FIRE STATION DISTRICTS

These events are activated by the AFR Dispatch Center as a “Significant Event” based on specific criteria and emailed to media and specific AFR members but does not include all responses by AFR to emergency calls.

7/2 - Residential Fire: AFR crews responded to the 800 Block of Towner Ave NW in fire district 4 to a working fire with smoke and flames showing. Engine 4 made entry quickly and had the fire under control within minutes. Engine 6 helped with attack and overhaul while Rescue 4 performed a primary search. One occupant and 3 dogs were all able to get out of the house and are safe. No injuries were reported. Unfortunately, the house was a totally loss.

7/3 - Residential Fire: AFR crews responded to a vacant single family home located at 4300 block of Mesa Grande Pl SE in fire district 3 with heavy smoke showing upon arrival. Engine 11 made an aggressive attack with 1 3/4 inch attack line and had the fire under control within 9 minutes of arrival. No injuries were reported.

7/8 - Residential Fire: AFR responded to a single story residence located on the 12500 block of Rosemont NE in fire district 8. Units arrived to find smoke and flames coming from the garage. Firefighters had the fire extinguished within minutes. Fortunately, the homeowner noticed the fire and quickly grabbed his kids and pets and called 911 immediately. The small fire was contained to the garage so the occupants will not be displaced. There were no injuries reported.

7/10 - Residential Fire: AFR crews were dispatched to a single story residential home located on the 1000 block of Carol St. NE in fire district 9. Upon arrival crews encountered smoke and flames coming from the home. Firefighters quickly pulled a cross lay to fight the fire. The fire got into the void spaces which made it a bit trickier to extinguish, but fire crews had the fire under control and extinguished within about 15 minutes. The homeowner was home at the time and initiated the 911 call. The occupant was outside when fire crews arrived. The home sustained quite a bit of damage and the homeowner will be displaced. There were no injuries reported.

7/11 - Commercial Fire: AFR fire crews were dispatched to an outside fire at the Scarpas restaurant located at 5500 Academy Rd NE in fire district 15. When Engine 15 arrived they recognized a trash pile against the building had caught nearby connex boxes on fire. These large containers were next to the gas meter and set the gas meter on fire. A full dispatch was requested at this point. Firefighters pulled an attack line to protect the structure while simultaneously shutting the gas meter off. The fire was extinguished within minutes of responding. No injuries were reported.

7/12 - Residential Fire: AFR crews were dispatched to the 300 block of Dallas St SE in fire district 5 to a single story residential home. Firefighters encountered smoke and flames coming from the back of the house upon arrival. Interior crews announced the structure was an enclosed structure (wrought iron), and appeared to be abandoned with boarded up doors. The fire was quickly extinguished. The structure appeared to be inhabited by squatters but was currently vacant. The structure was left in possession of CABQ Code enforcement.

AFR crews administer oxygen to two dogs that suffered smoke inhalation.

AFR firefighters work with Abq. Animal Welfare to free this canine that needed to be sedated prior to removing the rim.

7/17 - Commercial Fire: AFR crews were dispatched to a commercial structure fire at 933 San Mateo Blvd NE in fire district 11. Upon arrival, crews found smoke and flames coming from the roof. A ladder truck was used to gain access to the roof and deploy an attack line. The fire was quickly isolated and under control within minutes. There were no injuries to civilians or firefighters.

7/17 - Apartment Fire: AFR crews were dispatched to a fire at 1004 Indiana St SE in fire district 11. Upon arrival they found smoke and flames coming from the home. Crews made a quick attack of the fire. Crews found a woman whom they rescued through a window and transported. There were no other injuries to civilians or firefighters. Arson was called to investigate the cause.

7/20 - Swift Water Rescue: AFR units received reports of potentially three victims swept away in rapid waters following flash flood conditions near 7500 Constitution St NE in fire district 9. The victims were not spotted at the designated checkpoints AFR Swift Water crews had established. Unfortunately, three bodies were discovered in the North diversion channel near Roy Rd and 4th St. NW over the next three days.

7/27 - Swift Water Rescue: AFR units received reports of a female victim swept away in rapid waters following flash flood conditions near Wyoming and San Francisco Rd NE in fire district 20. The victim was not spotted at the designated checkpoints AFR Swift Water crews had established. The victim was found deceased the following morning in the North diversion channel near Roy Rd and 4th St. NW.

