1.0 Background

The City of Albuquerque has established priorities for funding and they include the following goals:

Goal 1: Human and Family Development: People of all ages have the opportunity to participate in the community and economy and are well sheltered, safe, healthy, and educated.

Goal 2: Public Safety: The public is safe and secure, and shares responsibility for maintaining a safe environment.

The Department of Family and Community Services mission is to improve the quality, delivery, and effectiveness of health, social, recreational, nutritional, educational, housing, and other human service programs for residents of the Albuquerque metropolitan area; to increase the available services through resource sharing and coordination; and to improve the quality of life for low and moderate income residents.

In addition, the Department of Family and Community Services has established a priority to fund projects that address the Social Determinants of Health to achieve greater well-being and equity for all. Substantial evidence confirms the link between social, economic and physical conditions and health outcome disparities. Social Determinants of Health include access to healthcare
services, availability of services to support housing and behavioral health stability, lifelong education options, public safety and social services.\(^1\)
