Introduction

The Civilian Police Oversight Agency (CPOA) is an independent Agency of the City of Albuquerque and is neither part of the City government or the City Council. The CPOA consists of the Board (CPOAB) and an Administrative Office (CPOA or “Agency”) led by the Executive Director. The CPOA investigates and review complaints and commendations submitted by the community members concerning the Albuquerque Police Department (APD) personnel and provides policy, disciplinary, training and procedural recommendations to the department. As stated in the Oversight Ordinance section (§ 9-4-1-2), the purpose of the CPOA is to:

- (A) Foster and perpetuate policing policies and practices that effectively maintain social order and which at the same time foster mutual trust and cooperation between police and civilians;*
- (B) Ensure that the civilian police oversight body functions as independently as possible from the executive and legislative branches of government of the City of Albuquerque;*
- (C) Provide civilians and police officers a fair and impartial system for the investigations and determinations on civilian police complaints;*
- (D) Gather and analyze information, reports, and data on trends and potential issues concerning police conduct and practices and the related impacts on the community and individuals; and*
- (E) Provide input, guidance and recommendations to the City Council, the Mayor and the Chief of Police for the development of policy for the Albuquerque Police Department.*

The CPOA is mandated by the Oversight Ordinance (§ 9-4-1-10) to regularly inform the Mayor, the City Council and the Public by submitting written semi-annual reports. The information provided in this report is for period beginning July 1st, 2021 through December 31st, 2021. This report is divided into the following sections:

- I. Complaint Details
- II. Employee and Complainant Demographics
- III. APD Use of Force Incidents
- IV. Public Outreach
- V. CPOA/Board Policy Activities, Policy Recommendations provided to APD, CPOAB Training Status & Legislative Amendments to Oversight Ordinance and Policies and Procedures

The first section, ‘Complaint Details,’ identifies the total number of complaints investigated (assigned CPC numbers) and closed (case investigation completed) during the last six months of 2021. This section covers complaint closure timelines, complaints source, the number of complaints by the city council districts and number of complaints investigated and closed compared to the previous years. Furthermore, the section provides information related to the SOPs that came under review in completed investigations, identifies the CPOA finding of complaints as well as provide snapshot of the CPOA Board receipt of non-concurrence letters or memorandum from the Chief of Police for findings or disciplinary recommendations as required by the Oversight Ordinance.

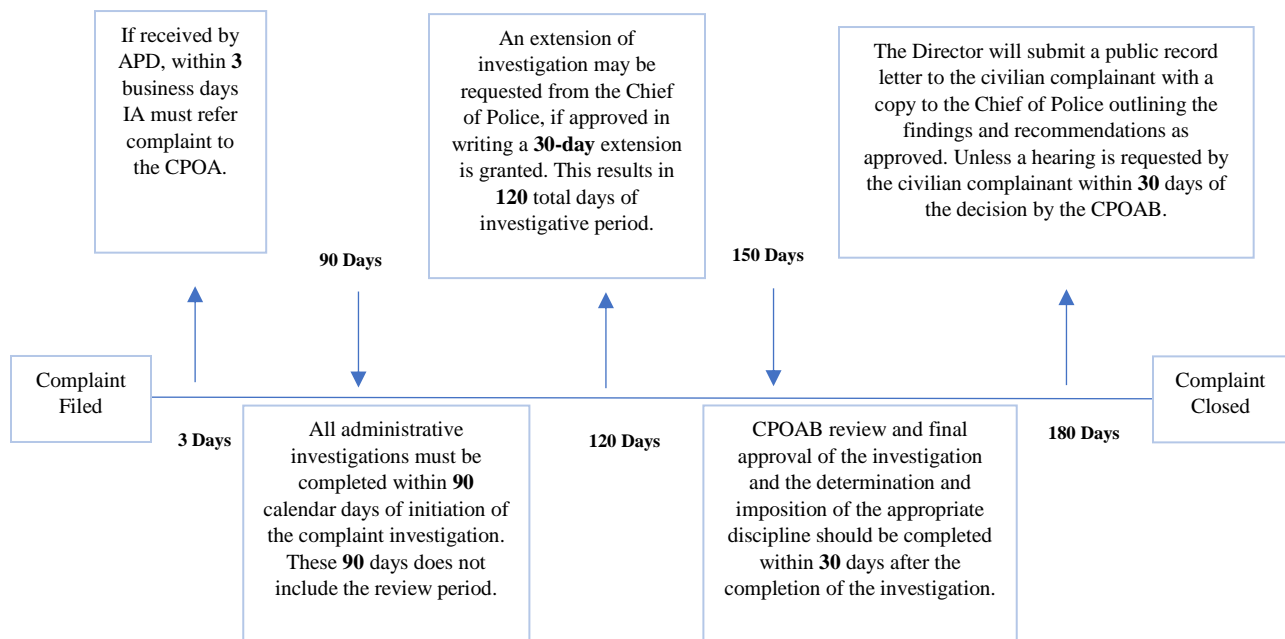

The second section, ‘Employee and Complainant Demographics,’ reports demographic information on both APD employees and the complainants. The information includes gender and race of employees involved, their rank, assigned bureau and division, median age, and also identifies number of employees involved in repeated complaints. With regard to the information about the complainants, this report provides data on their gender, race and ethnicity, sexual orientation, housing, mental health status and age.

The third section ‘APD Use of Force Incidents’ provides a snapshot of uses of force incidents that were received and investigated by Internal Affairs Force Division (IAFD) and Serious Uses of Force incidents reviewed by the CPOAB during the last six months of 2021. Section four will highlight Outreach Initiatives undertaken by the CPOA/Board during this reporting period. The final section highlights ‘the board policy activities, policy procedural or training recommendations

provided to the APD, discussion of issues/matters pertinent to the APD, status of the CPOA Board members training and the Board approved changes to the policies and procedures as well as oversight ordinance recommendations provided to the City Council for consideration.

Since March 18th 2020, Mayor Tim Keller declared Public Health Emergency for the City of Albuquerque due to the novel coronavirus (COVID-19). The CPOA remained operational in the modified capacity during this reporting period since march 2020 which significantly impacted both the Agency and the Board processes. Some of the processes impacted as a result of COVID-19 includes but not limited to; case investigations process while working remotely, inability to conduct in-person interviews for both officers and complainants and shift from in-person to online zoom meetings for the CPOA as well as the Board public meetings.

Complaint Investigation Process

Complaint Timelines

Civilian police complaints can either be filed with the police department or with the CPOA itself. If the complaint is filed with the police, they must refer the complaint to the CPOA within three business days. Once the complaint is received by the CPOA, there are seven days to assign the complaint to an investigator. The CPOA will mediate complaints, whenever appropriate and with agreement of all parties involved. During this reporting period, second pilot mediation program ended after a period of one year. The agreement requires reporting of information pertinent to mediation program in order to measure its effectiveness after one year. Next section will report on the results of the second mediation program.

For the cases not sent to mediation, the CPOA is responsible to open a case and assign it to an investigator. The assigned investigator will interview complainants/witnesses, obtain evidence, and interview the APD personnel involved, when appropriate and review other necessary materials. Once the investigation of the complaint is completed, the Executive Director of the Agency will review the findings of the investigation to determine if there are any violations of Albuquerque Police Department Standard Operating Procedures (SOPs). The investigator may

close the complaint following an initial (preliminary) investigation or may take it for a full investigation. A complaint can be resolved without a full investigation for the following reasons:

- The investigator verifies after initial review that the complaint does not constitute misconduct by an APD employee,
- The investigator cannot minimally substantiate allegations,
- The policy violations are minor,
- The allegations are duplicative,
- There is lack of information to complete the investigation,
- The complainant requests a withdrawal of the complaint, or
- The complaint was lodged against someone who is not an APD employee.

Paragraph 191 of the Court Approved Settlement Agreement (CASA) stipulates “*All administrative investigations conducted by the Internal Affairs Division or the Civilian Police Oversight Agency shall be completed within 90 days of the initiation of the complaint investigation. The 90-day period shall not include time for review. An extension of the investigation of up to 30 days may be granted but only if the request for an extension is in writing and is approved by the Chief. Review and final approval of the investigation, and the determination and imposition of the appropriate discipline, shall be completed within 30 days of the completion of the investigation. To the extent permitted by state and city law, extensions may also be granted in extenuating circumstances, such as military deployments, hospitalizations of the officer, and extended absences.*”

After receiving the complaint, the CPOA has a total of 120 days to complete the investigative process including request for 30-day extension from the Chief in order to be compliant with the CASA requirement mentioned above. In some cases, citizens do not file complaint with the CPOA immediately after the incident, the body camera footage of the incident may not be available to CPOA investigators due to APD’s On-Body Recording Device (OBRD) non-evidentiary video retention policy of 120 days.

The Board reviews the outcome of complaints during the Board monthly meetings. The Board concludes whether they agree or disagree with the Agency's finding. During this review period, it is possible that the CPOAB will disagree with the Agency's finding and return the complaint to the CPOA for further investigation. The additional amount of time given to resolve the complaint resulting from CPOAB non-concurrence is not explicitly specified in the Oversight Ordinance, however these cases are dealt with priority and are presented to the Board at the next scheduled public meeting.

Upon approval of the findings and recommendations by the CPOAB, the CPOA Executive Director as per the Oversight Ordinance submits a public record letter to the complainant and to the APD Chief of Police with the findings. Upon receipt of the findings, the civilian complainant has 30 days to request an appeal of the CPOAB's decision if certain conditions for the appeal stated in policies and procedures are met. If no appeal is requested, the Chief of Police must notify the CPOAB and the original complainant of his/her final disciplinary decision. The Chief of Police/Superintendent of Police Reforms retains sole authority to take disciplinary action against an APD employee for violations of the department's SOPs.

The complainant may disagree with the Chief's disciplinary findings and can file an appeal to the Chief Administrative Officer of the City of Albuquerque concerning the discipline issues. If the investigation exceeds nine months, the Executive Director must report the reasons to the CPOAB. The Agency does not conduct criminal investigations. At any point during the investigative process, if the investigators at the Agency determine criminal allegations are associated with the civilian complaint, the administrative investigation is transferred to Internal Affairs Bureau at APD.

