These events are activated by the AFR Dispatch Center as a "Significant Event" based on specific criteria and emailed to media and specific AFR members but does not include all responses by AFR to emergency calls.

4/5 - Apartment Fire: *At approximately 8:06 am AFR was dispatched to 5800 Osuna Rd NE in fire district 15 for a residential apartment fire. Upon arrival, Engine 15 declared a working fire in a 2 story apartment with smoke and flames coming from the front window. Engine 15 stretched a hose line to the second floor of the apartment building to begin their fire attack as Rescue 15 simultaneously performed a search of the affected apartment. Ladder 13 performed ventilation operations in order to assist the interior fire crews. The fire was located in the back bedroom and extinguished by Engine 15 as Rescue completed the primary search. All occupants of the affected apartment were able to safely self-evacuate as fire crews were arriving on scene. Firefighters were able to locate and rescue two dogs that were in the affected apartment and safely return them to their owners. A total of 12 AFR fire apparatus were on scene to assist with fire operations. The cause of the fire was accidental and there were no injuries reported.*

4/6 - Mobile Home Fire: *Just before midnight , AFR crews responded to a single family mobile home located at 628 Trading Post Trail SE in fire district 12. Engine 12 was first to arrive on scene. They encountered a double wide mobile home with smoke and flames engulfing the structure. There were also reports of victims inside. Engine 12 pulled a large diameter attack line and began attacking the fire from the outside. A search of the home began simultaneously looking for the occupants. The fire was brought under control by firefighters within about 10 minutes of arrival. The home sustained major damage from the fire. Luckily, the occupants from the house escaped and were able to get out injury free. Sadly, there was a dog found inside and attempts to resuscitate were unsuccessful. There were no injuries reported and the cause unknown.*

4/9 - Residential Fire: *AFR was dispatched to a residential structure located at 915 22nd St. NW in fire district 4. Engine 4 was first on scene and found the house fully involved in flames. Firefighters fought the fire defensively. There were some structural issues making it unsafe to be in certain areas and the house had been compartmentalized quite a bit. Firefighters quickly discovered a basement as well. The substandard home was constructed out of lath and plaster. All of these conditions combined make extinguishing a fire much more challenging to firefighters. Despite these obstacles, AFR crews worked diligently to fight the fire and eventually it was extinguished. Firefighters did an excellent job protecting the surrounding homes. No occupants were found inside of the boarded up abandoned structure. A piece of sheet metal cut through the glove of a firefighter injuring his hand. He was treated on scene. No other injuries were reported. The cause of the fire is unknown at this time.*

4/18 - Bosque Fire: *At approximately 2:28 pm AFR was dispatched to a vegetation fire near 1300 Riverview Dr NW in fire district 7. The Wildland Task Force was dispatched in order to assist in firefighting operations. Engine 7 crew arrived on scene and reported a working Bosque fire with approximately 1/4 acre initially burned. Firefighters from Stations 7, 10, 1, 16 and 22 arrived on scene and began wildland operations to include the usage of hand tools, small diameter hose lines, and float pumps to help in supplying water for fire containment. Firefighters worked continuously to build containment lines around the fire, preventing any further fire spread. At approximately 6:00 pm firefighters declared that the fire was fully contained as they continued to put out hot spots within the burned area. No homes were evacuated as a result of the fire and there were no houses affected by the fire. A total of 41 firefighters were on scene to assist with fire operations. No injuries were reported and the cause of the fire is believed to be man made however the exact cause of the fire is under investigation.*

4/21 - Commercial Fire: *At approximately 7:04 am AFR was dispatched to Central and 10th St NW for a single story commercial structure fire in fire district 1. Units from Station 1 arrived on scene and reported a working structure fire with heavy smoke and flames showing from the roof of the abandoned building. As additional units arrived on scene, defensive operations were declared due to the building having structural integrity concerns and confirmation that the building was cleared of any occupants. Firefighters from Engine 1, Engine 2 and Engine 4 utilized multiple handlines as they continued to fight the fire from a defensive standpoint. Ladder 1 set up on the east side of the building and was able to commence aerial operations, enabling firefighters to extinguish the fire. After approximately 30 minutes the fire was declared under control and firefighters were able confirm that there was no possibility of the fire spreading. A total of 13 fire apparatus and 32 firefighters were on scene to assist with fire operations. The cause of the fire is unknown. There were no injuries reported.*

