CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

The City made four substantial amendments to its 2016 Action Plan. It allocated money to the renovation of the Dennis Chavez Community Center, it moved funding for the Senior Retrofit program from 2016 to 2017, it deleted one of the subrecipients, Community Dental Services, and it allocated funds to the developer of the Casa Grande project.

In the 2013-2017 Consolidated Plan, the City made a major shift in its strategic plan and made a commitment to the residents of Albuquerque to deal with a growing crisis in homelessness. The City pledged its own resources, as well as Community Development Block Grant (CDBG), Home Investment Partnerships Program (HOME), Emergency Solutions Grant (ESG) and Continuum of Care (CoC) funds to increase services for at-risk populations and increase affordable housing opportunities for our most vulnerable populations. It has met or exceeded its goals in these areas. The Winter Shelter operates from mid-November to mid-March and provides overnight shelter during the coldest time of the year. It serves an average of 250 individuals per night during its 4 months of operation. The Rapid Rehousing program provides transitional housing to the near homeless while they await permanent housing. For those facing immediate eviction from their homes, motel vouchers are provided so they are not homeless. The City has become a national leader in its Housing First program. In 2015, the voters in Albuquerque approved an increase in the gross receipts tax to provide services to the mentally ill, particularly the homeless mentally ill. The program will concentrate on prevention services, supportive services, crisis intervention and housing; the Housing First program will be used as a model for housing the mentally ill. The City Homeowner Rehabilitation Program continues to help to revitalize neighborhoods by rehabilitating houses and bringing them up to code and reversing neighborhood decay. During 2016, construction of new rental housing was completed on two multi-family housing projects that not only will provide a total of 78 new affordable units, but will also improve the neighborhoods in which they are located. The units were not completed in IDIS by the end of 2016 but they will be fully leased in 2017. Public Service funds provided meals to seniors who may not have the necessary funding or capacity to prepare nutritious meals and by eating meals in a congregate setting, they avoid the social isolation that seniors often face that is detrimental to their well being. Public Services funds provided dental care to those facing dental emergencies with nowhere to go for treatment. Homeless families were provided with child care services, allowing parent(s) the opportunity to try to end the cycle of homelessness by receiving training, looking for employment or receiving services. Some goals identified in the Consolidated Plan, such as home owner rehabilitation mentioned above, meet more than one goal. The City Homeowner Rehabilitation Program helps the City meets its goal of sustainable housing but also helps to revitalize neighborhoods by improving the looks of the
neighbourhood; however, the actual number is only reported in one goal.

**Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)**

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee’s program year goals.

Table 1 - Accomplishments – Program Year & Strategic Plan to Date
Assess how the jurisdiction’s use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

The public facilities project is the renovation of a community center in one of Albuquerque’s oldest neighborhoods. It will help revitalize the neighborhood and provide enhanced services to the residents of a low income area. Previously funded public facility projects now have numbers to report and the improvements to St. Martin's Hospitality Center, First Nation's Wellness and Healing Center and the Roadrunner Food Bank all help alleviate food insecurity for the City's most vulnerable residents. The Public Services funds were targeted to the most vulnerable populations, the very low income and homeless populations or those facing homelessness because of eviction notices. The public services activities for dental services, emergency motel vouchers, senior meals program, eviction prevention and child care services all addressed the priority of increased services for at risk populations.
CR-10 - Racial and Ethnic composition of families assisted

Table 2 – Table of assistance to racial and ethnic populations by source of funds

Narrative

Albuquerque has a population that is 4.6 percent Native American, 3.3 percent African American, 2.6 percent Asian, 46.7 percent Hispanic and 42.1 percent White. CDBG numbers do not reflect the funds spent for public facilities and mostly reflect programs funded under Public Services which primarily were target to Albuquerque's most vulnerable, the homeless and near homeless. CDBG funds served 9 percent Native American; 2 percent African American, .01 percent Asian, 69 percent Hispanic and 20 percent White. The HOME numbers only reflect TBRA numbers because no new HOME funded construction was completed and closed in 2016. Individuals offered vouchers through the TRBA program included 25 percent White, 17 percent Black, 3 percent Asian, 13 percent Native American, 2 percent Native Hawaiian and 40 percent Hispanic. The programs funded through ESG served 2661 individuals but only 2321 are reflected in the above categories as 340 people either refused to select a racial or ethnic category or stated a category that is not listed in the above table. ESG funds served 34.6 percent White, 10.8 percent Black or African American, .56 percent Asian, 14.7 percent American Indian or American Native, 1.1 percent Native Hawaiian or Other Pacific Islander, and 44 percent Hispanic. All programs served a disproportionate number of African Americans and Native Americans.