There are six possible findings of complaints investigated by the CPOA which includes:

- **Sustained** – Where the investigation determines, by a preponderance of the evidence that the alleged misconduct did occur.
- **Not Sustained** – Where the investigation is unable to determine, by a preponderance of the evidence, whether the alleged misconduct occurred.

- **Exonerated** – Where the investigation determines, by a preponderance of the evidence, that the alleged conduct did occur but did not violate APD policies, procedures, or training.
- **Unfounded** – Where the investigation determines, by clear and convincing evidence, that the alleged misconduct did not occur or did not involve the subject officer.
- **Sustained Violation Not Based on Original Complaint (Sustained/NBOOC)** – Where the investigation determines, by a preponderance of the evidence, that misconduct did occur that was not alleged in the original complaint but was later discovered during the investigation.
- **Administratively Closed** – Where the policy violations are minor, the allegations are duplicative, or investigation cannot be conducted because of the lack of information in the complaint.

Mediation

Mediation Protocol (MOU) was entered into by and between the Civilian Police Oversight Agency (CPOA), the City of Albuquerque (COA), the Albuquerque Police Department (APD), and the Albuquerque Police Officer's Association (APOA) (collectively, "the parties") on July 2020 to set forth program guidelines. It allowed the CPOA to refer eligible complaints to the City's Alternative Dispute Resolution (ADR) office for conducting community-police mediation.

Mediation is broadly defined as an informal process where a neutral third party, with no power to impose a resolution, helps the disputing parties attempt to reach a mutually acceptable agreement.¹ Mediation is considered effective in resolving community-police complaints because both parties gain understanding, perspective, and insight into each other's behavior and actions. It allows for the complainants and members of the APD to engage in face-to-face negotiations, in presence of experienced mediators in a comfortable, quiet and private space to talk about the incident that led to the grievance.

The Memorandum of Understanding for mediation protocol provides the list of complaints that are eligible for mediation, not eligible for mediation and also identifies what circumstances will make officer ineligible to participate in the mediation process. It includes;

Eligible Complaints

- i. Communications, including rudeness;
- ii. Complaints regarding non-fatal vehicle crash investigations;
- iii. Inadvertent mistakes on routine police forms;
- iv. Other similar complaints of less serious nature, commonly referred to as a Class 7 violation, deemed appropriate for mediation by the CPOA Executive Director.

¹ Martin, M. D. (2004). *The use of mediation to resolve citizen complaints and foster better citizen/police relations.*

In-eligible Complaints

- i. Cases involving injury to either complainant or officer;
- ii. Cases involving sexual, ethnic, homophobic, or racial slurs, or other language that denigrates vulnerable groups;
- iii. Cases involving use of force allegations;
- iv. Cases in which criminal allegations have been made against the officer or the civilian; or,
- v. Cases involving questions of law such as searches or detention issues.

Officer’s In-eligibility

- i. Sustained case within the past year;
- ii. A prior mediation within the past six months;
- iii. Three mediations within the past two years;
- iv. Similar misconduct allegation within the previous 12 months;
- v. Other factors involving the officer as determined by the CPOA Executive Director.

Findings

38 Civilian Police Complaints were referred to the Alternative Dispute Resolution (ADR) office for resolution through mediation. Eligibility criteria for those referrals is listed in the table below.

Communications including rudeness	16
Deemed appropriate by the Executive Director	16
Inadvertent mistakes on routine police forms	4
Non-fatal vehicle crash investigations	1
Other (parking issue)	1

Table 1: Substance of complaints referred to ADR for mediation

6 referrals were **Successful** and **32** were **Unsuccessful/No results**. **Successful** mediation indicates participation in the mediation session and agreement among all parties. If there is agreement between the complainant and the officer as it is conveyed by the ADR office (2 referrals) it is considered as successful mediation. There were *three* referrals that are considered successful, however there was informal mediation where the participants reached an agreement after the referral but before the occurrence of actual mediation session. However, the complainants were satisfied with the overall process and outcome.

One referral was considered successful where both complainant and the officer participated in the session. They were pleased with the mediation session, however there was no mutual agreement between the parties with the issues and practices pertaining to law enforcement in general. **Unsuccessful** mediation suggested no participation by the complainant for which the CPOA investigators received notices of refusal from the ADR office. **No Results** suggests referrals where complainants were completely unresponsive, no mediation occurred and are also considered as unsuccessful mediation.

Data Source and Limitations

This report highlights complaints investigated and complaints closed (investigation completed) along with the findings; demographic information of employees and complainants; and number of serious uses of force incidents. It also provides information regarding policy activities at APD during the reporting period; policy recommendations given by the CPOA/Board, CPOAB training status as well as the CPOA/Board public outreach efforts. Data for this report is retrieved from the IA Pro (Internal Affairs record management database), complainant data retained by the CPOA, CPOAB meeting minutes and City of Albuquerque human resources.

Since the majority of the data is extracted from IA Pro database, it is important to note that the CPOA is not an IA Pro administrator and only has limited control over data entry into the database. The data contained in this report represents the most accurate information available at the time of retrieval. Moreover, the information stored in the database is dynamic and can change as an investigation progresses. The CPOA cannot certify the validity and reliability of APD Internal Affairs data retrieved from the database. Since the complaint data were drawn from live databases, changes in coding, complaints specifications, allegations, employee/complainant and outcome numbers may fluctuate over time and are subject to revision. Addition of new information in the cases later in the stage of investigative process may also lead to discrepancies between data presented in this report and historical data presented in previous CPOA reports.

Section 1. Complaint Details

Civilian Police Oversight Agency is responsible for receiving and investigating all complaints involving APD employees and ensuring that the complaint process is accessible to all members of the community. Any person claiming to be aggrieved by actions of the Albuquerque police may file a complaint against any of its employees/officers.

During the reporting period of July 1st 2021 to December 31st 2021, the CPOA received or recorded a total of 283 complaints/concerns and opened (assigned CPC numbers) 135 complaint investigations. Note that complaint investigations are an on-going process and so these numbers may change in future. Several complaints recorded by the Agency were not assigned for investigation due to reasons including but not limited to:

- Investigators after initial review evidently determined that allegations are not true or does not constitute misconduct,
- Duplicative complaints (already assigned a CPC number),
- Complaints not involving APD personnel (out of jurisdiction),
- Complaints at time of receipt were resolved through informal mediation,
- Driving complaints forwarded to officer supervisor for resolution,
- Lack of information to open an investigation and,
- Complaints forwarded to Internal Affairs due to aspect of criminal allegations.

Complaints opened for investigation by each month (as depicted in the chart on the right) shows that the majority (approx. 19%) were opened in the month of August. The CPOA closed/completed a total of 95 complaint investigations which is an increase from the last reporting period when the Agency closed 78 cases. Out of 95 completed investigations, 52 were opened prior to this reporting period while 43 were opened and closed during this reporting

period. Of the complaints that were closed, (approx. 35%) were closed administratively. Paragraph 184 of the CASA in part states “*Administrative closing or inactivation of a complaint investigation shall be used for the most minor policy violations that do not constitute a pattern of misconduct, duplicate allegations, or allegations that even if true would not constitute misconduct.*”

Complaint Closure Timelines

Information pertinent to complaint investigations timelines for the current reporting period is highlighted in this section. As noted earlier, all complaints must be completed within 90 days unless an extension of 30 days from APD’s Chief is granted as stated in Paragraph 191 of the CASA. For this reporting period, 51 out of the 95 complaints were closed in less than 120 days. 9 complaints were closed after nine months from the date of receipt. Table 2 below provides a snapshot of all complaints closed by the Agency by the total number of days taken for case completion.

Up to 90 days	91-120 days	121-150 days	151-180 days	181 days-9 months	Over 9 months	Total

Note: The timelines do not reflect date of case completion by investigators, it reflects the date when cases are closed in the database after approval by the CPOAB.

Complaint Sources

Complaints received by the Agency can come through different sources. A complainant may file it in writing/in-person or over the phone. They can email, file online, send the complaint through regular mail, or fax the complaint. Complaint forms are available online, at all police sub-stations, supervisor patrol cars, libraries and community centers across Albuquerque - covering more than fifty locations. For the period of July 1st to December 31st 2021, out of the 135 complaints opened, 64 reached the Agency through online self-

reporting by citizens, 33 complaints were received via blue team²/APD, while 16 were received by the Agency through email. Table 3 below lists the source of all complaints that were opened for investigation during this reporting period.

Complaint by City Council Districts

The information reported in this sub-section provides a list of complaints opened for investigation identifying incident location (if any) by the City Council districts. Of the total 9 City Council districts in Albuquerque, majority of the complaints opened were for incidents which occurred in District 6 and District 7, with 21 and 20 complaints respectively. The CPOA opened the least number of complaints for police misconduct incident occurring in City Council Districts 5 and 8 with 6 complaints each. Figure 1 below provides a snapshot of all City Council districts in Albuquerque as well as show number of complaints opened by the Agency by respective council districts. 9 complaints did not identify city council districts where the incident occurred. These are listed as ‘not reported’ in the figure below.

² Blue Team is a program in IA Pro which allow Incidents (use-of-force, field-level discipline, complaints, vehicle accidents and pursuits) to be entered and routed through the chain-of-command for review and approval. Complaints received by APD and forwarded to the CPOA are identified as ‘Blue-team’ in this report

Several citizens who filed complaints did not provide information regarding incident location. Some complaints were filed against employees for reasons not involving a physical incident, such as conduct by an employee over the phone or officers not following up on investigations, which are shown as ‘Not Applicable’ in the figure above. 4 complaints opened during this reporting period were from ‘Out of Area’ suggesting the incident occurred outside of the City Council’s jurisdiction.