7/28 - Residential Fire: AFR units On July 28, at approximately 11:53 in the evening, Albuquerque fire rescue crews were dispatched to the 3600 block Yippee Calle Ct in fire district 18, Northwest for reports of a structure fire. A neighbor who called 911 to report smoke coming from the structure stated the owner was out of town. Upon arrival, engine 18 reported heavy smoke coming from the roof of a two-story residential structure. Engine 18 quickly forced entry into the home and begin searching for the fire while Rescue 18 was simultaneously conducting a search of the entire residence to ensure there were no occupants. The fire was located in the void space between the ceiling and the roof. The firefighters quickly began pulling down ceiling to expose and extinguish the fire. The home was in the process of getting a new roof which appears to be where the fire originated. In total, nine AFR units responded and worked together to contain the fire to the home of origin, not allowing it to spread to any of the neighbors homes. There were no injuries to civilians or firefighters. There is no further information available for this call.

AFR worked with APD, BCSO, BCFD and Sandia Pueblo PD to locate the bodies of three victims that perished after two flash flood incidents in late July.

Engines 4 and 10 respond to a RV fire near I-40 and Coors. The vehicles occupants unharmed.

1. Albuquerque Fire Rescue joined the family of Councilor Ken Sanchez, Mayor Tim Keller and Abq City Council for the dedication and renaming of Fire Station 7. Councilor Ken Sanchez was an exceptional advocate for Albuquerque's west side and worked hard to build Fire Station 7. The dedication came on Ken Sanchez's birthday who would have been 65.
2. AFR recently began using a department owned drone (UAV) for search operations involving victims of the flash flood conditions in late July. Aerial cameras allow a unique and valuable perspective in multiple scenarios. This operation confirmed that having these new tools available will greatly benefit our department and the community we serve going forward.
3. AFR deployed 3 members of the Wildland Task Force to Oregon along with BCFD, and Cochiti Fire personnel. They assisted with the Bootleg Fire which was at 273,582 acres at the time of their deployment. The AFR crew consists of; Firefighter Karina Hernandez (ENGB), Paramedic Driver Justin Moore (ENGB), and Paramedic Driver Daniel Murphy (ENOP).
4. AFR Station 19 held a traditional push-in ceremony for their new engine, a 2021 Ferrara Cinder. Family & Community Services was instrumental in the acquisition of Engine 19 through the Community Development Block Grant.
5. Lt. Athena Valerio-Hirschfeld, Lt. Jake Gray, and K-9 Wrigley, Crisis Response Canine attended the Friendship Coffee at the Highland Senior Center. Lt. Gray used this opportunity to discuss and demonstrate Wrigley's special skill set.

AFR, Albuquerque Police Department and New Mexico National Guard completed the fifth and sixth week for Camp Fearless hosted at Oñate Elementary and Sagebrush Church on Coors NW. Live rescue scenarios were demonstrated at the Whitewash Trail and the Rio Grande river. This new group of campers learned basic first aid, injury prevention and a comprehensive demonstration of emergency response agency operations. These last two weeks were unique as the rescue operation demo was also a training exercise for the Office of Emergency Management. Members from Albuquerque Mountain Rescue Council, Rio Grande Basin Rescue, Rio Rancho Fire and Rescue and the UNM EMS Consortium also contributed their expertise to make these events fun and safe for all.

FIRE MARSHAL'S OFFICE

FIRE INSPECTIONS

- Inspections- 577
- Tent Permits- 22
- Special Events Approved- 9
- Special Dispensary Permits- 46
- Tank Pulls- 1
- Blasting Stand by- 8
- Firework Standby- 9
- Movie Standby- 15
- Food Truck Inspections- 23
- First Due Pre-Incident Plans- 176
- Fire Safety Training Adults- 240 People
- Extinguisher Training- 160 People
- Fire Warden Training- 120 People

For the Fourth of July holiday weekend, the Fire Marshals Office sent out 18 inspectors, accompanied by 18 APD officers, to patrol and issue Cease and Desist orders throughout the city. The remaining 14 inspectors were sent to 5 different parks to inspect and standby for 5 different firework displays set to go off simultaneously around the city. Everything went off without a hitch and the collaboration between all the different city entities worked well.