Narrative

In 2016, the City utilized $2,416,000 in HOME funds for the CUATRO (LIHTC), a 56-unit housing development for seniors with 11 HOME units and 44 affordable units in the Wells Park/north Downtown area. Cuatro was completed in 2016 but not closed in IDIS.

In 2016, the City utilized $1,486,482 in HOME funds for Madera Crossing, a 57-unit, mixed-income, housing development, which is the second phase of the Sawmill Village revitalization project. The development was completed in 2016 but not closed in IDIS.

In 2015, the City contributed $2,600,000 in local funds towards Casa Feliz (LIHTC), an 89-unit affordable housing development, which is the second phase of the Trumbull Plaza Feliz revitalization project. The project will be completed in 2017.

Narrative

In its 2016 Action Plan the City did not specify planned percentages of funds to be spent in the targeted neighborhoods. The majority of the funds are allocated to city-wide programs and the City did not specifically concentrate funds in the Alta Monte, Barelas, Crest, Singing Arrow, Santa Barbara Martineztown, or the West Mesa area as there were no Housing or Public Facilities projects proposed by agencies in those areas in 2016. There were two HOME projects that were initiated in 2015 and construction was completed in 2016 but neither project was closed out in IDIS.

In 2016, the City utilized HOME funds for the CUATRO (LIHTC), a 56-unit, affordable housing development for seniors in the Wells Park/north Downtown area. CUATRO was completed in 2016 but the project will not be closed out in IDIS until 2017. The City utilized CDBG funds towards the expansion of a community center which is located in the South Broadway area. Originally the expansion was not planned during the years covering the Consolidated Plan but construction was moved up when other funds became available. The City contributed local funds towards the Imperial Building (LIHTC), a 74-unit, mixed income development in downtown Albuquerque that was completed in 2016. The City utilized HOME funds for Madera Crossing, a 57-unit, mixed-income, housing development, which is the second phase of the Sawmill Village revitalization project. The development was completed in 2016 but not closed in IDIS.
Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

The City appropriates $347,265 in general fund dollars to match the ESG Grant. In addition to the CoC money it receives, the City appropriates $5,276,280 in general fund money to provide services to at risk populations. The City appropriates a $469,606 cash match to the HOME funds in addition to using Workforce Housing and other local funds. The City spent $2,800,000 in other local funds for the Casa Feliz affordable housing project. The Workforce Housing ordinance requires leveraging at the ratio of 4:1 but the ratio often exceeds that. The $2,416,000 in HOME Funds for the Cuatro project was leveraged by another $9,755,350 dollars from other sources including LIHTC. The $4,149,288 in the Madera Crossing project was leveraged by another $11,159,338 in other funds. The land for the Madera Crossing project is part of a 27 acre parcel that was acquired by the City decades ago and was transferred into the Sawmill Community Land Trust. Another affordable housing project, the Imperial building which received LIHTC funds and $3,375,000 in Workforce Housing funds was on land donated to the developer by the City. The Casa Grande project which was previously acquired using CDBG-R funds as a Reinvestment Recovery Project was identified in an amendment to the 2016 Action Plan utilized $1,900,000 in construction funds. The Casa Grande is part of a larger re-development project along historic Route 66.

