Albuquerque Police Department Monthly Use of Force Report October 2025

Prepared by:

**Data Analytics Unit

Note: This report presents preliminary information from departmental data. All figures in this report are subject to change as additional information becomes available.

Total Use of Force Events - October 2025

involving Albuquerque Police Department (APD) personnel. APD is committed to using force to achieve lawful objectives in instances where use of force is objectively reasonable, necessary, and minimal, given the totality of circumstances (see SOP 2-52: Use of Force – General). When force is not consistent with these standards of conduct (SOP 2-52: Use of Force- General), APD takes corrective actions which may include discipline.

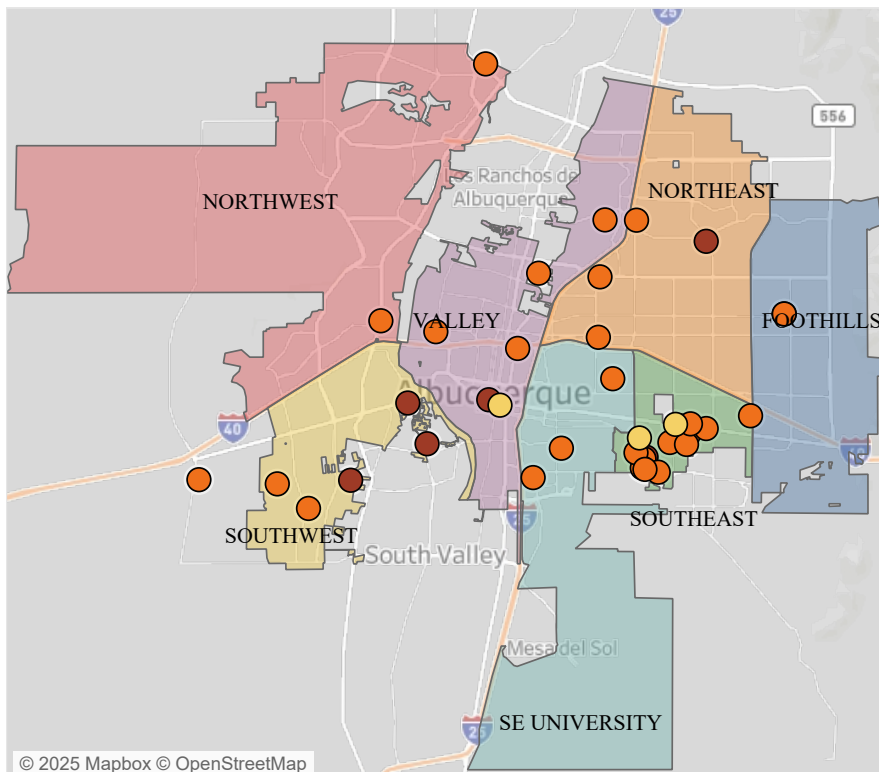

APD's jurisdiction includes the City of Albuquerque which is divided into six Area Commands. In the map below, Southeast Area Command is split into "SE University" and "Southeast". University Area Command is combined with Southeast Area Command in this report until updates to department databases are complete.

Force is categorized into three levels based on APD policy. For more information on APD's Standard Operating Procedures, see: <https://public.powerdms.com/COA>. As of September 20, 2025, APD amended its use of force SOPs to specify that a show of force is not considered a use of force. Shows of force will be tracked as part of uniform incident reports and supervisors will review the incidents to ensure it was reasonable, necessary, and minimal in the circumstances. Shows of force after this date will be reported separate from uses of force.

Use of Force Benchmarked Against Calls For Service and Arrests - October 2025

Officers are required to only use force when necessary to achieve a lawful objective. When officers have more contacts with individuals, it is likely that there will be more uses of force. To control for factors that may contribute to higher or lower uses of force in a given month, this page shows the number of uses of force relative to the number of calls for service and the number of arrests made. For a detailed discussion of the method used on this page, see APD's 2024 Annual Use of Force Report. **Total force counts on this page may be higher than the previous page if a case involves more than one use of force in different Area Commands.**

Calls for Service

Total Calls for Service for Area Commands

Excludes calls for service where contact with an individual was unlikely, see Annual Use of Force report for full methodology.

