

City of Albuquerque Metropolitan Redevelopment Agency

Housing Conversion RFP #01-2024 Formal Inquiry #2 Posted March 16, 2024

Question Received *(Related to Appendix B, Community Benefits Matrix, line 22)*

Related to Sustainable Development Patterns:

Are there any specific requirements (location or size) for the ride share loading space?

Agency Response: If proposed as a part of the project, a rideshare loading space must be on-site (i.e., not on-street parking; unless the entity has acquired or privatized the right-of-way). The ride share loading space should be a typical size as required by applicable City parking or loading zone design standards. Otherwise, there are no requirements for location or size.