Figure 2.2. Civilian police complaints closed trend
Data Source: IA Pro- January 1st 2017-December 31st 2021

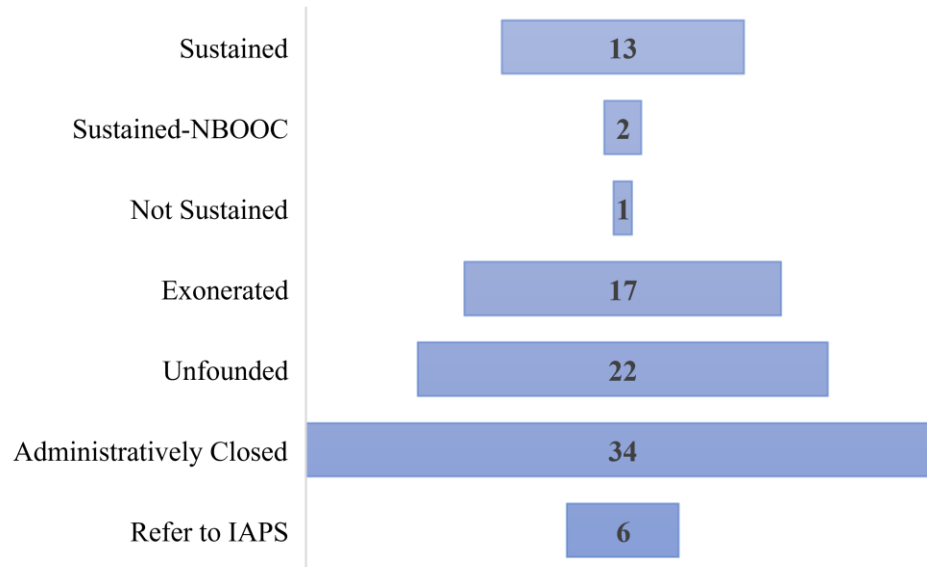

Figure 2.1 and 2.2 above presents the number of complaint investigations opened and closed by the Agency from January 2017 to date. 135 complaints were opened for investigations during the current reporting period compared to 118 complaints during the first six months of 2021. During the years 2019 and 2020, the Agency opened investigations for 244 and 329 complaints respectively as seen in figure 2.1 above. The Agency completed case investigations for 95 complaints during this reporting period compared to the last reporting period when the Agency closed 78 complaint investigations.

Complaint Findings

Following the completion of investigation for civilian police complaint, the CPOA identifies one of several findings for each allegation associated with the complaint. These include: Unfounded (investigation determined that misconduct did not occur), Sustained (alleged misconduct did occur), Not Sustained (unable to determine by preponderance of evidence whether misconduct occurred), Exonerated (alleged conduct occurred, but did not violate APD policies, procedures or training), Administratively Closed (minor policy violation, duplicative allegations, or cannot conduct investigation due to lack of information in the complaint) and Sustained NBOOC (sustained finding not based on original complaint).

It is important to note that there can be more than one allegation and more than one officer involved in one civilian police complaint. For instance, if there are 3 allegations in one complaint, there will be 3 findings for each allegation (e.g. Sustained, Unfounded & Admin Closed). For such case, the findings in this report will be reported as 'sustained' which is the highest disposition as reported in IA Pro database. Figure 3 below illustrates findings by the CPOA for all civilian police complaints which were completed during July 1st to December 31st 2021.

SNBOOC-Sustained Violation Not Based On Original Complaint*

This sub-section identifies allegations associated with complaints that were closed by the Agency during this reporting period. Administratively closed cases comprise of approximately 35% of the total cases closed and no allegations are listed for this finding in the database. This section highlights department SOPs that were reviewed for remaining cases with the findings other than administratively closed. With the help of this data, we can identify the department standard operating procedures which came under review the most in civilian police complaints.

20 APD SOPs were reviewed 157 times for 61 cases with the finding other than administratively closed. SOP 1-1 (Personnel Code of Conduct) was reviewed 89 times while SOP 2-60 (Preliminary and Follow up Criminal Investigations) came under review 17 times in civilian police complaint investigations during this reporting period. Table 5 above lists all the SOPs that were reviewed, number of times they were reviewed along with the CPOA investigative findings.

Chief Non-Concurrences with CPOAB findings

This sub-section identifies cases when the Chief of Police did not concur with the CPOAB proposed findings or disciplinary recommendations concerning an APD employee. Oversight Ordinance section (§ 9-4-1-4-C-3-g) stipulates *“Imposition of the recommended discipline is at the discretion of the Chief of Police. However, if the Chief of Police does not follow the disciplinary recommendation of the Board, the Chief of Police shall respond in writing, within 30 days of the department's final disciplinary decision, with a detailed explanation of the reason as to why the recommended discipline was not imposed. The Chief shall identify the specific findings of the Board with which the Chief disagrees, or any other basis upon which the Chief declined the Board's disciplinary recommendation”*. During this reporting period, the CPOAB received *seven* (CPC 109-21, CPC 093-21, CPC 038-21, CPC 249-20, CPC 250-20, CPC 067-21 & CPC 095-21) notification of non-concurrences from the Chief of Police. (*See Appendix III-1 to 7*)

Section II. Employee and Complainant Demographics

Section § 9-4-1-10-B of the Oversight Ordinance requires reporting of demographic information pertinent to department personnel as well as complainants listed in civilian police complaints. This section is divided into two sub-sections, first will provide information for APD employees while the second sub-section reports on demographic information of complainants identified in completed complaint investigations from July 1st 2021 to December 31st 2021.

Employee Demographics

Complaints can be filed against both sworn and non-sworn employees of the Albuquerque Police Department. A total of 92 APD employees were identified in 95 completed investigations during this reporting period. Out of 95 completed investigations, 75 cases provided information regarding sworn and non-sworn APD employees while 20 complaints did not identify involved employees in the IA Pro database. Complaints that did not identify employee information, were all ‘Administratively Closed’. Note that one complaint can have more than one employee involved.

As required by the Oversight Ordinance, this sub-section reports on demographic characteristics of APD employees who were identified in completed civilian police complaint investigations in this reporting period. The information reported here provides a snapshot of the employee’s rank; includes information on employees by the number of times they were identified in complaints, assigned bureau and division, race & ethnicity, gender and median age. Employee’s Assigned Bureau

This sub-section provides information pertinent to the bureau of involved employees at the time of misconduct incident. Majority of the complaints identified employees from the Field Services Bureau. Figure 5 highlights all the employees who were identified in completed complaint investigations by their assigned bureaus. Note that 5 employees did not have information regarding their assigned bureau in the database and 1 employee was identified in complaints as part of two separate bureaus at the time of complaint receipt.

Employee's Assigned Division

This sub-section provides information related to employee's division at the time when a misconduct complaint was investigated by the Agency. Total of 20 employees who received complaints were assigned to the Northeast area command division while 17 employees from Southeast area command division were identified during this reporting period. 6 employees received complaints at different divisions leading to a high number shown in the figure below. Further breakdown of employees by their assigned division at the time when complaints was investigated by the Agency is illustrated in figure 6 below. Note that 5 employees did not have information regarding their assigned division in the database.

Employee’s Gender, Ethnicity and Race

The CASA and the Oversight Ordinance require capturing demographic information of APD employees who were the recipient of civilian police complaints. Reporting on such information help identify the trends and biases of employees originating specifically due to the race and gender and will also inform the CPOAB to provide policy, training and procedural recommendations to APD. As seen in the figure 7, approximately 90% of APD employees identified in completed complaint investigations were of white race and approximately 84% were male. Of the total 83 white employees, 43 were white (Hispanics) and 40 were white (Non-Hispanics).

Employee’s Median Age

This sub-section shows the median age range of all employees who were identified in misconduct complaints investigation during this reporting period. 19 employees were in the age group of 26-30 years while 17 were between 31-35 years old at the time of the incident. The youngest APD employee identified in the CPOA investigation was 21 years old while the oldest employee was 62 years old at the time when the incident occurred.

Figure 8 below provides information regarding all employees' age who were identified in completed civilian police complaint investigations.

Complainant's Demographics

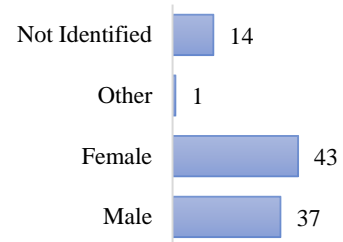

This section identifies complainant's demographic information for this reporting period. To fulfil the CASA requirement, the Agency amended its complaint forms in order to capture additional data for involved complainants. For the current reporting period, the Agency completed 95 civilian police complaint investigations involving 95 complainants. 1 out of those filed complaints anonymously. The data provided in this section provides information on complainants' gender, race, ethnicity, sexual orientation, mental health status, median age and housing status (homeless).

During this reporting period, 2 complainants were listed among 2 separate closed complaints during this period and 1 complainant was listed in 4 closed cases. 3 complainants did not provide their names. 2 complainants were listed as APD officers, those complaints were forwarded to IAPS and 1 complaint was received from a member of DOJ. 5 civilian police complaints closed during this period listed 2 complainants. The source of data reported in this section is from the complaint form 'Optional Demographic Section'. Note that information reported in this section mirrors the information reported by the citizen in the complaint form. The complainant might state they do not have mental illness in the complaint, but is later determined that they have mental health issues. The information reported here will state 'No' mental illness as stated by the complainant on the complaint form. Some data is not reported by complainants regarding the demographic characteristics which will be highlighted alongside each sub-section.

Since this section is 'optional' while filling the complaint form, several complainants skipped this demographic section and did not provide any information. Some complaints were received via direct email, blue team or through written memorandum by the Agency which do not have any demographic information regarding complainants. This caused a significant large number of missing information. Another reason for missing information is due to old complaint forms which did not capture all the information as required in the new complaint form. Notably, some complaints are filed by citizens on behalf of other individuals. Demographic information captured may not have information of the actual complainant but rather have information of those submitting the complaint form. Sub-sections below highlight demographic information for complainants from July 1st 2021 to December 31st 2021.

Complainant Gender

This sub-section provides information regarding the gender of complainants who were identified in closed civilian police complaints during this reporting period. Of the total 95 complainants, Male were 37 compared to 43 Female complainants. 1 complainant identified their gender as 'other'. 14 complainants listed in closed complaints did not record information about gender and among those 2 were APD officers, 1 listed as DOJ and 1 anonymous complainant.

Complainant Race & Ethnicity

Data on race and ethnicity will help identify problems and population at risk, which is crucial information for policymakers in making effective decisions. The data will also help understand the underlying causes of problems faced by specific groups of population due to police misconduct. It will help understand if police officers are complying with civil rights law and will also help detect evidence of discrimination against certain population segments. As seen in figure 9, white complainants comprised of the largest percentage (approx. 44%). 33% of the complainants did not report on race while submitting complaint with the Agency. Individuals with Hispanic ethnicity has slightly large percentage (approx. 31%) compare to non-Hispanic (approx. 29%) with (approx. 39%) complainants not identifying information about ethnicity.

