EXPLORA

BRILLANTE

STEAM EARLY LEARNING CENTER

Brillante will be the state's only full-time museumbased STEAM early learning center. It will be inspired by the world-famous Reggio Emilia method and will serve over 100 infants, toddlers, and young children with rich STEAM learning experiences.

Brillante also will develop our state's next generation of early childhood development professionals. serving as the lab school for local higher education institutions, like CNM. Additionally, it will provide ongoing professional development for early childhood educators from across New Mexico and state-of-theart facilities, like a materials-rich atelier, that can be used by other local centers.