Table 12 – Number of Households Supported

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

The City contracts with three different providers for its Tenant Based Rental Assistance (TBRA) program: the Albuquerque Housing Authority, the New Mexico Supportive Housing Coalition and St. Martin's Hospitality Center. Their contracts do not run on a calendar or a federal fiscal year. Because of the difference in fiscal years, none of the providers have expended all of their funds but all of them are on track to successfully fulfill their contract obligations. For the Affordable Housing goals the City originally considered using HOME dollars or Workforce Housing funds to fund the Generations at West
Mesa senior housing project in the West Mesa neighborhood and the Casa Feliz project in the Trumbull neighborhood. Rather than HOME funds, the City invested $4,600,000 in Workforce Housing Funds and other local funds in these projects. The City committed HOME funds to two projects: Madera Crossing in the Sawmill neighborhood and Cuatro, a senior housing development in the Wells Park neighborhood. Both projects have received Certificates of Occupancy and are leasing units but neither project has been closed in IDIS. Acquiring and rehabilitating rental housing remains a goal, but it is anticipated that a rental rehabilitation project will be done in conjunction with Neighborhood Stabilization Program funding but the State has yet to sign an agreement for the use of the NSP funds.

The Homeowner Rehabilitation Program did not meet its goal of completing 10 houses. During 2016, it became necessary for the City to select a new contractor for the program which necessitated going through the City’s procurement process and writing a proposal, advertising, selecting and negotiating a contract can take several months.

Discuss how these outcomes will impact future annual action plans.

The final Action Plan based on the 2013-2017 Consolidated Plan is anticipated to have the same goals and outcomes for affordable housing. Because it is difficult to build new affordable housing units with just HOME funds, most developers rely on Low Income Housing Tax Credits. The Action Plan is submitted before the awardees for LIHTC are announced and if a project scores high enough to fall just below the cut off for allocations, the developer usually applies again the following year; so the outcomes for future annual action plans may be pushed forward a year.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Table 13 – Number of Households Served

Narrative Information
Neither of the HOME assisted housing projects, Madera Crossing or Cuatro, were closed in IDIS by the end of 2016. When fully leased, the two projects will have a minimum of 78 units that are reserved for occupancy by low income tenants. TBRA funds served 94 individuals, all of whom are extremely low-income.
CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)
Evaluate the jurisdiction’s progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The City of Albuquerque conducts a biannual unsheltered Point-in-Time (PIT) Count to identify unsheltered persons in Albuquerque. These unsheltered persons are provided with the opportunity to be assessed and referred for services. The City conducted an unsheltered PIT Count during the last week of January 2016. The Albuquerque Heading Home homeless initiative outreach staff and other outreach providers and volunteers provided outreach services to the unsheltered persons that were identified and were assessed for medical vulnerability and chronic homelessness. They were offered housing and supportive services after assessment.

In addition, in partnership with the New Mexico Coalition to End Homelessness (NMCEH), the City utilized the coordinated assessment using the Vulnerability Index and Service Prioritization Decision Assistance Tool (VI-SPDAT) during the January 2016 unsheltered PIT Count, in order to prioritize housing and supportive services to those who were the most vulnerable unsheltered persons that were identified during the count. The coordinated assessment using the VI-SPDAT also prioritized housing and supportive services to unsheltered persons who were identified as homeless veterans or those who were chronically homeless. The homeless veterans were referred to the HUD VASH program, and the chronically homeless were referred to the City’s Continuum of Care Rental Assistance Programs.

Additionally, in 2016 the City continued its efforts to provide outreach services through its Community Outreach and Service Team (COAST) and Crisis Intervention Team (CIT), and through its providers, in order to engage unsheltered persons, specifically those who were suffering from severe mental health issues, into mental health services, housing and other supportive service needs. In 2016, nine hundred and three (903) people were provided with outreach services by COAST, CIT and the City’s homeless providers. In addition the City’s Better Way panhandling initiative provided outreach to 488 panhandlers and provided them with employment opportunities. Two hundred and sixteen of these panhandlers were assessed in order to engage them into housing, behavioral health services and other supportive services.

Addressing the emergency shelter and transitional housing needs of homeless persons

During the 2016 Program Year the City of Albuquerque used its HESG funds to support five (5) projects
essential to ensuring the accessibility and sustainability of the City’s Emergency Homeless Intervention System. Four (4) of the projects supported focused on the provision of emergency shelter and shelter services and one (1) project was targeted at rapid re-housing for women and women with children who were staying at emergency shelters. Of the emergency shelter projects, one worked specifically with women and women with children, one specifically with men, one provided shelter services and supportive services to men who were suffering from substance abuse issues, and another project funded the City’s emergency winter shelter. Monies for these projects were leveraged with City General Funds as well as some CDBG funds.