APD records information about individuals involved in use of force incidents. Citizen information is based on what the individual reported or, if not reported by the individual, on the investigators observations on scene and through review of body-worn camera video. Information may change as investigations progress.

Cases Where Shows of Force Are The Only Method Applied by Month

As of September 20, 2025, shows of force (i.e. pointing a firearm, ECW, or 40mm launcher) at a person are no longer uses of force according to APD policy. Due to this subset of cases no longer being counted in force totals, cases where there is a show of force only are included below to for improved comparison of force cases over time.

Completed Force Investigations - October 2025

APD has two processes for force investigations based on the level of force. Level 1 force is investigated by the Level 1 force investigation unit. The Level 1 unit is required to complete investigations within 24 days (if all extensions are requested and approved).

Level 2 and Level 3 force are investigated by the Internal Affairs Force Division (IAFD). IAFD also investigates any Level 1 force where a Lieutenant or above was involved or Level 1 force if another person at the same event had a higher level of force used. These investigations must be completed within 90-days. All force investigations are investigated to determine whether the actions of the officer(s) involved were consistent with department policy. **IAFD had three Level 2 and two Level 3 investigations with an approved 120-day extension that were completed in more than 90-days.**

All Force Cases

APD strives to only use force that is objectively reasonable, necessary to achieve lawful objectives, and proportional to the resistance from the individual involved, and minimal based on the totality of the circumstances. APD uses a preponderance of evidence standard to determine whether the force met policy requirements. After investigation, force is deemed in policy when every force technique is used correctly and was found to be reasonable, necessary, proportional, and minimal as defined in SOP 2-52: Use of Force - General. If any officer's force techniques used were determined to be out of policy, the entire force case or interaction is considered to be out of policy.

CPOA Semi-Annual Report

January – June, 2025

CPOA Internal Changes and Complaint Volume

The CPOA implemented its new Civilian Complaint Request (CCR) process. This refined intake and triage process has resulted in a lower rate of administratively closed CPCs and higher rates of sustained findings. Additionally, the CPOA hired three more investigators and implemented new supervisory and lead investigatory positions.

Investigation Details

In these 121 completed complaints, the CPOA investigated 148 individual APD employees on behalf of 116 identifiable complainants. Of those employees, 73 were found to have violated APD policy.

Findings Breakdown

In total, the CPOA sustained 107 out of 268 alleged policy violations. APD disagreed with the sustained findings for 12 alleged policy violations in 7 CPCs.

APD Use of Force

During this period, APD had 355 total use-of-force interactions with completed investigations: 97 at Level 1, 200 at Level 2, and 58 at Level 3. 8 interactions, or 2.3%, were found to be out of policy.

Compared to the previous period, total use of force interactions dropped from 375 to 355, and Level 3 and out-of-policy incidents both decreased.

The CPOAB reviewed 21 Serious Use of Force (10), Officer-Involved Shooting (10), and In-Custody Death (1) incidents.

Policy Review and Recommendations: The CPOA, CPOAB, and CPCs made *109* policy recommendations on behalf of *44* policies at 22 PPRB meetings and during *21* 35-day review processes. APD agreed with 59.6% of policy recommendations, and 65.2% were made at PPRB.

Public Outreach: The Community Policing Councils continued their ongoing community engagement efforts during this reporting period, hosting and participating in a wide range of meetings, presentations, and public events. These efforts culminated in significant collaboration with City leadership, APD representatives, and community stakeholders across all seven area councils.

Mediation: The CPOA relaunched its mediation program in May 2025, in accordance with the City's Oversight Ordinance, which designates mediation as the preferred method of resolving civilian police complaints. The program provides an impartial forum for community members and APD officers to engage in structured dialogue, promoting understanding and improving community-police relations.

