The “status” bar will indicate the progress of your uploads. Do not hit cancel or navigate away from this view.

## Step 7

Once your files have completed uploading, the page will automatically change and provide this upload confirmation. The file directory will appear blank or “empty” after successful upload, in order to prevent Respondents from viewing or downloading competing parties’ Responses. It is now safe to navigate away from this page. If you have forgotten to upload a required document, you may repeat this process again.
