

# Stairwell Safety

Follow these simple guidelines as stairwell safety precautions.

## **Always Use the Handrails**

They can help prevent a fall if you slip or trip.

## **Don't Impair Your Vision**

Avoid carrying loads that block your vision or require two hands.

## **Don't Text or Read While Taking the Stairs!**

Look straight ahead at the stairs in front of you.

## **Obey Basic Traffic Rules**

Stay on the right side of the stairwell to avoid collisions.

## **Be Vigilant**

Alert maintenance personnel if you notice stairwell lights have gone out or the tread on stairs has worn off or is damaged.

## **Wear Proper Shoes**

Avoid taking the stairs if you are wearing shoes with slick soles or high heels.
