RIO GRANDE BOULEVARD:

NOW: WIDE / FAST

IN THE FUTURE:

Village scene
(in my vision)

ONE WORD THAT DESCRIBES
RIO GRANDE BOULEVARD:

NOW: SPEEDWAY

IN THE FUTURE:

SAFE & PLEASANT EXPERIENCE
(in my vision)

RIO GRANDE BOULEVARD CHARRETTE

ALBUQUERQUE, NEW MEXICO

Of the many ideas discussed this morning, which ones seem the most exciting to you?

- creation of a "village" between I-40 + Indian School Rd.
make it mixed-use in nature w/ shade - street trees + a street parking. cobble-
- make a hitch more
- slow down traffic!
- ditch bank connectin

Do you have any additional team to explore?

- mix the plant m... valley → sil
- get rid of the br + way too bright
- encourage infill d.
- provide more co

What character should Rio G

- village-like char instead of
- architectural va
- low garden wall
- go down to 2 l
- allow for more c

Please write any additional

- constrict corride
- slow down traffic
- bury utilities/
- street trees along I-40 + Indian
- larger side walks

Please leave this on the table by
Dover, Kohl & Par

- dress up streetsca

open house

Big Ideas

big ideas

PLAN GOALS AND OBJECTIVES

The plan's policies, regulations and projects are derived from plan goals and objectives developed by the citizen planning group and City of Albuquerque Planning Department staff. When translated into plan regulations and projects, the following goals will introduce visual order, visual interest and functional coherence on Rio Grande Boulevard while recognizing plan subarea differences.

A. URBAN DESIGN - To develop a strong sense of place on Rio Grande Boulevard by reinforcing the existing physical qualities that contribute to the rural, residential or historical characters of each neighborhood in the plan area and to promote visual order and visual interest in the public right-of-way.

GENERAL TECHNIQUE: Establish a Design Overlay Zone with policies and regulations for the public right-of-way and properties within the plan area.

B. LAND USE - To ensure development compatibility with existing land uses.

GENERAL TECHNIQUE: Continue to control residential densities and land uses through existing zoning.

C. TRANSPORTATION - To promote and support multimodal forms of transportation along the corridor improve vehicular, bicycle, equestrian and pedestrian travel on and across Rio Grande Boulevard.

GENERAL TECHNIQUES:

1. Minimize conflicts among vehicular traffic and pedestrians, equestrians and bicyclists. Provide safe passage for all boulevard users, including those with physical disabilities.
2. Link established trails with open space and recreational areas by designing safe boulevard crossings.
3. Encourage increased bus ridership.

D. HISTORY AND CULTURE - To preserve significant historic structures and landscapes and increase their visibility within the plan area.

GENERAL TECHNIQUES:

1. Identify, explain and promote historic village sites, buildings, the irrigation system, historic landscapes and the history of the boulevard.
2. Protect historic buildings identified by the Historic Landmark Survey. (See Appendix A-1,2,3)

E. CITIZEN INVOLVEMENT - To ensure continued citizen involvement during the implementation phase of the plan.

GENERAL TECHNIQUE: Form a coalition of neighborhood association representatives and other interested citizens to monitor plan implementation.

**What we heard

Road diet

RIO GRANDE TO (2) LANES FROM
INDIAN SCHOOL TO GRIGOS.

2 lanes north of Indian School

Narrowing Rio Grande to 2 lanes & lowering speed limit
North of Indian School

Rumble strip down middle
Going to 2 lanes.

Fewer traffic lanes :

3 NARROW Rio Grande Blvd North of Indian School to 2 lanes.

- go down to 2 lanes north of Indian School.

2 lanes from Indian School north

Reducing R.G. To 2 lanes north of Indian
School &

① 2 lanes north of Indian School

Removing travel lanes in exchange for wider sidewalk, landscape, bike lanes

Road diet

4 travel lanes

2 travel lanes

Removing travel lanes in exchange for wider sidewalk, landscape, bike lanes

What we heard most often

Safer intersections:

- slow down traffic
- better signage for crossings
- more horse crossing (and signage)
- roundabouts at various intersections