Additionally, during the 2016 Program Year the City coordinated its overall homeless prevention and intervention strategies with the Continuum of Care to ensure that all federal funds are used as effectively as possible. Therefore while the City used the majority of its HESG funds to support emergency shelter operations and shelter services, the CoC provided funding to support transitional housing, permanent supportive housing, rapid-rehousing, and supportive services to the City’s homeless populations.

In addition the City used City General Funds and some HESG and CDBG funds to provide motel vouchers to families and individuals who were waiting to get permanently housed and get connected to supportive services and their circumstances prevented them from staying at the City’s emergency shelters.

**Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs**

During the 2016 Program Year the City’s Continuum of Care provided permanent supportive housing to chronically homeless individuals and families, which included some veterans and their families, and unaccompanied youth through its Rental Assistance Projects. The unaccompanied youth served through its Rental Assistance Projects were not persons as defined under Category 3 of being at risk of homelessness. The unaccompanied youth served were unstably housed and likely to continue in that state without the assistance from the Rental Assistance program. The CoC also assisted families with children to rapidly transition to permanent affordable housing through its Leasing Projects. In addition the City worked in collaboration with the VA, the Albuquerque Housing Authority and Bernalillo County Housing Authority to provide permanent housing and supportive services to homeless veterans and their families through the VASH and SSVF programs. Also, through the Albuquerque Heading Home homeless initiative, the City prioritized permanent housing and supportive services to those who were the most medically vulnerable and chronic homeless as well as homeless veterans who did not qualify
for VASH, SSVF and other VA services.

During the 2016 Program Year the City also continued to fund the rapid re-housing program for women and women with children staying at emergency shelters. Additionally, the City continued to fund the City’s three (3) ACT programs to ensure that those who have severe behavioral health issues are provided with permanent housing and wraparound supportive services.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again.

Preventing homelessness is one of the City’s main underlining programming strategies for the 013-2017 Consolidated Plan. Specific projects that were funded in 2015 Program Year to support this strategy included the City's Eviction Prevention, Emergency/Minor Home Repair and Home Retrofit projects. The Eviction Prevention project provided low income households with emergency rental and/or utility assistance for those renter households on the brink of losing their housing and becoming homeless. The Emergency/Minor Home Repair Program provided financial assistance to low income homeowner households who need emergency homeowner repair services but cannot afford these repairs. Lastly, in 2016 the City completed two (2) affordable housing projects which were targeted to housing very low income individuals and families. Increasing the number of affordable housing units for extremely low income persons and thereby working to prevent homelessness is one of the main objectives of the City's Affordable Housing Program for the 2013-2017 Consolidated Plan.

During the 2016 Program Year the City continued to collaborate with Bernalillo County in providing permanent supportive housing with wraparound services to individuals who were exiting from correctional institutions. In 2016 two homeless providers implemented this City project. The project served 50 households. Also, in 2016 the City and Bernalillo County are continuing the dialogue of collaborating and working in partnership to improve mental health care services in the community. The improvements included providing housing to those who are being discharged from mental health facilities, and providing several Mobile Crisis Teams throughout the City.
CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

The Albuquerque Housing Authority formerly was a part of the City of Albuquerque but now it is a separate entity. The City communicates and works collaboratively with the Albuquerque Housing Authority but has no jurisdiction over their activities. AHA continues to improve the curb appeal of several public housing sites with exterior painting and stucco repairs and is in the process of bringing all of AHA’s public housing into compliance with Uniform Federal Accessibility Standards (UFAS) and Americans with Disabilities Act (ADA). AHA has completed Green Physical Needs Assessments (GPNA) of all properties and has also completed investment grade energy audits for all properties. AHA is pursuing an Energy Performance Contract which will finance energy and water conservation measures at nearly all of AHA’s properties.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

AHA has continued to administer the Family Self Sufficiency Program for Public Housing. AHA has a dedicated staff person who establishes self-sufficiency and financial goals for public housing residents. Homeownership is a common goal established in the FSS Program and AHA continues to transition well-motivated residents from public housing to homeownership.