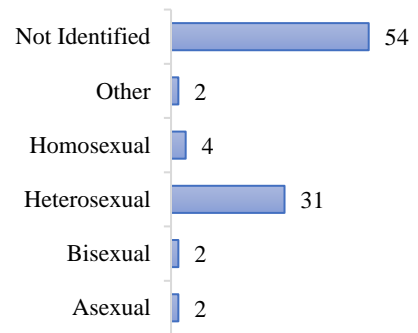

Figure 9. Complainants Race & Ethnicity
Data Source: IA Pro- July 1st 2021-December 31st 2021

Complainant Sexual Orientation

Per the CASA agreement, the Agency and APD are mandated to collect data regarding the sexual orientation of citizens to identify possible biases among specific population segments. Discrimination and harassment by law enforcement based on an individual’s sexual orientation hinders the process of effective policing, breaks community trust and prevents officers from protecting and serving communities. For the complaint investigations completed during this period, approximately 33% of the complainants were identified as heterosexual while a significantly larger number (approx. 57%) of the complainants did not provide information regarding their sexual orientation.

Complainant Mental Health Status

This sub-section provides information pertinent to mental health status of complainants. Paragraph 175 of the CASA states “APD and the Civilian Police Oversight Agency shall track allegations regarding misconduct involving individuals who are known to be homeless or have a mental illness, even if the complainant does not specifically label the misconduct as such”. The CPOA updated the complaint form to comply with the Department of Justice requirements by adding questions to determine if complainants experience mental health issues or struggled with homelessness. For this reporting period, 11 complainants stated they were experiencing mental health issues while 44 reported ‘No’ mental health issues. 40 complainants did not report on this.

Complainant Housing Status

The information reported in this sub-section identifies whether the complainants were homeless at the time of interaction with the APD. 46 complainants stated they were not homeless when the incident occurred while 6 complainants stated they were homeless at the time of incident. 1 complainant filed four separate complaints among which they listed they were not homeless at the time of interaction with APD in three instances while in one occasion the complainant reported they were homeless. Again, a significantly large number, 44 did not report on this information.

Complainant Median Age

This sub-section highlights the median age of complainants identified in closed complaints during the last six months of 2021. 64 complainants reported on their age when submitting complaints with the Agency while 31 individuals did not report their age. The youngest complainant was 18 years old while the oldest was 77 years old. Figure 10 below provide details about complainants' age group for this reporting period.

Section III. APD Use of Force Incidents

The information underlined in this section will report on the number of Use of Force incidents that were investigated by Internal Affairs Force Division (IAFD) during this reporting period and the CPOAB review of Level 3 Use of Force cases. There was a total of 261 Level 1 and 2 and 42 Level 3/Serious Uses of Force (SUOF) cases reported by IAFD to the CPOAB from the period beginning July 1st 2021 and ending December 31st 2021. Sub-sections below provide detailed information regarding area commands where these incidents occurred, call type associated with force events and serious uses of force cases that were reviewed by the CPOAB during this reporting period.

SOP 2-53 (Use of Force-Definitions) outlines the list of all events which will be classified among three force levels. All Level 3 force incidents will be identified as serious uses of force in this report. Different level of force is defined as:

- **Level 1 Use of Force:** Force that is likely to cause only transitory pain, disorientation, and/or discomfort during its application as a means of gaining compliance.
 - a. This includes techniques that are not reasonably expected to cause injury, do not result in an actual injury, and are not likely to result in a complaint of injury (i.e., pain compliance techniques and resisted handcuffing).
 - b. Shows of force, including: pointing a firearm, beanbag shotgun, 40-millimeter impact launcher, OC spray, or ECW at an individual, or using an ECW to “paint” an individual with the laser sight or utilizing a warning arc. A show of force is reportable as a Level 1 use of force.
 - c. Level 1 use of force does not include interaction meant to guide, assist, or control an individual who is offering minimal resistance.

- **Level 2 Use of Force:** Force that causes injury, could reasonably be expected to cause injury, or results in a complaint of injury.

- a. Level 2 use of force includes: i. Use of an ECW, including where an ECW is fired at an individual but misses; ii. Use of a beanbag shotgun or 40-millimeter impact launcher, including where it is fired at an individual but misses; iii. OC spray use including where it is sprayed at an individual but misses; iv. Empty-hand techniques (e.g., strikes, kicks, takedowns, distraction techniques, or leg sweeps); and v. Strikes and attempted strikes with impact weapons. This excludes strikes to the head, neck, throat, chest, or groin, with a beanbag shotgun or 40-millimeter impact launcher and strikes to the head, neck, throat, torso, or groin with a baton or improvised impact weapon, which are considered Level 3 uses of force.
- **Level 3 Use of Force:** Force that results in, or could reasonably result in, serious physical injury, hospitalization, or death.
 - a. Level 3 use of force includes: i. Use of deadly force; ii. Critical firearm discharges; iii. Use of force resulting in death or serious physical injury; iv. Use of force resulting in hospitalization; v. Strikes to the head, neck, throat, chest, or groin with a beanbag shotgun or 40-millimeter impact launcher and strikes to the head, neck, throat, torso, or groin with a baton or improvised impact weapon; vi. Use of force resulting in a loss of consciousness; vii. Police Service Dog bites; viii. Three or more applications of an ECW on an individual during a single interaction, regardless of the mode or duration of the application, and regardless of whether the applications are by the same or different officers; ix. ECW application on an individual during a single interaction for longer than 15 seconds, whether continuous or consecutive, regardless of the mode of application; x. Neck holds; xi. Four or more strikes with a baton or improvised impact weapon; and xii. Any Level 2 use of force against a handcuffed individual.

Level of Force Used by Area Commands

Among all use of force incidents, majority of the events occurred in southeast area command totaling 77 events. For southeast area command, level 1 force was investigated 15 times, level 2 force 51 times while level 3 force event was investigated 11 times during the reporting period. Note that IAFD does not investigate level 1 use of force and these are forwarded to the respective area commands. Prisoner Transport Center (PTC) is within valley area command’s jurisdiction, however cases occurring at PTC are reported separately. Out of Area suggests use of force incidents occurring outside the jurisdiction of APD area commands. Breakdown of force incidents that occurred during these six months by the area command for all levels of use of force is highlighted in the figure below.

Section V. CPOA/Board Policy Activities, Policy Recommendations provided to APD, CPOAB Training Status & Legislative Amendments to Oversight Ordinance and Policies and Procedures

As defined in the Oversight Ordinance, an important role of the CPOA/Board is to *“Provide input, guidance and recommendations to the City Council, the Mayor and the Chief of Police for the development of policy for the Albuquerque Police Department”*. The Oversight Ordinance requires the Board and the Agency to recommend policies, training, programs, and other procedural suggestions to the APD. The Oversight Ordinance stipulates *“The Board must dedicate a majority (more than 50%) of its time to policy recommendations”*. This section provides a snapshot of the activities that the Board dedicated to policy and other important matters related to APD during the current reporting period. During the first year of its existence the Board created a set of operating procedures designed to meet their obligations per the Oversight Ordinance. To serve this mission, the Board created Policy and Procedures Review Sub-Committee (PnP) that reviews APD policies and procedures, and makes recommendations on changes to ensure that compliance and consistency aligns with the CPOA’s mission.

A critical function of the CPOA and the Board is to provide information regarding the APD policy processes to the public. This function is enhanced when CPOA/Board participates directly in the policy development process at APD and reports the results to the public. CPOA/Board recommendations are given serious consideration in the APD policy development and review process. Board members, the CPOA Executive Director and staff regularly participate in Policy and Procedure Unit (formerly Office of Policy Analysis OPA) meetings where new policies and modifications to existing policies are presented for review by APD subject matter experts. The members are presented with the opportunity to ask questions and recommend policy changes. The Board designee and the CPOA Executive Director also attend the Policy and Procedures Review Board (PPRB) meetings to finalize and vote on the SOPs before they reach the CPOAB for a 30-day review, the DOJ & the independent monitor (if it is CASA related policy) and the Chief of APD for final approval prior to publishing.

Among the suggestions were: detective training, forensics lab, Training academy, Canine unit, RTCC, Communication Center, On call victims advocate, Family advocacy center, Records center.
- The CPOA has recommended that citizen complaints that involve minor violations by officers be resolved by the Area Command of the officer involved. This would result in quicker resolution of the issue, alert the Area Command to a possible need to increase attention on that officer behavior, and reduce the workload on the CPOA investigators. This topic has also been discussed with the IMT. It would be necessary to modify language in SOP 3-41 as well as other actions in order to fully implement such a plan. A letter to the Chief of police was sent by the CPOAB to incorporate such changes.

Policy Recommendations provided to APD

The Oversight Ordinance states “*The Board shall review and analyze policy suggestions, analysis, studies, and trend data collected or developed by the Administrative Office, and shall by majority vote recommend policies relating to training, programs and procedures or other matters relating to APD. Any such policy recommendations shall be supported by specific, written findings of the Board in support of the proposed policies. The Board's policy recommendations shall be submitted to APD and to the City Council. The Board shall dedicate a majority (more than 50%) of its time to the functions described in this subsection*”. (§ 9-4-1-4-C-5-a). The PnP Sub-committee is tasked with reviewing APD policies and procedures and make recommendations to the full Board on suggested changes.

Establishing and implementing sound policies are important to guide officers in making good decisions in critical situations. The quality of a department’s policy impacts the quality of services delivered to the public. Effective police accountability requires the department to have clear and detailed policies regarding police encounters that involve life, liberty and well-being of people

they encounter³. Accountability encourages departments to build trust in the communities they serve. Policies need to be clear and consistent throughout a department's Standard Operating Procedures manual. Inadequate policies fail to tackle possibly illegal and unprofessional actions. CPOA/Board recognizes that a good policy recommendation has several features:

- It identifies a problem and proposes a solution,
- It is supported by data,
- It is transparent to the community,
- It is clear, understandable, trainable and acceptable to the Police Department, and
- It has a good chance of being adopted.

