

Receiving Temperature Log

Record the temperature and any corrective actions taken during delivery of food products. Return any products where delivery is not received within 4 hours from when temperature was taken prior to leaving facility where frozen food is above 32°F and is no longer frozen, refrigerated items are delivered above 41°F, or hot foods are below 135°F.

Date	Time	Vendor or Source	Product Name	Measured Temp.	Corrective Action Taken	Initials