Actions taken to provide assistance to troubled PHAs

N/A
CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

The City is currently updating its Comprehensive Plan which will be adopted in 2017. The action items in the draft plan include increasing the supply of affordable housing and assuring the opportunity to obtain standard housing for a reasonable proportion of income, assuring against discrimination in the provision of housing, assuring the availability of a wide distribution of quality housing for all persons regardless of race, color, religion, sex, national origin, ancestry, or handicapped status, providing for the development of quality housing for elderly residents, working on conservation, improvement, and expansion of the housing available to low-and moderate-income families until all housing in the area meets City Housing Code standards, maintaining an affordable housing supply in neighborhoods, in addition to creating market rate housing, as part of revitalization efforts, providing for the development of multifamily housing close to public services, transit, and shopping, ameliorating the problems of homelessness, overcrowding, and displacement of low income residents, and encouraging community compounds to support multiple generational housing where such traditional development patterns exist. Additionally, the City's planning efforts are focused on making Transit Oriented Developments more feasible by decreasing requirements for parking spaces, increasing density, etc.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

The Affordable Housing Committee continues to meet regularly and serves as an advocacy group for affordable housing. The Workforce Housing Trust Fund goes to the voters every two years for approval and the Affordable Housing Committee serves as an ad hoc committee that educates the public on the importance of affordable housing to the City's quality of life. They make recommendations regarding the City's affordable housing policies as well as oversee applications for Workforce Housing funds. County taxpayers passed a gross receipts tax increase to help mentally ill individuals access services and because many are homeless, to provide safe and decent housing. The City and County, working in collaboration, are formulating goals and activities to help meet the underserved needs of those with mental health diagnoses. In 2016 they allocated money to a housing program that will increase supportive housing throughout the county specifically for persons with behavioral health conditions who are homeless.

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

The City of Albuquerque’s Home Owner Rehabilitation Program, as required, tests for LBP on homes built prior to 1978. For loans closed during the Program Year 1/1/2016 – 12/31/2016, four homes were
tested for LBP and three homes tested positive and were abated. For tenant-based rental assistance provided under the HOME program, visual assessment is conducted as part of the initial inspections and also during periodic inspections on all units constructed prior to 1978. For supportive housing activities funded by ESG, during yearly monitoring, if the unit was built before 1978, the client file is checked to ensure that it contains a Certificate of Lead Based Paint. The ESG funding for emergency shelter services is for operational purposes and does not involve renovation, repair or painting activities. The majority of the funding for the Emergency Repair program goes to roof repairs, where there is no paint disturbance so lead based testing is not conducted.

**Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)**

The City has concentrated its efforts on improving the lives of families living in poverty by ensuring access to dental services, tackling food insecurity by helping food providers expand the number of individuals they serve and also by providing meals to low income elderly. By helping families facing evictions and offering motel vouchers to those facing a medical crisis, the City helps ensure a safe, albeit temporary place to live. To reduce the number of poverty-level families, the City has used CDBG funds for a program to set up Individual Development Accounts that can be used to assist low-income individuals to return to school, start a business or make a down payment on a house. Ensuring that families have a safe, affordable place to call home is a vital step in reducing the number of poverty-level families. If decent housing is assured, families with the help of case management services can acquire the skills they need to obtain employment, children can take advantage of educational opportunities and families may access social services. Affordable housing developments completed in 2016 will further help in this effort.

**Actions taken to develop institutional structure. 91.220(k); 91.320(j)**

As a result of the City's Community Development Block Grant funding being designated a high risk grantee by HUD, the City instituted a TIGER team and a Grants Management Team. Both teams, comprised of the Department of Family and Community Service's Deputy Director, the City's Grants Administrator, the managers of the Fiscal Division, Homeless Programs, Rehabilitation Program, Community Development program along with a Management Analyst and other fiscal staff meet every other work to discuss program progress, fiscal management, and to ensure that all federal guidelines are followed.