There was *one* policy recommendation letter SOP 3-41 (Complaints Involving Department Personnel) sent to APD by the CPOA/Board (*See Appendix III-32*). Extensive discussions also took place at the Policy and Procedures review Sub-Committee, APD Policy and Procedure Unit (formerly Office of Policy Analysis) and APD Policy and Procedures Review Board. Many concerns were raised with the Subject Matter Experts (policy owners), and several comments and suggestions were provided at these meetings to bring changes in the SOPs early in the process.

Interoffice Memorandum

February 7, 2022

To: Diane McDermott, Interim Executive Director, CPOA
From: Eric J. Garcia, Interim Superintendent of Police Reform/DCAO
Subject: Non-Concurrence of Findings and/or Discipline re: CPC 109-21

This memorandum serves to convey the articulation for APD's points of non-concurrence in the above captioned administrative investigation conducted by the Civilian Police Oversight Agency.

Summary of non-concurrence of finding(s):

Policy	CPOA Finding	APD Finding
1-1-6(A)(3)	Sustained	Not Sustained

Rationale for non-concurrence of the above listed finding against Detective K R :

I concur with the recommendation provided by City of Albuquerque Legal as follows:

"Pursuant to §9-4-1-4(C)(3)(g) ROA 1994, I have reviewed the investigation and findings of the Civilian Police Oversight Agency (CPOA) regarding CPC 109-21, which pertained to allegations that Detective K R had violated SOP 1-1-4(D)(20) ("Personnel Code of Conduct"), which was in effect at all times relevant to the conduct at issue.

As noted in the investigation, the relevant portion of the SOP 1-1-4 is as follows: "D. On-Duty Conduct ... 20. Personnel will truthfully answer all questions specifically directed to them that are related to their employment and to all operations of the Department." (emphasis added) It follows that in order for sworn personnel to have violated this section, they must deliberately lie, conceal facts and/or circumstances, or submit information they know to be false.

In short, Detective R was alleged to have withheld information regarding promises he made to a cooperating witness in a criminal matter pending in federal court. Detective R had been tasked with assisting in a federal case. This involved working with an incarcerated witness who was expected to testify against the defendant.

It is clear that Detective R, while acting in conjunction with federal authorities, was acting within the scope of his employment and that any information related to his efforts in that regard would fall

within the scope of the SOP at issue in this matter. He had an obligation to truthfully answer any and all questions directed to him that could be related to his involvement in the federal case.

The investigation, however, did not reveal any specific fact or circumstance that would show, by way of a preponderance of the evidence, that Detective R intended to lie, conceal, or advance false information in response to any inquiries about having made promises to a witness. The investigation revealed that Detective R did not receive any formal training from the federal agencies involved with regard to how to document interactions with witnesses.

A portion of Detective R testimony was apparently the main piece of evidence in the investigation which resulted in the determination that the allegation of misconduct was sustained. That testimony was quoted in the Court's order. However, that testimony does not contain any admission that Detective R intentionally lied, concealed relevant facts or circumstances or submitted false information. Instead, the testimony reflects that the detective, upon being questioned in court, admitted that he had previously made promises and failed to disclose them, not that he was aware of having made promises when he was asked to confirm the contrary some period of time afterward.

While the Court ultimately did not find this specific statement to be credible, the Court also held clearly that it could not assign a bad faith motive to the detective's failure to disclose the promises he made to the witness. The testimony from Detective R could equally be construed that he erred by failing to properly document all of his interactions with the witness rather than deliberately concealing or lying about the relevant interactions he had with the witness.

Detective R can certainly be criticized for failing to adequately and thoroughly document his conversations with the witness, but this alone does not give rise to a finding that he violated the relevant SOP. He clearly made normal promises to a witness, but failed to properly record these in a manner which might have resulted in compliance with the Court's later verbal and written discovery rulings.

Because the available facts and circumstances in the investigation cannot fairly point to one conclusion over another by a preponderance of the evidence, I must respectfully disagree with the CPOA investigation and conclude that the alleged misconduct be deemed "not sustained." As such, the Department will take no disciplinary action against Detective R regarding this allegation.

Conclusion:

As a result of the above mentioned points of non-concurrence, the CPOA's recommended adverse finding will be replaced with the non-adverse finding of "Not Sustained" as the official resolution to this case.

Respectfully,

Eric J. Garcia
Interim Superintendent of Police Reform/DCAO

Albuquerque Police Department

Investigation: CPC 093-21

Supervisors Recommendation Form

September 13, 2021

Commander Renae McDermott

SOP Violation: 1-14D.14

Based on the evidence presented, and the fact the complainant did not cooperate with this investigation, I do not concur with the CPOA's finding of SUSTAINED nor the recommended preliminary discipline calculation. I recommend this violation be NOT SUSTAINED.

Per the Civilian Police Oversight Agency finds"The Executive Director recommends a Class 6 sanction be added to this SOP violation. The subject of this investigation allowed his personal animosity toward the complainant to affect his judgment. He chose to take enforcement actions against the complainant, issue a summons, while others committing similar offenses were not summoned. "

"The action appears retaliatory. There was not enough evidence to prove a violation occurred of the department's retaliation policy because the complainant did not cooperate with the investigation. "

Overall review of the CD provided of the incidents in question along with Sgt. Hunt's interview statement, Sgt. Hunt exercised great discretion and constraint by not engaging with complainant while on both scenes as complainant repeatedly harassed and distracted Sgt. Hunt. Sgt. Hunt continually advised and gave direction for complainant to move back and out of the scene whereupon he could continue to take video from a safer location. Each time Sgt. Hunt provided that direction, complainant disregarded Sgt. Hunt's direction and made unnecessary and unwarranted comments. Sgt. Hunt did not have to give this same direction to others at the scene therefore, no one else at the scene was given a summons because Sgt. Hunt did not have to engage with the others as he continually did with the complainant.

The action "appears"retaliatory is not fact nor where facts presented which support that a violation occurred.

Training:

No training issue was identified in this review.

*** This is an addendum to my initial review and recommendation conducted on September 13, 2021.

At the request from CPOA Executive Director Harness, I was requested to re- review my initial recommendation. I conducted my re-review on October 21, 2021 and after this review I stand by my initial recommendation.

To: Diane McDermott, Interim Executive Director, CPOA
From: Eric J. Garcia, Interim Superintendent of Police Reform/DCAO
Subject: Non-Concurrence of Findings and/or Discipline re: CPC 038-21

This memorandum serves to convey the articulation for APD's points of non-concurrence in the above captioned administrative investigation conducted by the Civilian Police Oversight Agency.

Summary of non-concurrence of finding(s):

Policy	CPOA Finding	APD Finding
3-13-3(B)(3)(a)	Not Sustained	Unfounded
1-1-4(J)(4)	Not Sustained	Unfounded

Rationale for non-concurrence of finding for 3-13-3(B)(3)(a) against Ofc. J A :

I concur with the recommendation provided by Commander G W and concurred by Deputy Chief J B as follows:

I concur with CPOA Investigator Coca on all findings of this case except for his finding on SOP 3-13-3B-3a:

*Officers shall abide by the following principles: Take appropriate action and render assistance in any instance that comes to their attention, whether on duty or off duty"

Investigator Coca reached a finding of "not sustained" meaning his investigation was unable to determine by preponderance of the evidence whether the officer complied with the policy. The allegation centers on whether Officer J knowingly allowed Operator G to drive her vehicle while intoxicated. The complainant did not offer sufficient evidence to establish any indication that Ms. G had been drinking alcoholic beverages beyond her own claims that it "reeked" in the house and that the non-itemized bill incurred at the restaurant was simply too high to be food. The Rio Rancho Police Department, an objective third party, stated they could not smell or observe any signs of intoxication and did not feel it necessary to stop the vehicle. Moreover, Officer A offered explanation of the alcohol bottles being out due to a previous event. Officers are not automatically given credit on their statements however no evidence was presented in the case or in the officer's retention file to cause me to question the credibility of that statement.

It is true there is no way for the investigation to completely establish that Operator G was not under the influence but the burden is not on her to prove she had not been drinking to the point of intoxication nor on Officer A to stop her from driving when the objective third party did not see evidence she should not be driving. I believe the proper finding in this case is UNFOUNDED.

Rationale for non-concurrence of finding for 1-1-4(J)(4) against Tele Comm Op. M

G :

I concur with the recommendation provided by Commander C W and concurred by Deputy Chief J B as follows:

I concur with CPOA Investigator Coca on all findings of this case except for his finding on SOP 1-1-4J-4:

"Personnel will not use intoxicating beverages while off duty if such use renders them unable to report for their next scheduled tour of duty or if the use would bring discredit to the department"

Investigator Coca reached a finding of "not sustained" meaning his investigation was unable to determine by preponderance of the evidence whether the officer complied with the policy. The allegation centers on whether Operator G drank intoxicating beverages prior to a scheduled shift. The complainant did not offer sufficient evidence to establish any indication that Ms. G had been drinking alcoholic beverages beyond her own claims that it "reeked" in the house and that the non-itemized bill incurred at the restaurant was simply too high to be food. The Rio Rancho Police Department, an objective third party, stated they could not smell or observe any signs of intoxication and did not feel it necessary to stop the vehicle.

It is true there is no way for the investigation to completely establish that Operator G was not under the influence but the burden is not on her to prove she had not been drinking to the point of intoxication. Moreover, the investigation found no evidence Ms. G was unable to report for her next shift nor that her performance was substandard in any way. I believe the proper finding in this case is UNFOUNDED.

Conclusion:

The above information constitutes the totality of non-concurrence on the part of APD. No other aspect of the CPC investigation is contended.

Subject: Non-Concurrence of Findings and/or Discipline re: CPC 249-20

This memorandum serves to convey the articulation for APD's points of non-concurrence in the above captioned administrative investigation conducted by the Civilian Police Oversight Agency.