Eligible cases include complaints involving communication issues, rudeness, or minor administrative concerns (typically lower-level violations). Allegations involving the use of force, bias, or injury are excluded. Sessions are typically conducted within 30 days of referral and include pre-mediation consultations, a 1-2-hour joint session, and optional follow-up.

CASA Termination: On May 12, 2025, the joint motion by the U.S. Department of Justice and the City of Albuquerque to terminate the Court-Approved Settlement Agreement (CASA) was granted, formally dismissing the lawsuit and ending more than a decade of DOJ oversight of the APD. The motion asserted that APD had achieved “full and effective compliance” with the agreement’s material requirements, based on sustained improvements in use of force, internal investigations, supervision, and related outcome measures, making continued federal monitoring unnecessary.

Policy Recommendations and Considerations

SOP 2-83 (Formerly 2-11) Hospital Procedures and Rules

It is the policy of the Department to ensure that medical care is provided to in-custody individuals and intoxicated persons when such care is needed based on approved medical and legal procedures.

- A CPOA investigator had two considerations for this policy. One concerns guard duty supervision when individuals use the restroom in a hospital, and the other concerns documenting the tracking of guard duty.
 - (1) The CPOA received a complaint about how a female in-custody individual felt uncomfortable that a male APD officer was supervising her use of the restroom while performing guard duty. The officer was not found to have acted out of policy or inappropriately, but policy language could prevent future complaints. In PPRB, APD denied the recommended language: "When feasible, sworn personnel of the same sex as the in-custody individual shall supervise the individual during restroom use, medical treatment, or other sensitive situations." The APD author stated this was simply unfeasible because it is too difficult to coordinate same-sex guard duty. Currently, there is no SOP language for the exact procedures APD officers must follow when on guard duty when the in-custody individual must use the restroom at a hospital or medical facility.

Discussion: The CPOA Analyst will refine the language for further consideration by the Board. The language should help standardize and guide officer conduct in such situations.

Recommendation 2-83-5-D-2: Add a new subsection as

2. Sworn personnel shall not leave an in-custody individual unattended at a hospital or medical facility.
 - a. When feasible, sworn personnel shall maintain line-of-sight supervision of the in-custody individual.
 1. When an in-custody individual requires a restroom break at a hospital or medical facility, sworn personnel shall remain at the restroom doorway, maintain access to line-of-sight supervision, and may look away from the in-custody individual when they are unclothed, unless there is an articulable safety or security concern to justify consistently observing the in-custody individual.

- (2) The CPOA received a complaint about how a family member was in custody of APD at the hospital but when they reached out to APD they could not locate him. The individual had been transferred to a different hospital but the transfer was not documented/tracked in a manner that was easily discoverable and retrievable in APD systems. The CPOA investigator watched relevant OBRD to determine the individual's location. In PPRB, the investigator raised this concern and the APD author agreed there was an issue but did not suggest a means of curing it.

2-83-4-D-6 Recommendation: Add a new subsection to 2-83-4-D Hospital Guard Duty Assignments

Whoever is responsible for guard duty shall add the name of the in-custody individual as a "Subject" in "Person Details" of the CAD.

Discussion: Move to Board. Language of the recommendation may change to align with system considerations.

SOP 2-86 Auto Theft and Motor Vehicle Theft-Related Investigations

It is the policy of the Department for Department personnel to investigate auto theft and motor vehicle theft-related crimes, to complete the initial Uniform Incident Report, and to conduct follow-up investigations unless otherwise indicated.

- This SOP may be an appropriate place for language that restricts PSAs from unilaterally confiscating license plates.
 - Proposed and denied in PPRB: Recommended adding a new sub-section at the end of the SOP in 2-86-4-D Recovering Stolen License Plates to ensure license plate confiscation is conducted by sworn personnel. In PPRB, the APD author disagreed with the recommendation for three apparent reasons: (1) PSAs should have the authority to confiscate stolen plates because they are not legal property, (2) while understanding of safety concerns for PSAs, this is outweighed by the concern of confiscating stolen plates, (3) if the recommendation is implemented at all, it would be more appropriate for the PSA specific policy.