4/22 - Residential Fire: *AFR was dispatched to a reported structure fire at 737 Louisiana NE in fire district 11. Engine 11 arrived less than 3 minutes after dispatch and declared a working fire in a vacant residential home. A total of 9 units responded and coordinated search and fire attack. The structure was reported clear of occupants and the fire was under control in under 15 minutes. There were no reports of injuries.*

4/24 - Residential Fire: At approximately 4:19, AFR units were dispatched to 9536 Giddings Ave. NE in fire district 20 for a structure fire. Engine 20 was first on scene of a shed fire that extended to the adjacent shed next door. The sheds were quickly extinguished by Engine 20. One civilian burned his forearm at some point during the incident. There was no injury to firefighters and the cause is unknown.

4/25 - Commercial Fire: At approximately 5:19 a.m. AFR units were dispatched to a structure fire at Richmond and Monte Vista in fire district 3. Crews arrived to find a single story abandoned commercial structure basement fire. There was no injury to firefighters or civilians. This building had been boarded up by Code Enforcement in the past. The cause of the fire is still under investigation.

4/25 - Residential Fire: AFR units were dispatched to a structure fire at 3324 12th St NW in fire district 4 at approximately 10:31p.m. Engine 4 was the first unit on scene to find a single story home and visible smoke from the back. Engine 4 pulled a suppression line to the rear of the structure and found the fire in the basement of the home. The fire was quickly extinguished by transitional attack through a window. There was substantial damage to the property. There were no injuries reported. The cause of the fire was ruled accidental and the homeowner was displaced due to the damage caused from the fire.

4/26 - MCI MVA: At approximately At approximately 6:52 p.m., AFR was dispatched to a single-story single-family abandoned structure near Jackson St SE and Crest Ave SE in fire district 11. Within minutes, AFR units arrived to a working fire. Having verified an all clear, the crews were able to make a quick attack and knocked down the fire with no reported injuries to firefighters and civilians.

4/27 - Residential Fire: At approximately 1:49 p.m. AFR was dispatched to 1136 Turner Dr NE for a residential structure fire in fire district 8. Rescue 8 arrived on scene and reported a working structure fire in a large, three story residential home with smoke and flames coming from the rear of the home. A secondary report indicated that the fire had extended through the roof as additional units began to arrive on scene. Firefighters began to deploy hand lines for fire control. Emergency traffic was announced over the air that a portion of the roof had collapsed and at that time firefighters began to fight the fire utilizing defensive operations. The fire had extended to the yard and vegetation of a nearby house as fire crews stretched additional hand lines to protect the exposures. Ladder 13, Ladder 9 Engine 13 and Engine 3 were assigned alpha division for fire suppression as the utilized master streams to control the fire. Engine 9 and Squad were assigned to the bravo division for fire suppression efforts on the north end of the house. Engine 12, Rescue 12 and Rescue 9 were assigned to wildland fire fighting efforts in the rear of the structure. At a later point Engine 1, along with Brush 16, assisted with wildland efforts. In total 24 fire units were on scene to assist with fire operations. No injuries were reported and the cause of the fire is under investigation.

- 1. AFR crews participated in a full-scale emergency exercise held at the Albuquerque Sunport complete with a simulated airplane crash, 60+ victims, and response from several partner agencies.
- 2. Multiple AFR crews responded in rotation to help with exposure protection during the Big Hole fire in the Belen Bosque including Station 1C who were one the first responding crews.
- 3. AFR hosted the annual American Lung Association in New Mexico Fight for Air Climb at the AFR Training Academy. Paramedic Lieutenant Tomas Maestas was selected as the AT&T Firefighter of the Year!
- 4. The Albuquerque Sign Language Academy welcomed AFR Engine 4 for a visit. Visits such as these provide an inclusive way to educate all kids on fire safety and provide fun teaching moments to get kids comfortable with first responders ensuring community safety.
- 5. Engine 17 and Battalion 2 were performing a final walk through of a home that sustained major fire damage and happened to find the family pet that had been missing since the fire. "Jo Jo" was returned to the owner as they begin the difficult process of rebuilding.

