

**Questions from potential bidders concerning
Project No: 6573.00; Architectural Consultants for City Wide On-Call Architectural Services
for the City Council Services Department**

Q1: Does the City/City Council Services Department have any specific type of projects in mind?

A1: Projects may include design analysis reports, engineering for all types of projects to improve City owned, non-roadway, facilities. Oftentimes projects may include potential community centers, a park improvement, or a facility that is owned by the City and leased to a non-profit service provider. At times, we may have small projects that would require full design services.

Q2: How will task orders be structured/issued; how will the City determine which of the firms will do specific projects or task orders?

A2: Task orders will be distributed based on work load in an effort to spread the work evenly among awardees.
