- V. Housing Rehabilitation Program Update and Economic Development Update
 - **Housing Rehabilitation Program Update:**
Yolanda is working very hard at getting the Homewise contract executed. It was introduced to City Council at their meeting last week and is making its way for final approvals. There was discussion at the last meeting, for the AMI to be at 50%. We had it in the policies and procedures to be for individuals who are at 80% or below AMI are eligible for the program. The compromise with Homewise is that, individuals who are at 65% or below AMI will be given a preference point for the program.
 - **Economic Development Update:**
Quarterly report from the Economic Development Department was received. To date they have assisted a total of 24 businesses within the pocket of poverty. Two of those businesses were located in the Barleas Neighborhood and that was the report ending March 31, 2026. The next quarterly report will be due July 15, 2026. More updates will be provided at the next meeting on the number of businesses that received assistance for the window repairs or any type of vandalism to their business that were located in the pocket of

poverty.