FIRE MARSHAL'S OFFICE

INSPECTIONS DIVISION

- Cardiovascular disease is the No. 1 killer of women, causing 1 in 3 deaths each year. It's a third of our mothers, sisters, friends, neighbors, coworkers and more. It's a third of the women we can't bear to live with it. FMO was able to send six inspectors to the Go Red For Women Event. FMO is proud to be a part of this worthy event to bring awareness to this costly disease.
- With the legalization of cannabis sales in New Mexico, FMO has been busy inspecting businesses who want to take advantage of this new market. We have worked with professionals in the industry to create and perfect our inspection process in regards to this new field.
- With the warmer months rapidly approaching, FMO has been receiving a large number of permit requests for outdoor events. Our inspectors have been busy ensuring these venues are set up properly and are safe for the public. Keep an eye out for the many upcoming family friendly events.

ADAPT

- ADAPT has 127 properties that have been formally brought into the program, 72 have been cleared from the program and 55 are still in the program at different stages. ADAPT continuously monitors the properties that are in the program to track their compliance with the Nuisance Abatement Agreement.
- There are 96 properties on the Unsafe Buildings list. Two new properties were added to the list this month. The properties are labeled on the First Due application with a white "X" on a red background. In the field these properties are marked with a red spray painted "X" and the letters "AFR" under it.
- 4200 Spanish Bit NE was cleared with a 61% reduction in reported crime.
- The following properties were entered into the ADAPT program:
 - * 1750 Indian School Rd NW
 - * 8200 Bridge Blvd SW
 - * 201 Coors Blvd NW
 - * 13141 Central Ave NE
 - * 3700 Ellison Dr NW
 - * 801 Locust Pl NE
 - * 2200 6th St NW

PLANS CHECKING

- Plans Checking worked diligently with architects on the Double Eagle airport project. We have approved a new 30,000-gallon AST (above ground storage tank) for bulk storage and bulk transfer of jet fuel. Plans checking also approved a 12,000-gallon and 1,000-gallon AST for aircraft fuel dispensing. All life safety requirements conform to IFC 2015 and NFPA standards.
- Bueno Foods (El Encanto, Inc.) is a successful family-owned New Mexican food company located in Albuquerque, New Mexico since 1951. They have grown from a small family-owned grocery store into the Southwest's premier producer of New Mexican and Mexican style foods. Bueno foods passed their final fire inspection. Below are a few pictures of their pre-action and fire pump tests.

FIRE INVESTIGATIONS DIVISION

- Lieutenant Gunderson and his partner Wheezy drove to South Dakota to complete their annual ATF recertification process. As is usual for this team, they passed with flying colors and are ready to serve out community for another 12 months.
- APD Cadet AKA Captain Jason Ramirez continues to excel in his class and is a front runner to receive the TOP Cadet award. Capt. Ramirez was selected by his classmates to carry the guidon representing his class, this is an absolute honor and a testament to his character and work ethic. The Fire Investigations Division is excited to have him at the helm.
- Capt. Martinez met with DA Raul Torrez to discuss the possibility of obtaining a dedicated DA to prosecute all arson cases and to help with us being able to prosecute the fire setters that are responsible for the fires in the Bosque.
- DC Romero and Capt. Martinez met with the Fire Marshals from RRFD and BCFD to discuss a task force that tracks fire setters amongst all three jurisdictions.

INCOMING CALL CATEGORY APRIL YTD

EMERGENCY	9,937	37,917
NON-EMERGENCY (INCOMING & OUTGOING)	7,888	30,229
TOTAL PHONE CALLS PROCESSED	17,825	68,146
DISPATCHED CALLS	11,442	42,344

The difference between calls processed and dispatched calls can be attributed to calls assigned to other agencies such as BCFD, Rio Rancho, APD ACS, poison control, etc. or duplicate calls such as; Multiple callers reporting the same incident, calls from APD dispatcher, calls from AAS dispatchers field personnel calling Alarm Room and calls that are redirected to other agencies (County, Rio Rancho, APD, ACS, poison control etc.)

TRAINING ACADEMY

EMS DIVISION

- April marks the beginning of AFR's EMS refresher. This year the refresher is eight hours of in person training, and consists of multiple lectures, skill workshops, and instructor led group discussions. Over the next three months this training will be delivered to every member of AFR, and so far, we are off to a great start.
- The division filmed and edited multiple social media videos, as well as several ECG interpretation and treatment videos with Dr. Pruett.
- UNM's paramedic program opened for applications in April, and AFR sent 40 members through the entrance process. Test and interview preparation were offered to all interested personnel, with the goal of better preparing all of AFR's applicants.
- Three AFR members graduated from UNM's paramedic program. Congratulations to Firefighter Jeffrey Blattenberger, Firefighter Alexandra Hansell, and Firefighter Garet Stash.