This year's Camp Fearless was a huge success. FMO sent 5 inspectors for five weeks, and along with APD, National Guard and many others put on a great camp for well over 100 kids. They put on many different interactive events that really engaged the children and taught them some valuable life lessons. The children got to simulate a mountain rescue, a river rescue, and learn a part of what emergency workers do. One of their favorite activities was a tug-of-war that teamed all the kids against Gary Davis. Gary won!! Every year, seeing the positive impact this has on the children, makes it such a worthwhile event.

Illegal fireworks removed from the streets of Albuquerque on the 4th of July.

ADAPT

- ADAPT has had 82 properties that have been formally brought into the program, 28 have been cleared from the program and 54 are still in the program at different stages. ADAPT continuously monitors the properties that are in the program to track their compliance with the Nuisance Abatement Agreement.
- There are 125 properties on the Unsafe Buildings list, 4 new properties were added to the list, and 1 property was removed because of demolitions. The list is in Target Solutions file center, under the FMO > ADAPT > Unsafe Buildings tab. The properties are labeled on the First Due application with a white "X" on a red background.
- The APD Crime Prevention Specialists inspected 3 properties.

PLANS CHECKING

- **Total Inspections –94**
- **Total Plans Reviewed – 319**
- The Plans Checking Division is working closely with APS to expedite and open the renovations made at Zia elementary, Montezuma Elementary and Reginald Chavez Elementary schools for the upcoming school year.
- The wheels Museum located at The Rail Yards is now officially open with their new certificate of occupancy.
- The Plans Checking Division is working closely with the New Hilton Hotel located at 222 Central. The New Hotel is located on the corner of Central and Broadway. It is a six-story facility with a new parking structure. We are in meetings with the contractor to finalize all the inspections for the project.
- The Plans Checking Division is fortunate enough to work with new building materials and methods within the industry. Recently we've had the opportunity to work with new technologies involving server containment units. These units work in conjunction with the existing sprinkler systems and are integrated into the fire alarm system. Included are some pictures of the hardware that emergency units may see in these new server rooms.

FIRE INVESTIGATIONS DIVISION

- **12 fires investigated in July.**
- **0 Natural**
- **1 Accidental**
- **3 Undetermined**
- **8 Incendiary**
 - * **Exceptionally Cleared 5 (CLE 62%)**
 - * **1 of the 8 were Youth fire set**
 - * **0 Bosque**
 - * **1 Vacant/Abandoned property**
- The fire investigations division made an arrest following a great fire extinguishment by stations 13,19 and 3. The single wide mobile home was extinguished without any injuries or extension into the adjacent mobile home. Witnesses were identified by fire crews which led to some solid video and

witness statements being obtained by Fire Investigators. The suspect was later arrested and charged with a 2nd degree felony.

- 8 letters of interest were submitted for the upcoming Captain vacancy within the division. Interviews have been scheduled and upon section the process to gain acceptance into the Police Academy will begin.
- Curbs were painted adjacent to the Arson Office in the St. 13 parking lot. These spaces are to be utilized by arson personnel in order to keep the vehicles parked behind the locked gate at night.

- July Safety Message Poster was an introduction to the Peer Support Team

HEALTH AND WELLNESS OFFICE

The H&W Office continues to develop comprehensive programs that will benefit AFR fire fighters for years.

- The BH Director and H & W Officer continues to visit stations to introduce the BH director and overview the program to crews. The goal is to visit 2 stations/divisions a week until the entire membership has had a chance to be introduced.
- H&W Office sent out information via the internal memo system, providing resources and topics that address resiliency in the Fire Service.
- The Peer Support Team Hosted the quarterly meeting in the 13th to keep program continuity. Guest instructor provided overview class on CISM model.
- The AFR Chaplaincy continued to build on the roles and structure of the program. The Chaplain participated in the CISM debriefings offering the support of the chaplaincy. 5 of the 6 members of the chaplaincy are registered and plan on attending a IFOC Chaplaincy training (40 hour) course.
- Participated in APD SCION, focusing on career of LE and PTSD.
- Continued to network with surrounding agencies to optimize the delivery of our support systems. Met with behind the badge to discuss how their organization could potentially support FFs.
- The office started to consider how it could positively impact members H&W from more than just BH. H&W officer met with "Solutions" group contracted by Pres Insurance for possible programs to bring to our membership. We will meet again in August to finalize a plan to execute some of these initiatives.
- Taught block in the Lieutenant Certification course on Mental Health from the Fire Officer perspective.

