

FISHES HAVE FUNNY NAMES

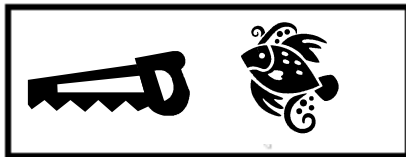

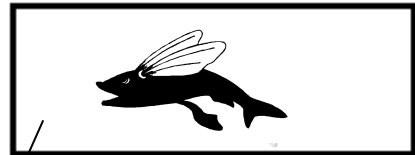

Many FISHES HAVE FUNNY NAMES, but their names are useful because they often help to describe what the fish look like or what the fish do. For example, the tonguefish is shaped like a tongue, and the drum or croaker is named for the drumming or croaking sound it makes.

FILL IN THE BLANKS — Using the drawings on the left, guess the name of the fish and write the name on the line provided. Then match the name of the fish with its real picture on the right by drawing a line from the name to the correct picture. One is done for you.

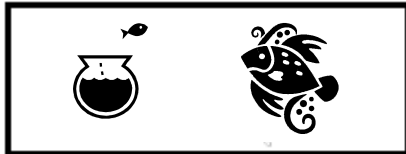

1. _____

A.

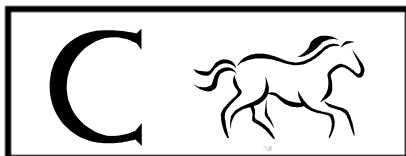

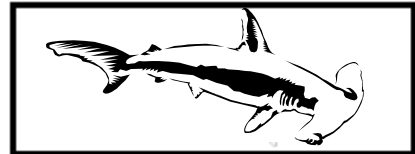

2. _____

B.

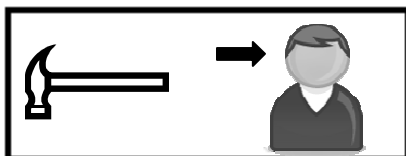

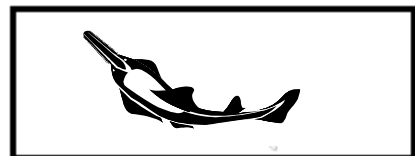

3. flying fish

C.

4. _____

D.

5. _____

E.