Summary of non-concurrence of finding(s):

Policy	CPOA Finding	APD Finding
1-1-4(D)(15)	Sustained	Administratively Closed

Rationale for non-concurrence of finding for 1-1-4(D)(15) against Officer C L :

I concur with the recommendation provided by former Deputy Chief E C as follows:

After reviewing the facts in this case, I do not concur with the findings of the CPOA. The subject was extremely disrespectful towards Officer I and Officer C. Mr. A continuously challenged any questioning by the officers in which a back and forth conversation continued throughout their interaction. Both officers displayed patience in which at no point did they raise or escalate the situation. I saw this more of a dialogue and while one would hope for it to be more productive, it was not. There were bits and pieces of comments that could have been left out by Officer I but nothing that rose to sustaining him for violating the policy. This is considered a minor policy violation and not significant of a pattern of misconduct.

Based on the facts of the case, this violation will be found **Administratively Closed**.

Conclusion:

Based on the aforementioned points of non-concurrence, The CPOA's recommended adverse finding will be replaced with the non-adverse finding of "Administratively Closed." As a result, no discipline will be imposed as it relates to this change.

Interoffice Memorandum

To: CPOA Board
From: Harold J. Medina, Chief of Police
Subject: Non concurrence CPC – 250-20

I have reviewed the above listed case and concur in part and do not concur in part with the findings of the CPOA investigation. The sustained charges in this case are predicated on an alleged use of force. If this case was believed to contain a use of force, it should be sent to IAFD for a thorough evaluation and determination. The factors of minimal, necessary, reasonable and proportionate force can then be evaluated by investigators who are trained in and specialize in use of force. This would follow the same practice as criminal allegations made to the CPOA being referred for a criminal investigation to the appropriate unit.

In determining if a use of force occurred one must look at the policy in its entirety and not in part. The policy section below was cited by the CPOA investigation as the determining factor that this was a use of force:

Level 1 Use of Force: Force that is likely to cause only transitory pain, disorientation, and/or discomfort during its application as a means of gaining compliance.

1. *This includes techniques that are not reasonably expected to cause injury, do not result in an actual injury, and are not likely to result in a complaint of injury (i.e., pain compliance techniques and resisted handcuffing).*

There are two more subsections to this policy which were omitted;

b. Shows of force, including: pointing a firearm, beanbag shotgun, 40 millimeter impact launcher, OC spray, or ECW at an individual, or using an ECW to "paint" an individual with the laser sight or utilizing a warning arc. A show of force is reportable as a Level 1 use of force.

c. Level 1 use of force does not include interaction meant to guide, assist, or control an individual who is offering minimal resistance. (Emphasis added)

Moreover one must examine what is not a use of force. In the policy cited below, that is defined;

O. Low-Level Control Tactics

1. *Physical interactions meant to guide and/or control an individual that do not constitute a reportable use of force. Low-level control tactics include, but are not limited to:*

a. Escort techniques, touching, use of control holds, or handcuffing an individual with no or minimal resistance (e.g., tensing of arm muscles or turning or pulling away that does not escalate to a reportable use of force) which does not cause pain and is not reasonably likely to cause pain or injury; and

b. Using hands or equipment to stop, push back, separate, or escort a person in a manner that does not cause pain, and is not reasonably likely to cause any pain or injury.

The video depicts the complainant having slipped one hand out of her handcuffs. The complainant states that they “fell off”. In any event the subject officers proceed to re handcuff the complainant. The complainant is moving around and screaming the entire time and at one point complains about the handcuffs hurting her. The handcuffs are being adjusted when the complainant attempts to turn toward the officer on her left side. The officer on her right side grabs her upper bicep and pulls her back facing forward. This occurs a second time and the officer tells the complainant to stop turning around. It is the grabbing of the complainants bicep that the investigation determined to be a use of force. The complainant never mentioned pain from the officer holding her in the video or in her complaint.

When the complainant is released back into the cell, it is apparent on video that the handcuffs move freely and are around the distal portion of the wrist. Moreover the handcuff on her left wrist is over her shirt cuff.

In examining if a use of force occurred I looked at policy, circumstance and intent. The policy states;

Escort techniques, touching, use of control holds, or handcuffing an individual with no or minimal resistance (e.g., tensing of arm muscles or turning or pulling away that does not escalate to a reportable use of force) which does not cause pain and is not reasonably likely to cause pain or injury

The complainant was clearly turning and pulling away. The question is whether the officers’ actions caused pain or reasonably likely to cause pain. Pulling on someone’s upper arm and holding it in the manner depicted is not reasonably likely to cause pain or injury. It is a quasi-escort hold which is also defined to not be a use of force. I then examined the intent associated with the action. The officers were trying to adjust the handcuffs and the complainant kept turning. The officer’s statement affirms that his apparent intent was to keep the complainant from turning so the handcuffs could be applied. I then looked at the resistance the complainant was offering. To determine this I looked at the policy stated above which says in part, “*handcuffing an individual with no or minimal resistance (e.g., tensing of arm muscles or turning or pulling away that does not escalate to a reportable use of force)*”. The actions of the complainant are clearly within this definition.

Since the handcuffs do not appear improperly applied on video, this coincides with the officer’s statement that they were properly applied.

While the complainants screaming is quite dramatic, the case in its entirety must be evaluated. For the reasons stated above, the preponderance of evidence indicates that this was not a use of force. The mechanisms employed meet the definition of low level control tactics.

After review of the attached documentation I concur with Commander Norris findings of Exonerated for 2-60-4A.5.b.e.f for all officers involved.

I do not concur with the CPOA finding of a sustained violation for 1-1-5A1 that was added by the board. The initial investigation never touched on the violation and the officers involved were never interviewed or questioned reference the violation. The original complainant Mr. Sweeny was also never contacted during the investigation as to the alleged violation of 1-1-5-A1. Without further investigation and re-interviewing the involved officers there is no way to sustain the violation for all officers involved.

This case is also beyond timelines as this case was entered in April, 2021. CPOA filed an extension on July 8, 2021 for a 30 day extension and the board provided their opinion on October 14, 2021.

Final finding: 2-60-4A.5.b.e.f- Exonerated.

I do not concur with the findings of the investigation on CSS Supervisor R L . She did fail to properly code the OBRD recording as restricted, once she was made aware of it. This is a sanction 6 violation, which would warrant a written reprimand. Taking into account progressive discipline, she does have a prior sustained sanction 5 for a similar offense, this would move up to a second-class 6, which would be an 8 to 32 hour suspension. The CPOA recommended a 32-hour suspension but gave no aggravating factor as to why the high end was recommended. I **DO NOT CONCUR** with the recommended discipline. I am imposing an 8-hour suspension for a second violation sanction 6.

Officers spoke with Mr. S briefly, but he refused to submit to arrest and went inside the home. A tactical activation was authorized.

During the tactical activation Mr. S spoke with the CNT officer, and threatened "suicide by cop". Tactical officers deployed chemical weapons, and noise flash diversion devices to gain Mr. S.'s compliance.

Mr. S. exited the home, but continued to ignore the commands of officer's as he began to walk away from police. Sgt 1 deployed his K9 to make the arrest of Mr. S.

Finding: The CPOA finds Sergeant 1's conduct "Exonerated," regarding the allegation of a violation of this SOP, which means the investigation determined, by preponderance of the evidence that the alleged conduct did occur but did not violate APD policies, procedures, or training.

My review of the evidence shows on January 2, 2020 the victim Mr. L. gained entry to a closed business, the Walgreens at 2011 12th St. NW. Officers arrived on scene, finding evidence of the break-in. A store representative arrived and verified Mr. L. was in the building through store surveillance video. Officers began announcements for Mr. L. to present himself to police for arrest.

A search of the business began with a muzzled K9. During that search officers found an empty bottle of champagne, and smoked cigarettes. Upon discovery of that evidence the K9 search continued with the K9 unmuzzled.

The K9 located Mr. L behind an unlocked door in the pharmacy area. The K9 contacted Mr. L. on the arm and officers took Mr. L into custody.

Dear Chief Medina,

The Civilian Police Oversight Agency Board would like to commend the Albuquerque Police Department Policy Review Unit, the policy owners for SOP 3-52 "Policy Development Process" for their efforts in reviewing and improving this policy.

PO Box 1293

Albuquerque

NM 87103

www.cabq.gov

SOP 3-52 is the fundamental policy used to review all SOPs within APD. In brief, it creates a process that allows for early input to SOP review from APD personnel; the CPOA; and the community. As SOPs proceed to the 15-day commentary period, more input is solicited from APD and the community. At a meeting of the Policy and Procedures Review Unit the SOP is advanced for formal recommendations. The CPOA has 30 days to make their formal recommendations to the Chief of APD. The Independent Monitor Team also reviews, approves and/or modifies all CASA related policies.

The PRU has generally cleaned-up and reorganized the language in this policy to make the policy statement clearer and the entire process easier to follow. This is aided by a detailed flow-chart to visualize the entire process.

When following the process in SOP 3-52, the SOP under review is presented at the first review by a designated subject matter expert/policy owner. The PRU has clarified the definition of the role of the policy owner and provides assistance in preparing the policy for presentation. The PRU has also defined the responsibility of the policy owner to respond to requests from the PRU in order to better prepare the policy for review.

The PRU has incorporated changes suggested by CPOA representatives leading to enhanced collaboration with the CPOA and greater transparency in the SOP development process. These changes lead to more informative discussions at the first review meeting allowing the policy owner to incorporate suggestions earlier in the process.

The CPOA Board feels that the policy development process has improved vastly over the last two years both in terms of efficiency in moving SOPs through the review process and in

Albuquerque - Making History 1706-2006

promoting a spirit of cooperation between the CPOA and the PRU. These efforts have resulted in better policies.

These improvements are in no small part due to the efforts of Acting Commander Sean Waite, Professional Integrity Division, Police Reform Bureau (formerly with the Compliance and Oversight Division) and Patricia Serna, Policy Manager, Policy and Procedure Unit, Compliance and Oversight Division, Accountability and Analytics Bureau. We would like to commend them and the members of their team: SOP Liaison Angelina Medina and Policy Coordinator Officer Tanya La Force, as well as the policy owners for their hard work and diligence in developing a better policy development process.

Sincerely,

Eric Olivas, Chair

Civilian Police Oversight Agency
PO Box 1293
Albuquerque, NM 87103

RE: CPOAB's Recommendations for SOP 2-98 Gunshot Detection Procedure

Dear Board Members:

The Albuquerque Police Department (Department) received recommendations for SOP 2-98, Gunshot Detection Procedure, from the Civilian Police Oversight Agency Board (CPOAB) dated June 10, 2021. The following is an explanation of the Department's response.