PUBLIC AFFAIRS OFFICE

- This month our office had 14 media interviews/interactions.
- Conducted several media interviews following flood channel recoveries and fireworks safety PSA's for July 4th.
- Participated in Retirement for Chief Frazier.
- Conducted Press conference for the renaming of Fire Station 7 in honor of Ken Sanchez.
- Conducted Engine 19 Push-In Ceremony.
- Filmed and edited videos for Camp Fearless.
- Conducted drone missions to search for victims located in the North Diversion Channel.
- Designed Cancer Memorial Plaque for installation at fire station 9.
- Designed new Camp Fearless logo.
- Completed designs for Childhood Cancer Awareness Month and 9/11 t-shirts.
- Completed designs for Training Academy wall art installation near west entrance.

Community Risk Reduction

- 1 Risk Assessments - Senior Affairs
- APS school safety meeting
 - * Review and assess all APS schools
- Drone operations for arroyo search and recovery efforts
- Executive Safety Committee meeting- Lifesaver equipment proposal
- Completed assigned CPSE Performance Indicators
- Resolver demo- risk assessment systems
- Quill security demo- risk assessment systems
- AFR Risk Assessment program updates
- OEM Evaluation completed for Camp Fearless Exercise
- Kids Cabinet Annual Meeting
- JTTF webinar

AFR PAO Driver Rettinger with Lt. Vincent Manwill of BCFD during drone search operations near the North Diversion Channel.

TRAINING & COMMUNICATIONS**TECH SERVICES DIVISION**

- Completed the computer testing room at the Academy.
- Ongoing meetings with MACH Alert for the Fire Station Alerting System.
- Ongoing meetings with Motorola for the new CAD Premier 1.
- Set up CV-1 to assist APD with camp Fearless.

ALARM ROOM

- 10,176 priority responses created July 1, 2021 – July 31, 2021.
- 18,0244 total incoming calls process by Alarm for the month.
- 10,093 emergency calls received.
- 8,151 non-emergency calls.
- 5,795 incident dispatch increase for the same time period last year.
- 911 calls answered in average of 6 seconds.
- Mach Alerting continues to progress and install to begin next couple of months.
- Motorola CAD being developed.
- Albuquerque Community Safety details being worked out with dispatches, coding and units being configured.

TRAINING & PROFESSIONAL DEVELOPMENT**Cadet and Probationary Programs – Currently 47 FF 2/C assigned to the Field**

- 96th Cadet
 - * 17 FF 2/C's currently assigned to the field on probation.
- 97th Cadet Class
 - * 43 to begin August 2nd.
 - * EMT students graduate December 3rd.
 - * Non-EMT to graduate late January 2022.

Professional Development/Facility Usage

- New two-week Lt Certification course was held at the Training Academy from July 12-2.3
 - * New course featured in depth presentations on fire behavior and tactics.
 - * Additional training evolutions implemented to give our future officers more opportunities to develop communications and command presence.
- Driver School started July 26th on the heels of the Lt Cert and will run through the first week of the 97th Cadet Class.
 - * Additional field personnel will be featured as guest instructors for future drivers offering front line experience and advice.
- Groundbreaking for new training structure began Monday August 12th with expected completion in the coming months.
 - * The new structure will be a smoke structure allowing for reduced visibility evolutions and training.
 - * The new structure will feature multiple levels and entrances for training and simulations. New structure located on the NW quadrant of the drill field near the car fire prop.
- Day 2 Suppression Refresher began July 10th.

- Battalion Chiefs coordinated units to go out of service to complete training.
- Several stations are set up with and evolution in the afternoon.

EMS

- Paramedic School
 - * 3 AFR members graduated UNM's paramedic school program on July 15th. Congrats to Driver Carlos Miranda, Firefighter Ryan Hill and Firefighter Craig Amend.
 - * Several CNM P-School students had scheduling issues that were becoming an issue. Working with CNM we were able to find solutions and change ongoing procedures to prevent this in the future.
 - * An AFR member in CNM P-School contracted COVID-19, the Firefighter is doing well and recovering quickly. All contact tracing and State notification done by AFR Safety Officer, and CNM's program director.