2-86-4-D-3 Recommendation: Add a new subsection to 2-86-4-D Recovering Stolen License Plates

3. Police Service Aides (PSAs) shall not recover a license plate that has been reported stolen. PSAs shall immediately notify or request sworn Department personnel to respond and take appropriate action.

Discussion: Move for Board consideration. Highlight in the recommendation that the primary purpose is in the interest of PSA safety.

SOP 3-31 Physical Fitness Assessment

It is the policy of the Department to promote health and well-being among all Department personnel. The physical fitness status of sworn personnel is vital to job task performance and the well-being of the public. Because of this, it is also the policy of the Department to recognize the need for minimum physical fitness standards and to maintain a Health and Wellness Improvement Program for all sworn personnel to ensure that they meet these standards.

- The CPOA received comments from a member of a CPC on this SOP: “With regard to the physical fitness assessment, I don't see the criteria specified to pass or exceed the established fitness criteria. Nor do I see how often the assessment is to be given; quarterly, bi-annually, etc.”
 - It is accurate that the SOP does not specify the criteria for passing the assessment, nor exactly how often it is given (although it implies at least yearly).
 - 3-31-4-A-1-a: Scoring methods will be provided before testing
 - 3-31-4-B-2-b-i: Assessments are “scheduled with yearly biennium training” and “offered during the year at a frequency determined by the Health & Wellness Coordinator and approved by the Academy Division Commander”
 - 3-31-4-B-3: Flexible standards – “The Health and Wellness Coordinator may change the type of components assessed or the scoring methods used for the Physical Fitness Assessment in an effort to maintain up-to-date procedures and standards.”

APD Responses to Policy Recommendations

SOP 2-8 Use of On-Body Recording Devices (OBRD)

The CPOAB had two recommendations for SOP 2-8 Use of On-Body Recording Devices.

- (1) The CPOAB disagrees with the revision to 2-8-4-B-1-a that includes the option to place OBRDs at the belt line for uniformed personnel. The CPOAB believes that placing OBRDs at the belt line is not the most optimal placement and could lead to a decrease public transparency and increase of potential liability for the department. This is because, in the past, they have viewed APD OBRD footage of UOF incidents from the belt line and found some of the recordings to have an inadequate perspective, making it difficult or impossible to have a clear and complete view of the incident or the circumstances that led to it. The CPOAB also believes that the risks of inadvertent covering or knock-offs of OBRDs exists whether the OBRD is at the chest or belt line, so the placement change to include the belt line option may not fix that issue. To ensure the most optimal placement, the CPOAB recommends 2-8-4-B-1-a remain as it was, listing chest level as the only placement location for uniformed personnel.

- **APD Response:** Implementing compromise “optimal” language.

Regarding 2-8-4-B-1-a, the policy to allow camera placement at the beltline and above. The Department has carefully considered the request to modify this policy. It is recognized that there are both benefits and drawbacks to placing the On-Body Recording Device (OBRD) at various locations on an officer’s body. The intent of department policy is to ensure the best possible perspective is captured during incidents, providing clear and reliable evidence. However, achieving this can be challenging depending on the specific circumstances and activity involved in a given situation. Examples of issues that have arisen are; weapon systems can inadvertently turn the OBRD off in certain situations—often during incidents where recordings are most critical, such as police shootings or other uses of force. Second, OBRDs have been falling off during a foot chase or being pulled off by resisting subjects during physical encounters. These are precisely the types of situations where video documentation is most valuable, both for the department in assessing a use of force and for the City in the event of a tort claim.

After review, it is agreed that there is no single camera placement that produces optimal results in all situations. To accommodate the wide spectrum of operational conditions faced by officers, the policy has been modified to allow limited flexibility in camera placement. This will enable officers to adjust positioning as needed to optimize evidence collection based on their training, experience, and the nature of their duties.

The factors influencing OBRD placement are numerous and will vary by individual. Therefore, the Department has determined that allowing some discretion, within defined parameters, is in the best interest of both quality evidence gathering and practicality for the user.

