JOB MENTOR PROGRAM

at Career Enrichment Center

JMP at C.E.C. informs students about various industries through volunteering, shadowing, internships, and employment. This program helps teach employment and leadership skills that are necessary for successful preparation to enter the workforce.

Many JMP students at C.E.C. are involved in the Automotive Technology program, but students interested in exploring any career field are encouraged to talk with Mr. Mulroy about the program.

School-Based Coordinator:

Mark Mulroy
mulroy_m@aps.edu

How to Enroll:
Contact the School-Based Coordinator for more information.