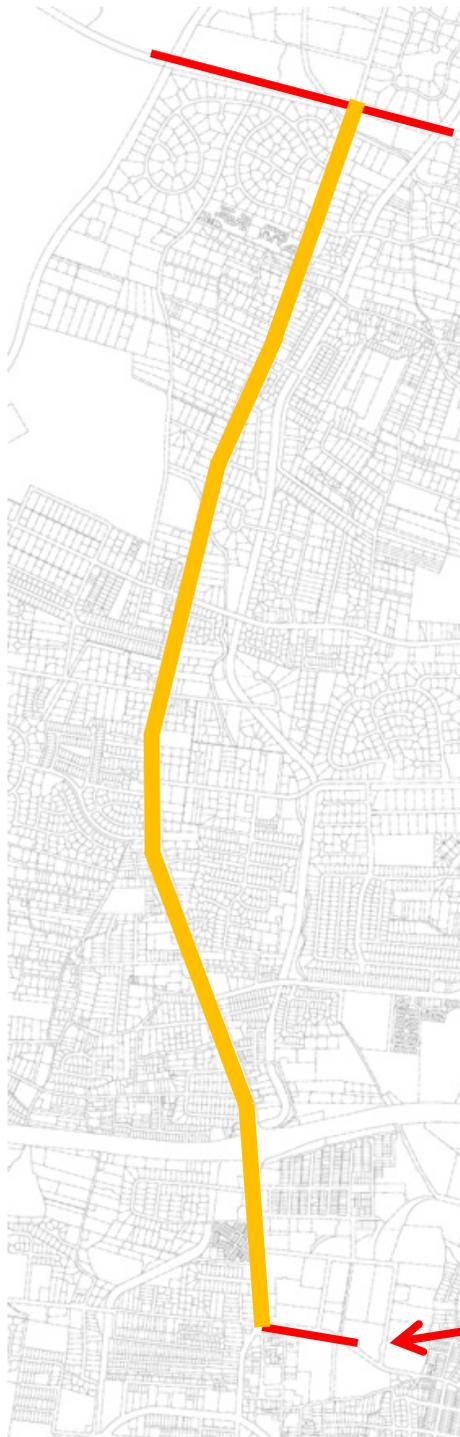

More landscaping

Better lighting / dark sky lighting

More frequent transit & in both directions

General qualities:

- Building Height: 1 and 2 stories
- historically areas that have large lots or frontages along the boulevard
- residential and agricultural in character
- houses / buildings are set back off the street

Roadway edges:

- porous surface sidewalks
- shade from trees
- trees and scrubs planted in linear planting beds
- property edges have low walls or open fences

quick poll

We've got questions for you

Did you attend last Friday's kick-off presentation?

1. Yes

2. No

Did you attend last Saturday's hands-on design session?

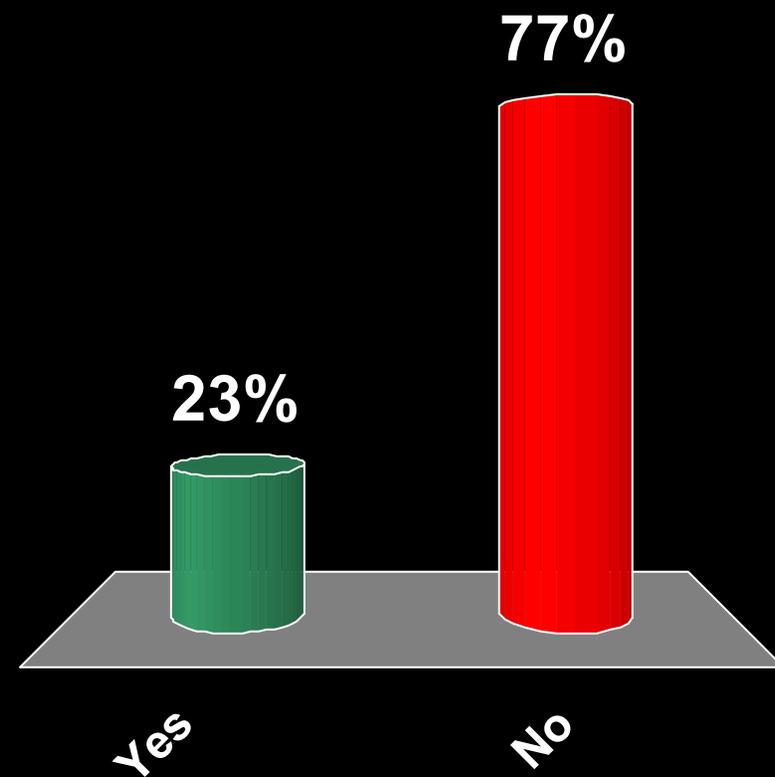

1. Yes
2. No

Did you attend Monday's open house?