Considering these factors, Department leadership has approved the following policy changes:

B. Location of OBRD

1. Uniformed personnel, Police Service Aides (PSA), Transit Safety Section (TSS), Crime Scene Specialists (CSS), and Prisoner Transport Unit (PTU) personnel shall wear a Department-issued OBRD while on duty.

a. The OBRD shall be worn forward-facing at the beltline or above, in a position intended to maximize the OBRD's ability to record. Optimal placement is recommended at chest level.

(2) The CPOA recommends that 2-8-5-C-10-a account for OBRD recording of searches with a warrant. For warrant vehicle searches, the policy refers to SOPs 1-87 Scientific Evidence Division and 2-70 Execution of Search Warrants; however, SOP 1-87 does not impose OBRD requirements, and SOP 2-70 refers back to SOP 2-8, creating a circular reference that does not establish any mandate to record searches of vehicles with a warrant. Vehicle searches with warrants should have an explicit mandate to be captured on OBRD to ensure transparency and provide a clear investigatory and evidentiary record that protects both officers and the public from allegations of misconduct or improper searches.

- **APD Response:** Agrees

Regarding 2-8-5-C-10-a (Vehicle searches), the policy for use of OBRD during vehicle searches with or without a warrant. This policy did have a circular reference that did not provide distinct guidance as intended. To make this clear the following changes have been made:

10. Searches;

a. Vehicle searches performed with or without a warrant from the time the vehicle is entered until the search is concluded. Service of search warrants of vehicles will be consistent with SOP Scientific Evidence Division and SOP Execution of Search Warrants.

N/A

2-85-3 Definitions

A. Certificate for Evaluation (CforE)

A document, completed by a qualified, licensed mental health professional, which certifies that a person, as a result of a mental disorder, presents a likelihood of harming themselves or others, and that immediate detention is necessary to prevent such harm, which may include grave passive neglect. All Certificates for Evaluation will

be considered expired seventy-two (72) hours after they are issued, unless explicitly stated otherwise.

B. Qualified Mental Health Professional

A physician, psychologist, licensed independent social worker, licensed professional clinical mental health counselor, marriage and family therapist, certified nurse practitioner, or a clinical nurse specialist with a specialty in mental health who is qualified to work with persons having behavioral health crises or with behavioral health disorders.

This copy may be helpful in gaining the compliance of the person for whom the Certificate was issued.
- C. Sworn personnel who are provided with a Certificate for Evaluation shall attempt to call the facility or qualified professional who issued the Certificate. The purpose of this call is to gain more information about the person for whom the Certificate was issued. This could include history, likelihood of being armed, or any other information that would be helpful to bring the person to a provider safely. If contact with the issuer cannot be made, the officer shall still attempt to serve the Certificate for Evaluation. - D. Sworn personnel shall make reasonable efforts to detain any persons for whom Certificate for Evaluations are issued; however, these Certificates shall not be used as a basis for forcing entry into any structure in order to take persons into custody in accordance with SOP Hostage Situations, Barricaded Individuals, and Tactical Threat Assessments.
- E. Sworn personnel who have detained an individual for a Certificate for Evaluation shall immediately take the individual to an evaluation facility. Most Certificates for Evaluation include the treatment location to which the issuer would like the individual transported. Sworn personnel should utilize the listed location, and if no destination is indicated, sworn personnel should proceed to the nearest psychiatric emergency room or, if known, the location where the individual has received treatment in the past.
- F. Whenever a person is transported to a mental health facility by an officer or by another transporting entity, under the authority of a Certificate for Evaluation, a Uniform Incident Report shall be prepared by the primary officer documenting the transport, in addition to the required Crisis Intervention Team (CIT) Contact Sheet.
 - 1. When completing the CIT Contact Sheet for an incident involving a Certificate for Evaluation where contact with the individual was made, the officer shall check the box on the contact sheet indicating that a Certificate for Evaluation was either written or the original reason for the call.
