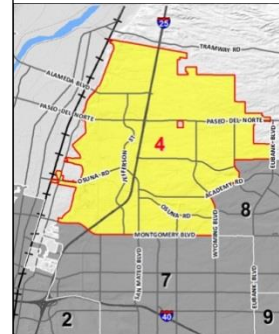

I have good news to report about the North Domingo Baca Multigenerational Center regarding the non-functioning fountain in the foyer. I previously reported that the Departments of Senior Affairs and Cultural Services worked together to find a functional and beautiful piece of art to fill this space. We are well into the process of commissioning the 3 various sized basalt columns and will be able to hand-select the stones when they are back in stock in September or October. We have also been able to get a crew to start preparing the basin in the meantime to be ready for the beautiful water features when they come in. I can't wait to see them once they are put in. The visual impact plus the calming sounds of the water will be a great feature to have in the entrance of the center.

Should you ever have any questions or concerns, please feel free to contact my office at any point and we are happy to help. Hope you all have a wonderful and safe Labor Day weekend. Until next time!

Yours in Service,

Brad Winter