SUPPRESSION DIVISION

- 98th Cadet Class continues with 13 cadets.
- April kicks off with an intense week of training known as Ladder Week.
- Cadets become very familiar with various sizes and weights of ladders.
- April continues with HazMat Week and EMS Week following.
- The month closes out with mid-term evaluations of the 98th Cadet Class.
- Topics of Study Include:
 - * Single and two-person ladder throws
 - * Hazardous materials identification and mitigation training
 - * Introduction to EMS basics including baseline vitals and patient assessment

Professional Development

- Chief's Selection and notification of 99th Cadet Class Members week of April 18th, for class to begin in early August.
- Lieutenant Promotional Exam April 20th.
- Members of APD's SWAT team attended hands-on forcible entry and ventilation class hosted by AFR Training Academy Staff April 12-14. Class intended to better help newer members of SWAT become familiar with forcible entry equipment and fundamentals for future application.

TECH SERVICES DIVISION

- Successfully reprogrammed all AFR Radios to include the new AFR-MACH dispatch channel.
- Completed the Scantron testing software installation at the Academy.
- Ongoing meetings with Vesta for the upcoming phone upgrade in the alarm room.
- Continuing to provision Premier One CAD.
- Attended the Motorola Summit to learn more about Premier One's capabilities.

INJURIES REPORTED	8	203
VEHICLE ACCIDENTS	3	16

RECORDS MANAGEMENT

- Collaborated with UNMH's Director of Stroke & Heart Failure Programs, to evaluate processes for measuring, assessing and improving continuation of care for stroke patients.
- Provided Bernalillo Count's Department of Behavioral Health Services- Harm Reduction (DBHS) with data revolving around Naloxone administration. The efforts are aimed at reducing environmental and public nuisance harms and promote an overall safe community. With the data, DBHS collaborated with the GIS Department to develop a Naloxone response layer to the Needle Mapping page.
- Assisted ACS with developing processes to handle record requests and procedures for releasing and tracking record releases.
- Met with the City's Violence Intervention Program Manager to go over the process of becoming Medicaid provider and how to develop medical billing processes.

HEART

- In the month of April, HEART provided 88 rides with its "Rides with HEART" rideshare service.
- The HEART Home Modification Program provided 52 home installation services. We usually average 33. These home installations included grab bar installations and ramp building in order to prevent falls.
- HEART received and processed 34 referrals for service. The patients were processed and moved into one of our many programs.
- In a partnership with the Office of Substance Abuse Prevention HEART provided all AFR Stations with "Leave Behind Narcan Kits" to provide to community members in need.
- HEART BEATS had their 1 year anniversary!
- To date, the HEART BEATS stroke discharge program has received over 191 referrals for service. HEART is currently working with 72 patients in the program. Two more staff members are currently undergoing training to expand the HEART BEATS program and are close to being able to perform assessment as a separate team.
- Be Brave Fall Prevention Classes taught at North Domingo Baca Multigenerational Center and Highland Senior Center.
- HEART hosted and taught Community Health Worker certification class. Thirteen students in total. Combined of AFR and AMR.
- Worked to help Violence Program Intervention (VIP) team identify resources for their mission.
- Provided data gun violence data for data tending for VIP.
- Meet with Adult Protective Services to reestablish the partnership post covid.
- Provided support fill for frontline units.

PHARMACY

- New LP15 devices received.
- Waiting on clinical training to distribute.
- Significant EMS supply back orders throughout the month. Finding replacements. Preparing for the new fiscal year with new blanket PO's.
- City warehouse visit to see if any of the supplies they have we can use.
- DEA license in the process of renewal.
- Scheduled the annual Controlled Substance inspection with Jimmy.

QUALITY ASSURANCE 78

- The EMS Division has worked 43 Cardiac arrests with 11 ROSC's for the month.
- There were 42 critical trauma patients with AFR transporting or ridding into the ER.
- There were 4 field deliveries of newborns for the month.
- 5 endotracheal intubations with an 80% success rate.
- 52 AFR transports for the month.
- We are currently addressing a system wide issue with the i-gel device.

