Hi Jeff,

I'm forwarding your comments on the proposed reg changes to the folks at the ABQ Air Quality Division that can respond and/or consider incorporating them.

Thx,

Hi Vern,
I reviewed the drafts and have two comments. The first is that the section for GHG (20.11.47.15.C) is missing the units (lbs per year). The second is that GHG should be simply included as an additional emission in the existing emissions inventory report. Requiring a separate report for a single emission doesn't make sense and would waste time and paper. Language could be added so that those facilities that aren't required to report the GHG could simply leave them out or submit "N/A" in that cell of the report.

Regards,
Jeff

Hi Jeff,
Friendly FYI since you have been doing GHG emission reports for UNM.