Staff participated in numerous meetings conducted by the City’s Planning Department designed to update both the City’s and County’s Comprehensive Plan (ABC-Z), which will be finalized in 2016 and be considered for Council adoption in 2017. Among the many goals identified: better coordination of land use and transportation; guidance to update the City’s Zoning Code through the Integrated Development Ordinance; an examination of relevant existing conditions; and, incorporation of goals and policies of the City’s area plans and sector development plans. Participation in this process allowed the Community Development Division to contribute its positions on housing matters in the areas of density; inclusion of a range of housing types (mixed-use, multi-family, live-work, and independent and assisted
care facilities); location of housing near transportation and job centers; and a variety of other factors influencing future housing development. Non-profit agencies, the New Mexico Mortgage Finance Authority (MFA), Albuquerque Housing Authority, and homeless program providers were welcome at the meetings to share their concerns and goals, thus providing an opportunity to overcome gaps in service and find solutions to issues of affordable housing by identifying them in the Comprehensive Plan, and thus better addressing the needs of underserved populations.

**Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)**

The City formed a Native American Homeless Task Force which hired a Native American liaison to help coordinate services between social service agencies and Albuquerque's homeless Native American population. Additionally the City reconstituted the dormant Commission on Indian Affairs to be the advocacy voice for Native Americans in the City. For general coordination among housing providers and social service agencies the Affordable Housing Committee fills this role. They meet every other month and have representatives from both public and private housing and social service agencies. The Behavioral Health Collaborative of the City and Bernalillo County helps coordinate housing and social services for those with mental health issues that are homeless or facing homelessness.

**Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)**

The Analysis of Impediments to Fair Housing Choice identified three impediments to fair housing choice: the need for increased awareness, outreach and education; the need for increased financial education and outreach to targeted minorities who are under represented in the home ownership market and the limited supply of affordable housing. The City was funding the Law Access Center to do tenant/landlord counseling with CDBG funds and still continues to fund this program but uses City general funds to provide fair housing awareness and education. The City has a very active department of Diversity and Human Rights that takes housing discrimination complaints and follows up on them and also educates the public about discrimination issues. The City is increasing the supply of affordable housing by using Workforce Housing funds and other local funds for new affordable housing projects that serve low to moderate income renters. In 2016, the City in conjunction with the Albuquerque Housing Authority and the City of Rio Rancho, initiated work on a Fair Housing Analysis that will identify actions to overcome the effects of any impediments to fair housing choice.
CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements.

The Department of Family & Community Services Community Development Division adheres to the Project Monitoring Requirements as stipulated in the Administrative Requirements for Contracts Awarded under the City of Albuquerque. Monitoring is generally conducted on a yearly basis unless otherwise determined to be required on a more or less frequent basis by completion of the Risk Assessment Tool. The Risk Assessment Tool determines a project’s risk score allowing for monitoring annually, every other year or every three years. Program staff conducts scheduled on-site monitoring visits with subrecipient and or subcontractor staff. As soon as is practicable following the conclusion of an on-site monitoring visit, but no later than 30 days after, a detailed report of conclusions, findings, concerns and recommendations for corrective actions, if any, will be provided by the Department to the director and governing board of the organization. When required a written response from the organization, signed by an authorized board official and approved by the governing board, shall be submitted to the Department of Family & Community Services.

Additional text

Long Term Compliance monitoring is scheduled annually; a system has been developed by staff to utilize the Long Term Compliance Risk Assessment Tool to ensure that contracts/projects that are in long-term compliance are monitored regularly. Long Term Compliance monitoring is done to ensure compliance as set forth in Restrictive Covenants on contracts/projects and includes Housing Quality Standards Inspections, if necessary. Frequency of monitoring is determined by completing a Long Term Compliance Risk Assessment Tool. Long Term Compliance contracts/projects can be monitored annually, every other year or every three years depending upon the score on the Risk Assessment Tool. Completed Public Facilities contracts/projects are included in long term compliance monitoring. Although the Community Development Division enters into agreements with only non-profit agencies, it requires contractors to make every effort to use minority owned businesses if there is a need to subcontract services. This is done by including language in agreements encouraging the use of minority owned businesses. The Home Owner Rehabilitation Program, which is offered city-wide, requires its contractors to make its best efforts to provide minority owned and/or disadvantaged subcontractors to perform work. Record documenting efforts are to be provided to Program staff. The RFB's for construction contracts now includes this requirement.
Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