SPECIAL OPERATIONS**WILDLAND**

- For the month of April, the Wildland Division hosted the Wildland Engine Academy, and the Cadet's Wildland week. The Wildland Engine Academy curriculum consists of; S-211, Portable Pumps and Water Use, and PMS-419, Engine Operator. The Cadet's Wildland week consists of all required training to become an entry-level Wildland Firefighter.
- Due to severe fire weather conditions, the AFR Wildland Task Force responded to multiple outside fires this month. AFR crews have done a tremendous job keeping these fires under control. Red Flag Warnings will likely continue into early-mid July, after which we will hopefully experience our monsoon season. The National Oceanic and Atmospheric Administration (NOAA) predicts that New Mexico will experience normal to above normal monsoons this year.
- AFR has deployed multiple resources to the fires that are affecting our state.

**HAZMAT**

- Updated training for all three shifts at both station 13, and 17. Training included a hands-on refresher with monitors, as well as our new decontamination system.
- State Fire came to show different types of hands-on training with station 17 crew. The training consists of identifying an unknown substance with the use of the monitors we have on our squad trucks.

FIELD OPERATIONS CENTER

- The Field Operations Center has remained steadily busy. With the help of filling positions during the week from personnel in support divisions, forcing members to work overtime has been lessened. The FOC continues to determine better solutions for the staffing difficulties we see on an almost daily basis.

HEAVY TECHNICAL RESCUE

- AFR Crews along with APD responded to a 198' Cell tower to work with the individual and crews to return him to safety. The individual climbed up the tower without any fall protection. Due to his demeanor crews were prepared with a rigging and rescue plan if needed. After falling twice and getting caught on the self-supporting tower. The individual climbed down under his own power and was treated for his injuries. AFR crews worked with the cell companies and local Experts to ensure the tower was safe to climb and rescue as needed.
- AFR along with BCSO MCAT and APD Open Space completed 28 students through their Swiftwater operations and technician course. The course started with personal skill for water survival and team-based rescues. After completing the rigorous waterman ship test students continued on to develop response plans for search operations that will support rescue, recovery, and evidence as needed. Due to the nature of our river valley and the immediate Responses required, the training was done jointly with our fellow responders and public service entities.
- AFR members completed the practical refresher for the flood channel river system. The flood channel system is very different from our Swiftwater responses due to being tied off, and we WILL NOT enter the flood channel waters for a go rescue. Albuquerque is growing and the water flow is increasing during the storms. AFR along with BCSO MCAT and APD open space trained for immediate response to forward safe rescue opportunities for anyone that is caught in the relentless powerful and predictable force of flood water.
- The AFR Airboat program was able to support the wildland task force with a fire they had below the bluffs of the city along the Rio Grande. Airboat One was able to act as a second look out, deliver crews to the waters/fires edge, deliver equipment and fuel, and offer immediate pick up if any crew needed to use the river as an escape route.

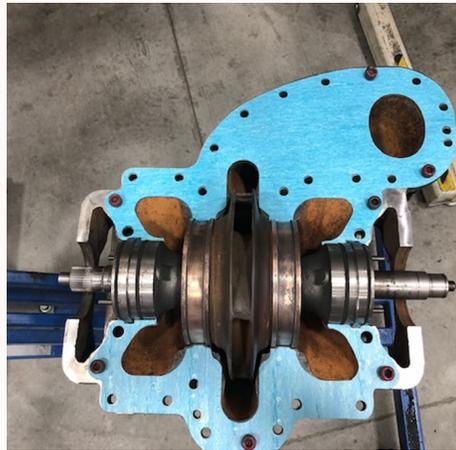

SPECIAL EVENTS

- On April 27th several AFR units and Special Operations Battalion Chief attended a mass casualty training exercise at ABQ Sunport. The scenario consisted of an in-flight emergency and crash of 727. AFR was one of multiple participating organizations working triage, coordinating transport, and working in a Unified Command Post to mitigate the mock MCI.
- AFR Special Events coordinated with City Cultural Affairs to provide EMS coverage for Albuquerque's Birthday Celebration in Old Town on April 23rd and for Mother's Day on May 8. As we head into the Summer season, AFR Special Events will be representing AFR at various events to contribute and provide EMS. These events include: Summerfest and Freedom 4th, just to name a few.