Recommendation #1: "Create data-driven patrol plans from the data retrieved from this system to maximize crime deterrence and to reduce gun violence in the city."

400 Roma NW

ShotSpotter data are used to conduct and drive data-driven patrol plans to maximize crime deterrence and reduce gun violence in the City of Albuquerque. The data and analysis are confidential law enforcement information.

Albuquerque

Recommendation #2: "Semi-annually, RTCC provide the Board with oral or written 'impact, reports', which will highlight results of ShotSpotter use to include information but not limited to: number of individuals arrested, percentage decrease or increase in gun violence compared to previous period, number of firearms seized, percentage increase or decrease in homicides by shootings or gun related incidents with injuries, comparison of shots fired with area commands that does not use ShotSpotter, number of gunshot victims found with the help of this technology if the use led to reduction in gunshot victims transport time."

New Mexico 87102

www.abq.gov

The Department will provide a semiannual brief on ShotSpotter use and impact to the CPOAB.

Recommendation #3: "Board is seeking information on change in dispatch call priority levels from Priority 1 (as stated in Special Order 20-28 dated March 2020 & SO 20-54 dated July 2020) to Priority 2. Several jurisdictions across the country including Denver Colorado and Richmond California considers gunshot detection system dispatch all priority 1 and the manufacturer of this system also recommends police departments using this tool to consider dispatching calls generated from ShotSpotter as priority 1."

Albuquerque - Making History 1706-2006

The Department, like all large police departments, has an established call priority system that vary according to the needs of the Department and community. The Department's call priority system is based on a 1 to 5 call priority system.

Priority 1 calls involve any immediate life-threatening situation with a great possibility of death or life-threatening injury, or any confrontation between people that could threaten the life or safety of any person where weapons are involved. Priority 1 calls are calls where those factors are known to exist currently.

Priority 2 calls involve any crime in progress that may result in a threat of injury to a person, major loss of property, or immediate apprehension of an individual. Priority 2 calls also include accidents with injury. A ShotSpotter activation is essentially a notification that a firearm has been discharged, yet there is no confirmation that it has resulted in an actual shooting. Most ShotSpotter activations do not result in the discovery of a shooting victim.

A ShotSpotter activation is a Priority 2 call for service. While the Denver Police Department responds to a ShotSpotter activation as a Priority 1 call, this is based on their call priority system of 0 to 7. Richmond, California uses a similar 1 to 5 call priority system as the Department's. The Department reached out to the Richmond's emergency communications center manager who stated their ShotSpotter activations are categorized as being a Priority 2, not a Priority 1.

Re-categorizing ShotSpotter activations as a Priority 1 call for service would reallocate valuable resources for incidents involving verifiable life-threatening circumstances and use resources for incidents that are less likely to be life-threatening. Moreover, a re-categorization in the call priority would result in ShotSpotter activations being a higher priority than an armed robbery alarm or a domestic violence call that is in progress. An unintended consequence may result in the delay of officers who are available to respond to calls of an emergent nature.

Recommendation #4: "Board requests that the department notify the Board when seeking approval from the City Council for investments more than \$100,000 in purchasing new technology and equipment. This practice will allow the Board to review and evaluate those particular investments at initial stages, which in turn will increase transparency, promote community trust, and will engrain the Board in the oversight process.

The Department and the City of Albuquerque are committed to transparency. All Department technology purchases over \$100,000 must go through at least two public processes. The Technical Review Committee is responsible for the initial review and approval of technology purchases of over \$500. The Technical Review Committee conducts its initial review and approval during a public meeting. If the Technical Review Committee approves the proposed purchase, the request is reviewed by the Information Services Committee, which is responsible for reviewing and approving purchases of over \$25,000. The Information Services Committee also conducts its review and approval during a public meeting. Once the Information Services Committee approves the proposed purchase, the request

then follows the normal City procurement process, which, for purchases over \$100,000, entails approval by City Council.

Sincerely,

Harold J. Medina

30. MOU Between CABQ, CPOA/Board and the APOA

MEMORANDUM OF UNDERSTANDING BETWEEN ALBUQUERQUE POLICE OFFICERS ASSOCIATION AND THE CITY OF ALBUQUERQUE REGARDING CIVILIAN POLICE OVERSIGHT BOARD ACCESS TO OFFICER IDENTIFYING INFORMATION

THIS MEMORANDUM OF UNDERSTANDING ("MOU") is entered into by and between the City of Albuquerque ("City"), the Albuquerque Police Officers' Association ("APOA"), the Civilian Police Oversight Agency ("CPOA"), and the Civilian Police Oversight Agency Board ("Board") (collectively referred to as the "Parties").

WHEREAS, the City and APOA have entered into a Collective Bargaining Agreement ("CBA");

WHEREAS, pursuant to the Police Oversight Ordinance, Revised Ordinances of Albuquerque, New Mexico, 1994, §§ 9-4-1-1 to 9-4-1-14 ("Ordinance"), the CPOA was established "as an independent agency of city government, not part of either the city administration or City Council [which] consists of the Civilian Police Oversight Agency Board (the 'Board') and an Administrative Office led by the CPOA Executive Director";

WHEREAS, the CBA allows the City and APOA to enter into written MOUs to change or amend policies that would be in conflict with the CBA (CBA, Section 32.3);

WHEREAS, the Parties desire to enter into an agreement that: protects officer identifying information from disclosure to the public; enables the City, CPOA, and Board to comply with the Ordinance; enables the City, CPOA and Board to comply with the requirements of the Court-Approved Settlement Agreement ("CASA") entered in *United States v. City of Albuquerque*, 14-cv-1025 (Doc. 465-1); and does not jeopardize any criminal investigation due to public disclosure of information obtained by administrative investigators but precluded from use in criminal proceedings pursuant to *Garrity v. New Jersey*, 385 U.S. 493 (1967);

WHEREAS, a compelled statement is a statement provided by an officer to an officer's employer if the statement is compelled under threat of dismissal from employment or any other employment sanction (*State v. Chavarria*, 2001-NMCA-095); compelled statements cannot be used in subsequent criminal prosecutions (*Garrity v. New Jersey*, 385 U.S. 493 (1967)); and the CBA states that information from a compelled statement shall not be made public by the City (CBA, Section 20.1.10);

WHEREAS, the CBA further states that any information released to the Board shall not contain information that identifies sworn department personnel (CBA, Section 20.1.10);

WHEREAS, pursuant to Ordinance, the "Board shall . . . review and approve or amend the findings and conclusions of all investigations completed by the Administrative Office" (Ordinance, § 9-4-1-4);

WHEREAS, pursuant to the Ordinance, the Albuquerque Police Department ("APD") "shall provide Board members, the Director, and CPOA staff reasonable access to APD premises, files,

documents, reports and other materials that are reasonably necessary for the agency to perform thorough, independent . . . reviews of serious uses of force and officer-involved shootings” (Ordinance, § 9-4-1-4(C)(3)(b));

WHEREAS, the CASA requires the CPOA to conduct thorough and independent reviews of APD’s serious uses of force and officer-involved shootings, and further requires all of the findings made by the Executive Director in conjunction with such reviews to be forwarded to, and reviewed by, the Board (CASA, ¶¶279 – 282);

WHEREAS, the CASA requires that the “City shall provide the agency, its investigative staff, and the Executive Director access to . . . the identities of officers involved in incidents under review” (CASA, ¶ 282(b));

WHEREAS, so that the Board may conduct its reviews, the CASA requires the City to “provide reasonable access to APD premises, files, documents, reports, and other materials for inspection by those appointed to the agency, its investigative staff, and the Executive Director upon reasonable notice” (CASA, ¶ 283);

WHEREAS, the CASA further requires the following: “The City, APD, and the agency shall develop protocols to ensure the confidentiality of internal investigative files and to ensure that materials protected from disclosure remain within the custody and control of APD at all times” (CASA, ¶ 284);

WHEREAS, the attempts by APD to redact officers’ faces, name tags, and oral references to officers’ names from on-body recording device recordings has been excessively burdensome and time consuming; and

WHEREAS, the City and the APOA have agreed to supplement the CBA currently in effect, and the Parties have agreed to enter into this inter-departmental agreement to further the goals of compliance with the CBA, Ordinance, and CASA, and to ensure protection of officer identities while also ensuring the prompt required sharing of records and materials between APD and the CPOA and Board;

NOW, THEREFORE, the parties agree to the following:

I. TERM OF MOU.

The Parties agree that, so long as all Parties sign this MOU, the “effective date” is the date that the last party executes this MOU and shall remain in full force until February 1, 2023, but may be extended or incorporated into a successor CBA.

II. RELEASE OF INFORMATION BY THE CITY TO THE CPOA AND BOARD.

- A. Prior to the Force Review Board (“FRB”), APD will provide to the CPOA Executive Director all documents provided to the FRB, including investigative recordings that contain compelled statements . The Executive Director shall not submit any documents

or evidence containing compelled statements to the Board; instead, the Board shall comply with the provisions of § 9-4-1-4(C)(3)(d) to review these recordings.

- B. After the FRB completes its review of any serious use of force or officer-involved shooting, APD shall provide the following information to the CPOA Executive Director, who shall release such information to the Board:
1. All written documents and evidence provided to the FRB, excluding administrative interview(s) of the officer(s) under investigation.
 - a. All documents will be redacted by APD in accordance with *Garrity* and the Ordinance, § 9-4-1-4(C)(3)(b) and (d), prior to being provided to the Executive Director for production to the Board; and
 2. On-Body Recording Device ("OBRD") recordings, security recordings, other audio-visual recordings, and audio recordings that do not contain compelled statements.
 - a. Officer names, nametags, and faces will not be redacted from these videos unless the officers are working under cover.