A Public Meeting was held on March 7, at 5:30 p.m. at the Los Griegos Center and an advertisement was placed in the Journal two weeks prior to the meeting that informed the public of the public meeting and also when the CAPER would be available, how to obtain copies of it, and how to make comments. Copies of the CAPER were available at the Department of Family and Community Services Office from 8:30 a.m. to 4:30 p.m. and the comment period was from March 8, 2017 to March 22, 2017. The information was also placed on the City's website and an email invitation to attend the public meeting and/or comment on the CAPER was sent to a list of stakeholder email addresses. Questions were raised at the Public Meeting about the future of the federal programs but there were no comments about performance. No written or emailed comments were received by the deadline.
CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction’s program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

In the 2016 Action Plan funds for public facilities were not designated for a specific project but the City was going to issue an RFP for non profits to propose projects. An amendment was submitted to HUD and approved to designate the funding for public facilities identified in the Action Plan to the renovation of the City's Dennis Chavez Community Center. The center is located in a low income census tract and was built in the 70's and needs renovations because major systems have reached the end of their useful life and additional space is needed for the kinds of programs that community centers offer now.

At the time the goal to acquire and rehabilitate rental housing was set, it was anticipated that a rental rehabilitation project could be done in conjunction with Neighborhood Stabilization Program (NSP) funding but the State has yet to sign an agreement for the use of these funds.

The City amended its 2016 Action Plan to delete Community Dental as one of the project activities because of accountability issues with the agency. That money will get allocated to another activity that will not provide dental services. The City's Retrofit program was on hold for 2016 as a result of a monitoring finding and the repayment of funds. It will start up again in 2017. The program has been changed in that all recipients will now fill out Part V income verification forms. Staff at the Department of Senior Affairs, the subrecipient of the funds, have already been trained on proper documentation.

One element in the strategic plan is being funded with City General Funds instead of federal funds. The City continues to contract with Law Access to receive housing discrimination complaints and advise low-income renters and landlords of their housing rights, but the service is paid for out of General Funds. Calls were accepted from any part of the City and thus a low/moderate income benefit could not be established but the City believes discrimination can happen in any quadrant of the City and that discrimination is not isolated to low/moderate income residents and because of the City's commitment to Fair Housing and to its Human Rights ordinance, the City continues to offer the service.

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.
CR-50 - HOME 91.520(d)

Include the results of on-site inspections of affordable rental housing assisted under the program to determine compliance with housing codes and other applicable regulations

Please list those projects that should have been inspected on-site this program year based upon the schedule in §92.504(d). Indicate which of these were inspected and a summary of issues that were detected during the inspection. For those that were not inspected, please indicate the reason and how you will remedy the situation.

During 2016 City staff inspected 51 affordable rental housing units at 18 different affordable rental developments and/or projects.

Agua Azul is a 24 unit affordable housing development project with 3 HOME assisted units. Agua Azul was not inspected during 2016, however, the project was inspected during 2014, at which time, 3 HOME assisted units passed initial inspection. The Project will be monitored and Housing Quality Standards inspections will be done in March of 2017.

The Edward Romero Terrace Project, a senior affordable housing project, was funded with $800,000 in HOME funds, and contains 40 units, with 11 HOME designated units. The Project was inspected in May of 2016. During that time 3 units were inspected, of which 2 passed initial inspection, with the third unit passing HQS inspection during a reinspection of the unit.

Plaza Feliz, funded with $1,850,000 in HOME funds, is a 66 unit Affordable Housing Project. Of the 66 units, 55 are affordable units, of which 8 are designated HOME units. Plaza Feliz was initially scheduled to be monitored and inspected in December of 2016, but due to scheduling conflicts monitoring and inspections were rescheduled to January of 2017.

Cuatro, a senior housing project, was funded with $2,416,000 in HOME funds. The Project contains 55 affordable units, of which 11 are HOME designated units. The Project completed construction in mid-2016 and was not leased up until late 2016. Therefore, monitoring and inspections will be conducted in December of 2017.