Community Training

- AFR's Training Division, In conjunction with CABQ's Employee Learning Center, restarted Lifesaver training for new employees. This was the first Lifesaver training held since COVID-19 shut downs were instituted. It was received with great enthusiasm by CABQ new hires, and we got outstanding feedback for all AFR members involved with the training.

AFR Interdivision Involvement

- Assisted Captain Salazar in transporting EOC supplies from Academy grounds to off-site storage.
- Created and assigned July assignment in TargetSolutions.
- Worked with Dr. Pruettt on additional training for the department, including the Advanced Lecture Series.
- Assisted with day 2 suppression refresher.
- Filmed and edited multiple training videos using AFR's studio.

Relicensure

- Delivered Mobile Training Units CE's to EMT-Basics and EMT-Intermediates.
 - * ECMO
 - * Pediatric drowning scenario
 - * Adult respiratory distress scenario
- Uploaded daily rosters and AHA rosters to X-drive and to NM EMS Portal.
- Created daily rosters for the EMS CE classes.
- Ran reports and coordinated make-up CE classes for field personnel.
- Worked on process to dramatically reduce time spent by EMS training staff entering CE's on NM DOH website.

OPERATIONS**WILDLAND****4th of July Readiness**

- In order to be proactive and assist front line units for a busy Fourth of July weekend the AFR Wildland Division, along with surrounding agencies, coordinated an Albuquerque metro area initial attack plan. Brush units were staffed throughout the day and into the evening to conduct patrols, respond to wildland incidents and conduct small training evolutions. Fortunately, with the help of recent rain and good communications, vegetation fires were minimal and quickly extinguished.

Deployments

- The AFR Wildland Division deployed resources to the following fires:
 - * Brush 22 – 115 Fire, 10 acres- Aztec, NM
 - * Brush 22 – currently assigned to the Bootleg Fire – 413,400 acres in Bly, Oregon
 - 3 personnel – 1 Engine Boss, 1 Engine Boss (trainee), and 1 Engine Operator.
 - Assigned as a part of a New Mexico strike team, consisting of resources from the following agencies: Bernalillo County Fire Rescue, Los Alamos County, San Juan County, Valencia County, Cochiti Fire Department, Sandoval County and Farmington Fire Department.

HTR

- Albuquerque Fire Rescue has been very busy with flood channel rescues. During the month of July, AFR responded to eight individuals in the flood channel. Joint efforts with APD and BCFR resulted in the rescue of four of those individuals.
- The AFR Heavy Technical Rescue Division and doctors with the UNM EMS Consortium spent four days training on technical rescues to include: vehicle extrication, high angle rescue, flood channel and swift water rescue. This training allows the doctors to experience the unique challenges from a rescuers perspective and rescuers learn best medical practices from the doctors.
- AFR crews were dispatched to an individual who became trapped in a storm drain. The injured male had to be secured with rope systems in order to ensure he could breathe while firefighters were working to extricate him from the storm drain. AFR crews then had to dismantle the drain while being mindful of the confined space they were working in. The atmospheric readings obtained showed that the space was flammable presenting additional challenges. AFR crews were able to mitigate the atmosphere and safely rescue the individual from the storm drain.

EMERGENCY SERVICES**RECORDS MANAGEMENT**

- RMS Monthly Training- AFR Transport/Billing Documentation Guidance & Check List.
- Participated in Lt. Certification Class, contributing increased training in Proper Documentation and ImageTrend.
- Contributed data revolving around Narcan administration to Bernalillo County Department of Behavioral Health Services. The data are being used to assist in reducing environmental and public nuisance harms and promote an overall safe community.
- Contributed data revolving around cardiac arrests to Bernalillo County Community Health Council.
- Assisted ADAPT with ImageTrend training and data analysis.
- Working with the Alarm Room and Tech Services to more accurately document AFR's total incident response, while potentially highlighting areas of improvement.
- Updating EMS Protocols
 - * Pediatric Cardiac Section
 - * Pediatric Cardiac Post Resuscitation
 - * Neonatal Cardiac Arrest
 - * Pediatric Cardiac Arrest
 - * Infants and Children in Cardiac Arrest
 - * Needle Decompression
- Contributing data revolving around 17 A&B response to address potential change in response packages.
- Contributed data revolving around 4 A&B's response to address potential change in call processing/dispatch.
- Began tracking Cerebral Oximetry use and assisting in obtaining data.
- Collaborating with AAS for
 - * Agency to agency transfers of EPCRs.
 - * Developing a LP15 common profile.