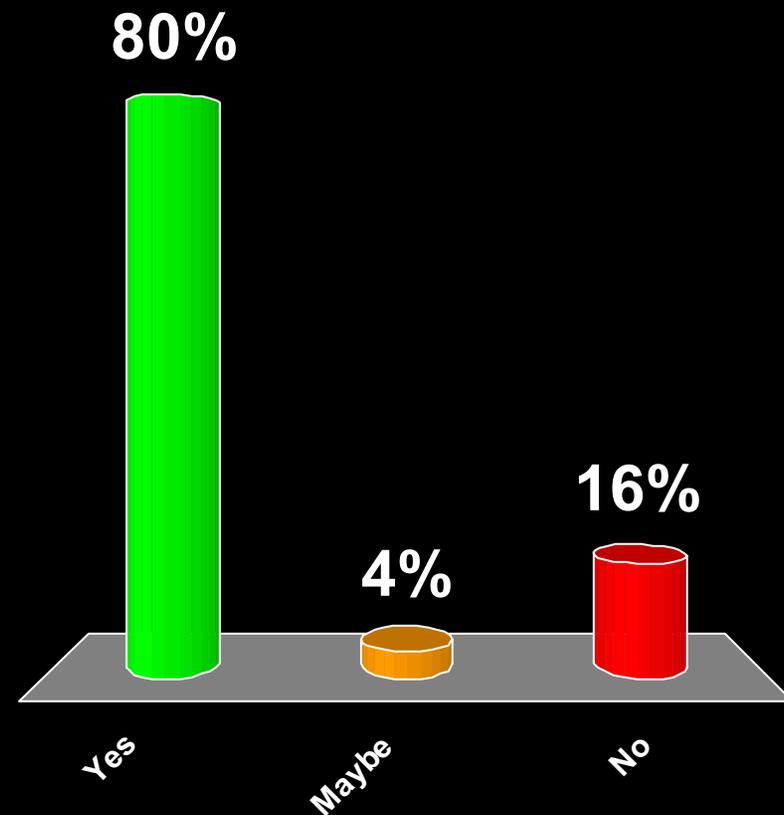

1. Yes

2. No

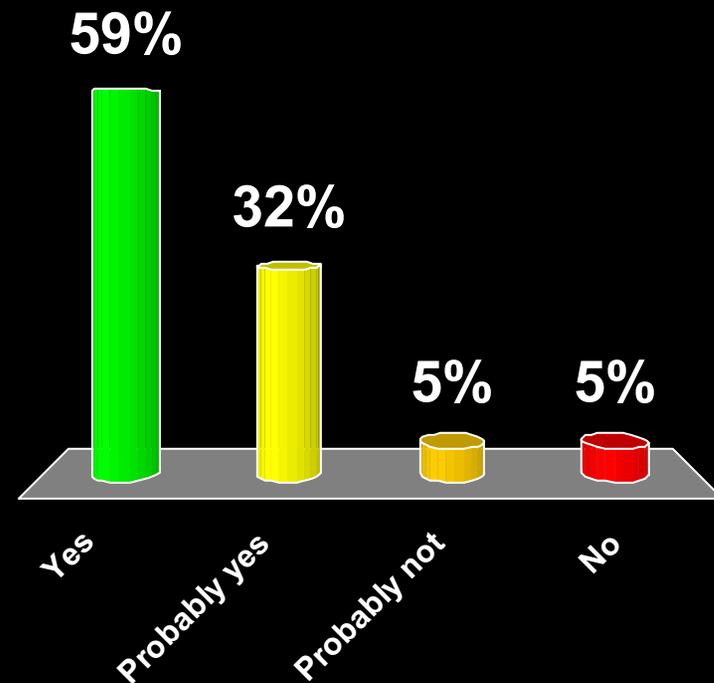

Should we further investigate reducing the boulevard to 2 lanes north of Indian School Road?

1. Yes
2. Maybe
3. No

Do you feel the plan is generally on the right track?

1. Yes
2. Probably yes
3. Probably not
4. No

Next steps

**How do we pay
for this ?**