NewLife Homes II, III and IV units were inspected in 2016. NewLife Homes II was funded with $62,462 in HOME funds and consists of 17 affordable units, of which 1 is a designated HOME unit. Four units were inspected, and all 4 passed initial inspection. The Affordable Housing Development known as NewLife Homes III was funded with $46,647 in HOME funds and contains 15 affordable units, with 1 designated HOME unit. Three units were inspected at this property, all of which passed initial inspection. NewLife Homes IV contains 48 affordable units, of which 3 are designated HOME units, and was funded with $200,000 in HOME funds. Ten inspections were conducted at NewLife Homes IV, of which 8 units passed initial inspection, and the remaining 2 passed upon reinspection.
Provide an assessment of the jurisdiction’s affirmative marketing actions for HOME units. 92.351(b)

Generally, the Department assesses the affirmative marketing actions on a project by project basis, which occurs at the time of application. The HUD Affirmative Fair Housing Marketing Plan (HUD - 935.2A or Hud - 935.2B) must be submitted as part of the application. The Plan is evaluated by staff to ensure that the developer has taken affirmative fair housing into consideration and has incorporated such into its marketing plan. The affirmative marketing plan is maintained in the project files to be verified after construction has been completed and all of the units in the project are leased or sold. As part of the long term compliance monitoring, when an onsite inspection is conducted the monitoring assesses how the project is complying with the affirmative marketing plan that was submitted with the initial application.

The HOME money that is used for TBRA is targeted to specific populations, such as the medically fragile or the chronically homeless, so they are not marketed to the general low income population.

Refer to IDIS reports to describe the amount and use of program income for projects, including the number of projects and owner and tenant characteristics

During 2016, no HOME units were completed in IDIS although program income was expended on projects. Program income is used for TBRA but the City does not track tenant characteristics based on program income vs. HOME dollars.

Describe other actions taken to foster and maintain affordable housing. 91.220(k) (STATES ONLY: Including the coordination of LIHTC with the development of affordable housing). 91.320(j)

Every two years the City goes to the voters for approval for bonding for capital projects. One of the bonds is for workforce housing, which is targeted to those making 80 percent or less of area median income. Although the bond amount has decreased since it was first put to the voters in 2007, it provides vital funding to foster and maintain affordable housing. In an effort to make housing more affordable the City has been working on updating it’s Comprehensive Plan which will allow for higher densities and lower parking requirements which should lower the cost of land that is factored into rental developments.

NOTICE OF PUBLIC HEARING

NOTICE OF 15-DAY COMMENT PERIOD

The City of Albuquerque Family & Community Services Department will hold a public hearing on Tuesday, March 7, 2017 at 6:30 p.m. at the los Alamos Mall & Senior Center, located at 1211 Candelaria Rd. The purpose of the meeting is to present the Department's FY 16 Consolidated Annual Performance and Evaluation Report (CAPER) and to provide an opportunity for City residents to give input during a 15-day comment period. The meeting also serves as the Department's opportunity to present the Department's Consolidated and Community Development Block Grant (CDBG), HUD Investment Grant (IGI), and Emergency Shelter Grant (ESG) Entitlement Funds. The CAPER addresses progress achieved in attaining goals and meeting its objectives.

A 15-day public comment period will begin on Wednesday, March 8, 2017, and end on Wednesday, March 22, 2017 at 5:00 p.m. All residents, property owners, persons with disabilities, immigrants, seniors, homeowners, citizens, and other stakeholders in the City of Albuquerque, and anyone interested in submitting comments or questions regarding the draft CAPER, may call the Department of Family and Community Services, located at 600 Magazine St. NW, Floor 3, Room 304, Albuquerque, NM 87102, or email at region1@albuquerque.org.

A copy of the draft 2016 CAPER, as well as the 2016-2017 Consolidated Plan, will be available on or before March 8, 2017 for public review weekdays between the hours of 8:00 a.m. and 5:00 p.m. at the offices of the Department of Family and Community Services, at the above mentioned location, or available online on the City of Albuquerque website at http://www albq nm gov familycommunityservices.

A reasonable number of these documents are available at City offices located at the senior citizens centers. In addition, the draft 2016 CAPER can be provided in alternative formats upon request. The draft 2016 CAPER may be translated into Spanish by providing an English draft to the Department of Family and Community Services. For additional questions or comments regarding the draft CAPER, please call the Department of Family and Community Services at 505-766-3340 or email at region1@albuquerque.org.

For more information, please call 505-766-3340.