QUALITY ASSURANCE

- Multiple CPOX delivered and study has begun
- Fellows have begun their ride-alongs with 78/Dr. Pruett
- PECMO is tentatively scheduled to begin August 17th. Most likely will not meet that goal, but we are close.
- 78's have been spreading the word about pediatric Narcan with the opiate crisis trickling down to infants.
- Kat and Rob have been working with multiple members to get them credentialed. (Let me know if you have anyone you want me to start working with. I really enjoy training/teaching).

HEART

- In the month of July, HEART took over 960 calls for “Rides with HEART” ride share services and provided ride services for 370 people between the ages of 50 and 59 and 590 for people 60 and over.
- The HEART Home Modification Program provided 32 home installation services. These home installations included grab bar installations and ramp building in order to prevent falls.
- HEART received and processed 20 referrals for service. The patients were processed and moved into one of our many programs.
- In a partnership with the Office of Substance Abuse Prevention HEART provided Stations 1, 3, 4, 5, 7, 11, 12, and 14 with “Leave Behind Narcan Kits” to provide to community members in need. During the month of July, 20 kits were given to community members in need. HEART hopes to expand the program city wide in the near future.
- HEART sent Lieutenant Laurianna Sargent and our Crisis Response Canine Wrigley to Santa Fe for a week long training at the Assistance Dogs of the West training facility. At this training, Lt. Sargent was trained to be the secondary handler to Wrigley. Also, Lt. Athena Valerio-Hirschfeld was sent to the training for two days to become Wrigley’s respite handler.
- The HEART “Be BRAVE” Fall Recovery Class started back up for its first time since the beginning of the COVID pandemic. HEART providers were able to provide the training to a group of residence at The Montebello on Academy - Senior Living Community.

MEDICAL DIRECTOR

- Consortium Fellow orientation - thanks to Lt Spain for teaching ropes, vehicle extrication, flood channel and airboat - they had a blast.
- EMS Corps lectures - block 1 review, BLS airway, pharmacology, shock, anaphylaxis.
- EMSA lectures - forced transport and MCEP calls, pathophysiology and acid base, pharmacology.
- Case study development and EMS day 2 planning with Capt French and the EMS training team.
- Updated guidelines for peds needle decompression and peds AED usage.
- Working on re-starting mobile ECMO, MOTU and refresher training completed.
- Chart review - we did a GREAT job on pain management and SVT this month.
- ** we are continuing to see pediatric (ages 0-3) opiate overdoses, so don't be afraid to give narcan to children who are not acting normally**

PHARMACY

- Completed the end of fiscal year clean up (budget).
- Providing multiple sets of gear for multiple special events.
- LP15 PM's almost done.
- City wide Versed expired at the end of the month and all is replaced.
- E10 Narc Box sent off for repair.
- New bags still being sent out via request of/for damaged bags.
- CyanoKits still on backorder.
- TEMS Rescue at the office. Waiting on further instruction.
- New employee (Kevin) still very impressive. Working well with everyone.

PLANNING & LOGISTICS**LOGISTICS**

- **Total open Tickets: 49**
- **Resolved: 152**

Bunker Gear Laundering

- Number of sets laundered and returned 71
- Total primary sets turned in for laundering 41
- Secondary sets laundered and restocked 30
- Sets of gear repaired (primary and secondary) and returned 12
- Sets of gear still out pending repairs 3
- Flash hoods laundered 64
- Flash hoods removed from service 10
- Flash hoods added to inventory 10
- EMS Bio-hazard Decontamination Pants 6
- EMS Bio-hazard Decontamination Shirts 5
- Wild Land Shirts 7
- Wild Land Trousers 7

General Information

- 97th Cadet Class, all Cadet Class Gear ordered (3 vendors).
- Fire Chief New Conference Table Ordered, install scheduled 8/4/2021.
- PM for Cascades for Air Quality Inspections Completed.
- 50 X3 Scott SCBA Packs for Fire Academy Completed, Cleaned and Flo Tested.
- 50 30min Cylinders for Fire Academy in process.
- 600# of Chlorine for Fire Academy purchased and delivered.