III. CONFIDENTIALITY OF INFORMATION.

- A. The Parties agree that Section 20.1.10 of the CBA, which states that information from a compelled statement shall not be made public by the City, applies to the CPOA and Board, as agencies of the City.
- B. The Parties agree each of them shall maintain the confidentiality of the identities of all officers as required by the CBA, Ordinance, and CASA, to the extent allowed by law. Accordingly, the CPOA and Board shall not:
1. Release any records containing officer identities;
 - i. Any access to information provided to the CPOA and Board as set forth in this MOU must be obtained through a public records request. If the CPOA or Board receives a request, they will forward said request to the City Clerk's Office.
 - ii. Nothing in this paragraph shall inhibit the City Clerk's office from complying with the provisions of the Inspection of Public Records Act, N.M.S.A. 1978, §§ 14-2-1 to 14-2-12;
 2. Intentionally identify any officer during a public meeting;
 3. Play, display, quote from, cite from, or otherwise discuss any recording, document or evidence in a public meeting if doing so would show any officer's face or disclose any officer's identity; or
 4. Download, record, copy, or retain access to OBRD videos used to conduct reviews of serious uses of force or officer-involved shootings.

IV. NO FURTHER AGREEMENT.

This MOU incorporates all the agreements, covenants, and understandings between the Parties hereto concerning the matters addressed in this agreement, and all such agreements, covenants and understandings have been merged into this MOU. This MOU expresses the entire MOU and understanding between the parties on the matters described above. No prior agreement or understanding, verbal or otherwise, of the Parties or their agents shall be valid or enforceable unless embodied in this MOU.

V. SEVERABILITY.

In case any one or more of the provisions contained in this MOU or any application thereof shall be invalid, illegal, or unenforceable in any respect, the validity, legality, and enforceability of the remaining provisions contained herein and any other application thereof shall not in any way be affected or impaired thereby.

VI. Review, Revision, or Termination of MOU

This MOU shall remain in effect unless and until it is terminated by the Parties. Any request to modify or revise this agreement must be submitted in writing and any modification or revision must be agreed to in writing by the Parties' representatives. Any Party may terminate this agreement by written notification submitted to all participating Parties.

WITNESS WHEREOF, the Parties have executed this agreement which becomes effective as of the date of approval of the final signatory.

CITY OF ALBUQUERQUE

CIVILIAN POLICE OVERSIGHT AGENCY

Civilian Police Oversight Agency Board

**Re: CPOA Board Issues for Consideration in Anticipation of December 16, 2021
Public Hearing**

Dear Judge Browning:

We are writing on behalf of the Civilian Police Oversight Agency (CPOA) Board. Thank you for this opportunity to address some significant issues that continue to pose long-term concerns (i.e. unfilled CPOA Board positions and deteriorating Board morale), and challenges the CPOA Board is currently experiencing regarding accessing specialized training and APD's Serious Use of Force (SUOF) materials. All of these issues are being evaluated by the Monitor, and, with regard to the Board composition issues, have been ongoing concerns for years.

CPOA BOARD MORALE

The CPOA Board's morale is at a recent low. Particularly concerning are the statements and efforts of the City. The City has made inaccurate public statements, including statements by both the City Attorney and City Councilors, to the effect that the CPOA Board holds the lives and livelihoods of officers in their hands. These claims are ill-informed and undermine an already weak oversight process. Further, the CPOA Board has no power to affect officer discipline or APD policy beyond advisory recommendations.

The CPOA Board's perception is that the CASA parties' actions have undermined its independence by offering criticism of the Board, its members, and its operations. For example, despite providing evidence to the contrary, the City Attorney produced and presented a report on CPOA Board member training to the City Council that was inconsistent with records provided by the CPOA Board. In IMR-14, the Monitor has questioned the authenticity of CPOA Board Members' verification of having completed required training when approximate dates were provided. Given that in some cases it had been over 2 years since Board members completed the initial training and the records maintained by CPOA of these trainings were incomplete, this seems to be a form over substance position.

The CPOA Board recognizes and embraces its role in the reform process. It acknowledges its shortcomings and has implemented meaningful solutions to address real issues with its performance and compliance. The CPOA Board recognizes that it must be in a position to function as the monitor when the CASA is complete and it is committed to achieving this goal. It implores those involved in the process to work with it to ensure that the CPOA Board can assume this role when the time comes.

TIMELY ACCESS TO SUOF MATERIALS

The CPOA Board reviews all SUOF investigations. CASA, ¶ 280; *see also generally* Albuquerque Ordinance, § 9-4-1-4(C). Both the CASA and Albuquerque Ordinance specifically require that the CPOA Board be provided "access to all APD documents, reports, and other materials that are reasonably necessary for the agency to perform thorough, independent investigations of civilian complaints and reviews of serious uses of force and officer-involved shootings." CASA, ¶ 280; *see also* Albuquerque Ordinance, § 9-4-1-4(C)(3) ("APD shall provide Board members, the Director, and CPOA staff with reasonable access to APD premises, files, documents, reports and other materials that are reasonably necessary for the agency to perform thorough, independent investigations of civilian complaints and reviews of serious uses of force and officer-involved shootings.").

The CPOA Board is pleased to report that the technology issues that originally arose with CPOA Board review of FRB presentations and SUOF investigations have largely been remedied. Still, the APOA has demanded that the City redact the OBRD videos—which takes a tremendous amount of APD time and resources. As they were during IMR-13, the City, APOA, and CPOA Board are still in the process of working towards acceptable solutions for SUOF cases. If these discussions are not successful, this is an issue that will warrant increased focus moving forward.

CPOA/CPOA BOARD STAFFING

The City's oversight ordinance states the CPOA Board shall have nine (9) volunteer members from a broad cross-section of the community (Albuquerque Ordinance 9-4-1-5(A)). It is the City Council's responsibility to appoint Board members (Albuquerque Ordinance, § 9-4-1-5(C)). For the better parts of 2018, 2019, 2020, and through March 2021, the Board had been operating with only six (6) members. While the CPOA Board was fully staffed for a short period of time during IMR-14, there are currently four unfilled positions and the selection process is not transparent. The appointment process for CPOA Board members needs to be clearly defined for the benefit of the public and for prospective CPOA Board members. Transparency should be of paramount importance. This Board requires a full complement to operate as effectively and efficiently as possible.

The CPOA also has significant staffing needs that need to be timely addressed—i.e. investigator positions, policy analyst, community engagement specialist. While it is the CPOA Board's understanding that the CPOA has diligently worked to fill these positions, it is facing delay and other procedural issues with City HR processes. Thus,

while the Monitor has expressed the need to fill these positions during IMR-15, it is unlikely that this will occur. The CPOA Board is hopeful that the City will take steps to remedy these delays so that the positions are filled during the IMR-16 period.

CPOA BOARD TRAINING

It is clear from IMR-14 that the CPOA Board training reporting process was lacking, and that training deficiencies cannot continue to occur. To ensure this is not an issue moving forward, the Board has implemented new training processes and procedures, along with a renewed focus on trying to streamline required trainings through ongoing Ordinance amendments. The CPOA Board is hopeful that these changes ensure this issue is remedied.

Again, the CPOA Board appreciates the opportunity to address the Court and will be available to address any questions or concerns at the upcoming status conference.

Sincerely,

32. SOP 3-41 Recommendation Letter to the Chief

CIVILIAN POLICE OVERSIGHT AGENCY

Civilian Police Oversight Agency Board

Chantal M. Galloway, Chair *Jesse Crawford* *Patricia French*

Dr. William J. Kass *Eric Nixon*

Diane McDermott, Interim Executive Director

December 9, 2021

Harold Medina, Chief of Police
Albuquerque Police Department
400 Roma NW
Albuquerque, NM 87102

Recommendation: SOP 3-41 *Complaints Involving Department Personnel*

Dear Chief Medina:

The Civilian Police Oversight Agency Board (CPOAB) is recommending several changes to SOP 3-41 which will allow the Civilian Police Oversight Agency (CPOA) to refer minor civilian police complaints (class sanction 6 or 7), at the discretion of the Executive Director, to the respective Area Command for investigation. This would only include first and second offense violations of class 6 and 7 that involves minimum, presumptive and maximum discipline to not include suspension. Minor policy violations involve conduct, that if sustained, would result in discipline or corrective action less severe than a suspension based on the Chart of Sanctions identified in SOP 3-46 Discipline System.

The CPOA receives significant number of complaints that even if investigated, will lead to minor discipline (verbal or written reprimand). The current CPOA investigative team is short staffed that does not allow a timely investigation for all complaints received. This practice will allow the CPOA to focus on more severe allegations and will help alleviate the concerns regarding investigative timelines. The timeliness for completing complaint investigations has been criticized by the Independent Monitoring Team in the recent monitoring reports. Also, this will benefit APD since the monitor criticized several investigations conducted by the area command as 'deficient' in the most recent report. The final review of the civilian complaint investigations by area command will be done by the CPOA, which in turn will allow for another set of eyes to review the final work product of the area command investigation. The CPOA Board hereby recommend changes in SOP 3-41 that will allow the CPOA to have the same criteria for assignment of civilian complaints as done by the Internal Affairs Professional Standards. Recommended language and placement of the language in SOP 3-41 will include the following;

In section 3-41-5 (Civilian Police Complaints), to add C. "Assignment of Civilian Police Complaints (CPC)" to include;

1. All civilian complaints shall be investigated by a CPOA Investigator, an IA Investigator, a designated supervisor, or an external contract investigator approved by the City of Albuquerque purchasing guidelines.

2. The CPOA has the discretion to refer complaints involving minor policy violations to a commander/division head for investigation and recommended findings.

a- A complaint requiring the interviews of multiple witnesses and Department personnel from various assignments or extensive documentation retrieval shall be investigated by the CPOA.

b- If the subject employee's record demonstrates that a sustained violation could result in suspension, the CPOA shall investigate the complaint.

c- Rules regarding supervisory investigations of minor policy violations include:

i. A supervisor shall not investigate the complaint if the supervisor:

1- was involved in the incident, including use of force incidents;

2- was involved in the actions that are the subject of the complaint;

3- authorized the actions that are the subject of the complaint; or

4- is a witness to the incident that is the subject of the complaint.

ii. If a supervisor has been assigned an investigation and falls under one of these rules, the supervisor shall notify the CPOA in order to have the investigation reassigned.

d- Review and final approval of the investigative findings and recommendations of the appropriate discipline shall be completed by the CPOA Director and approved by the CPOAB.

Thank you for your consideration. We look forward to your response to our recommendations above, in compliance with your obligations under §9-4-1-4(C) (5) (c) of the Civilian Police Oversight Agency Ordinance.

Sincerely,

The Civilian Police Oversight Agency Board by
