Background

The Bernalillo County Youth Sports Commission, a joint effort between the City of Albuquerque and the County previously identified the need for a new facility to support a variety of indoor sports. The City of Albuquerque has been working to make this a reality, leveraging bond and City funds with State Capital Outlay funding.

This funding will enable the Department of Parks and Recreation at the City of Albuquerque to acquire land and to plan, design, construct, improve, furnish, and equip an indoor sports complex in northwest Albuquerque.
