New Business

A.) St. Martin’s Presentation

- Nolan Greene presented the RFP process for the soon to be released Youth Transitional Living project. Since the project was jointly recommended by the Housing and Community Supports subcommittees, it was requested that one member from each subcommittee be included on the RFP evaluation team. Jennifer Sena will represent the Supportive Housing Subcommittee for the RFP evaluation of this project.

B.) Single-site Proposal Discussion

The group continued discussion of the Single Site Housing Project, regarding input to draft the proposal specifically on defining the target population and project outcomes. It was agreed to use criteria provided in the ACT model that Jennifer provided, with additions of considerations for those experiencing AOT status, evidence of low independent living skills, and eviction from scattered site supportive housing.

ACTION: Cathy agreed to summarize the discussions to date into the proposal template for review at the next meeting. The proposal topics for review will include: Problem Statement, System Linkages, Target Population, and Outcomes.

Regarding intended outcomes of the project, the team recommended the following: Decrease in ER visits, decrease in hospitalizations, decrease in homelessness, increase housing stability, increased engagement in treatment plans, reduce urgent care, reduce crisis, reduce police interaction, increase socialization/interaction and life skills, and successful discharge.
